No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K001	Lake Waiorongomai	DOC (57)	Lake Waiorongomai, North Otaki S25 906/529	Dune lake 15.1ha. Best dune lake with outflow to the sea in the Kapiti District. Wetland habitat is nationally under-represented. Provides important habitat for wetland species including kapungawha. Under considerable threat from stock and drainage. SIGNIFICANCE: Regional
K002	Lake Huritini	DOC (46)	Lake Huritini, North Otaki S25 921/534	Dune lake / Wetland – 16.75ha. One of the few remaining dune lake and wetland associations within Foxton Ecological District and is representative of a formally more common habitat. Wetland habitat is nationally under-represented. However, the site is modified and exotic species are common. Provides habitat for bamboo spike-sedge and kapungawha. Protected by DOC Covenant. SIGNIFICANCE: Regional
K004	Simcox Swamp	DOC (133)	Simcox Swamp - North Otaki. S25 928/522	Manuka wetland 4.61ha. Small, ephemeral wetland dominated by manuka scrub. Wetland habitat is nationally under-represented. Provides habitat for bamboo spike-sedge. SIGNIFICANCE: District

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K005	Pylon Swamp	DOC (118)	Waiorongomai Rd, Otaki S25 919/522	Wetland -1.8 ha. Very small and vulnerable with considerable threat from grazing and weed invasion. Has been considerably reduced in recent years. Wetland habitat is nationally under-represented. Provides habitat for kapungawha. SIGNIFICANCE: District
K007	Lake Kopureherehere	DOC (49)	Takapu Road, Otaki S25 936/519	Dune lake-wetland, swamp forest, tawa forest – 16.72ha. Provides an example of ecological sequence between dune lake, swamp forest and dry forest formally characteristic of the area but now uncommon within Foxton Ecological District. Has been modified and grazed. Wetland habitat is nationally under-represented. Provides habitat for kapungawha and kereru. SIGNIFICANCE: Regional
K008	Takapu Bush	DOC (677)	Takapu Road, Otaki S25 942/516	Tawa-kohekohe forest – 2.94ha. The largest example of the under-represented tawa-kohekohe forest habitat type within the Manawatu Plains Ecological District. Partially fenced, pest plant species absent. Indigenous vegetation on alluvial plain is nationally under-represented. Habitat for kereru. Provides example of sequence from dune lake habitat to forest on alluvial plains. SIGNIFICANCE: Regional
K009	Lake Waitawa	DOC (59)	Forest Lake Road S25 936/512	Dune lake / Wetland – 28.44ha. Lake margin vegetation largely reduced and subject to grazing in parts but contains representative elements of this habitat type. Wetland habitat is nationally under-represented. Provides habitat for kapungawha and kereru. SIGNIFICANCE: Regional
K010	Waimanguru Lagoon	DOC (14)	Forest Lakes Road, Otaki (Lake 1) S25 928/505	Wetland / Lagoon - 1.2ha. Small, degraded wetland. Wetland habitat is nationally under-represented. Provides habitat for small population

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				of bamboo spike-sedge although it is under threat from grazing. SIGNIFICANCE: District
K011	Rotopotakataka Lake	DOC (15)	Forest Lakes Road, Otaki (Lake 2) S25 932/505	Tawa forest / Lake. 2.38ha Very small area of uncommon habitat types. The lake has been modified and has an artificial species assemblage. Although this fragment is very small and under threat from pest plant species, tawa forest is uncommon within the Foxton Ecological District. Provides habitat for kereru and is a component of a series of fragments in the area. SIGNIFICANCE: District
K012	Ngatotorā Lagoon	DOC (86)	Wairongomai Rd, Otaki S25 918/503	Dune Lake / Wetland - 5.34ha Wetland habitat is nationally under-represented. Small, fragmented and unfenced but provides habitat for spotless crane and kapungawha. SIGNIFICANCE: Regional
K013	Pukehou Swamp	DOC (113)	Forest Lakes Rd, S25 933/499	Wetland, swamp forest, secondary indigenous forest - 24.77ha. Best and largest representative example of wetland-swamp forest associations in Manawatu Plains Ecological District. Wetland habitat is nationally under-represented. Provides habitat for Korthalsella salicornioides, Hypolepis distans and Doodia australis (Enright et al. 2002; Ravine 1995). Protected under QEII Covenant and DOC Covenant. SIGNIFICANCE: Regional
K014	Waitohu River Mouth	DOC (162)	Waitohu River Mouth R25 892/509	River mouth, wetland – 33.01ha. One of very few estuarine wetlands in the district. Wetland habitat is nationally under represented. SIGNIFICANCE: Regional.
K015	Haruatai Park forest	DOC (342)	State Highway 1 South, Otaki S25 921/480	Pukatea-kahikatea swamp forest, wetland - 5.78ha. This site is fragmented and under considerable threat from pest plant species. However, swamp forest is very uncommon in Foxton Ecological District.

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				Wetland habitat is nationally under-represented. Provides habitat for kapungawha and kereru. SIGNIFICANCE: Regional
K016	Staples Bush	DOC (679)	426 SH1 Nth, Otaki S25 921/480	Kohekohe-mahoe forest - 1.28ha. Small fragment of kohekohe-mahoe forest on river terrace tread; an uncommon vegetation type in Manawatu Plains Ecological District. Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: Regional
E17	DOC (281)	DOC/ Private	Tararua Ranges	Largest area of native bush/wilderness area on the Coast -42,390ha
K018	Castlehill Farm Bush	DOC (674)	Rahui Rd, Otaki S25 935/464	Kohekohe-tawa forest - 6.09ha The largest fragment of kohekohe-tawa forest in Manawatu Plains Ecological District. Indigenous vegetation on alluvial plain is nationally under-represented. This site is threatened by pest plant species. SIGNIFICANCE: Regional
K019	Waitohu Stream Bush A	DOC (675)	Waitohu Valley Rd, Otaki S25 943/465	Tawa-kohekohe forest - 2.63ha. Tawa-kohekohe forest is under-represented within the Manawatu Plains Ecological District. Indigenous vegetation on alluvial plain is nationally under-represented. Provides habitat for kereru. SIGNIFICANCE: Regional
K020	Hillas Bush	DOC (668)	Rahui Rd, Otaki S25 940/453	Kamaha forest - 2.11ha. Provides habitat for Powelliphanta traversi otakia (Department of Conservation 1996), one of only two known habitats nationally of this subspecies. Kamaha forest is uncommon in the Manawatu Plains Ecological District. Indigenous vegetation on alluvial plain is nationally under-represented. Protected by DOC Covenant. SIGNIFICANCE: National
K021	Rahui Rd Bush D	DOC (268)	Rahui Rd, Otaki S25 941/450	Totara-tawa-kamaha forest - 3.73ha Small, fragmented and under threat from pest plant species, however is a

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				representative example of totara forest with tawa and kamahi within Manawatu Ecological District. SIGNIFICANCE: District.
K022	Rahui Rd Bush F	DOC (670)	Rahui Road, Otaki S25 944/449	Kamahi forest, tawa-totara forest - 6.69ha. Small and fragmented, however is a representative example of tawa-totara forest within Manawatu Ecological District. Indigenous vegetation on alluvial plain is nationally under-represented. Kamahi forest is uncommon within the Ecological District. SIGNIFICANCE: Regional
K023	Rahui Road Bush E	DOC (669)	476-490 & 566 Rahui Rd, Otaki S25 947/437	Kamahi forest, tawa forest, tawa-kohekohe forest. - 19.59ha. Along with K025 this site is the best representative example of kamahi forest within Manawatu Plains Ecological District. SIGNIFICANCE: Regional
K024	Rahui Road Bush A	DOC (654)	535 Rahui Rd, Otaki S25 948/429	Pukatea-tawa-kohekohe forest - 3.36ha. Best representative example of semi-swamp forest within Manawatu Plains Ecological District. Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: Regional
K025	Rahui Rd Bush C	DOC (664)	566 Rahui Road, Otaki S25 954/427	Kamahi forest, tawa forest. - 10.9ha. Along with K023 this site is the best representative example of kamahi forest within Manawatu Plains Ecological District.
K026	Rahui Road Bush B	DOC (648)	66 Waimanu Grove, Otaki S25 957/416	Totara-kohekohe-kamahi forest, tawa-kohekohe forest. - 4.42ha. A small representative area of totara-kohekohe-kamahi forest. This habitat type and tawa-kohekohe forest are under-represented within Manawatu Ecological District. Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: Regional
K027	Otaki River Mouth	DOC (98)	Otaki River Mouth R25 878/473	Estuarine wetland, river mouth. - 71.52ha. The estuary provides habitat for banded dotterel, Caspian tern and long-finned

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				eel. Dune system is degraded and with high level of threat from pest plant species. Flood control measures have greatly modified the system. SIGNIFICANCE: Regional
K028	Gorge Rd, Bush D	DOC (673)	Otaki Gorge Rd, Otaki S25 913/448	Matai-totara-kohekohe forest. - 2.41ha. Small, fragmented and under some threat from pest plant species. Indigenous vegetation on alluvial plain is nationally under-represented. Provides habitat for <i>Korthalsella lindsayi</i> . SIGNIFICANCE: Regional
K029	Braeview Bush	DOC (672)	Otaki Gorge Rd, Otaki S25 928/448	Kohekohe-tawa forest - 1.85ha. A very small and narrow fragment, degraded in part, limited regeneration and under threat from pest plant species. Indigenous vegetation on alluvial plain is nationally under-represented. Provides habitat for kereru. SIGNIFICANCE: District
K030	Gorge Rd Bush C	DOC (671)	Otaki Gorge Rd, Otaki S25 922/444	Totara-kohekohe forest - 1.45ha. Small, fragmented and under threat from pest plant species, but one of only a few fragments of its type within Manawatu Plains Ecological District. Nationally under-represented habitat type. Part of a series of fragments providing links between Kapiti Island and the Tararua Ranges. Provides habitat for kereru. SIGNIFICANCE: District
K031	Otaki River Bush A	DOC (658)	Otaki Gorge Rd, Otaki S25 932/433	Totara Forest - 6.01ha. The largest and best example of totara forest on alluvial plains in the area. Indigenous vegetation on alluvial plain is nationally under-represented. Partially protected under QEII Covenant. SIGNIFICANCE: Regional
K032	Otaki River Bush B	DOC (659)	Otaki Gorge Rd, Otaki S25 934/432	Totara-mahoe forest. - 1.57ha. Contiguous with K031 (Otaki River Bush A). Representative of totara-mahoe forest although very small. Nationally under-represented habitat type. SIGNIFICANCE: District

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K033	Gorge Rd Bush A	DOC (656)	Otaki Gorge Rd, Otaki S25 930/429	Totara Forest. - 1.7ha. Small fragment with considerable weed threat and limited regeneration. Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: District
K034	Mansells Bush	DOC (687)	568 Otaki Gorge Rd, Otaki S25 940/413	Kohekohe-Tawa-nikau Forest - 4.19ha. A relatively small fragment of kohekohe forest on hill country. Protected by DOC Covenant. SIGNIFICANCE: Regional
K035	Hautere Bush C	DOC (662)	1081 State Highway South, Otaki, Nth of Te Waka Rd, Te Horo R25 897/441	Totara, titoki Forest. - 0.82ha. Provides habitat for <i>Streblus banksii</i> , <i>Ileostylis micranthus</i> , and DOC historic records list <i>Korthalsella lindsayi</i> . Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: Regional
K036	Te Waka Road Bush	DOC (661)	Corner Te Waka Rd / SH 1. Te Horo. R25 894/435	Totara-kohekohe forest – 1.61ha. Provides habitat for <i>Korthalsella lindsayi</i> and <i>Nestegis</i> . Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: Regional
K037	Cottle's Bush	DOC (663)	SH1 (opposite Te Waka Rd intersection, Te Horo) R25 895/434	Totara-matai forest - 1.46ha. Part of a series of fragments across the plains providing links between Kapiti Island to the Tararua Ranges. Recovering from grazing, weed infestation, currently low quality but recovering. Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: District
K038	Hautere Bush F	DOC (686)	SH1 (opposite Te Waka Rd intersection, Te Horo) S25 900/438	Totara-titoki-matai forest - 3.51ha. Convoluted, unfenced and lacking an understorey. Part of a series of fragments across the plains providing links between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: District

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K039	Hautere Bush E	DOC (685)	64, 66 Old Hautere Rd, Te Horo S25 903/440	Totara-matai-titoki forest – 3.25 ha approx (area registered excludes trees on Lot 1 DP 74253). Indigenous vegetation on alluvial plain is nationally under-represented. Convoluted but one of largest fragments of its type in the area with relatively good regeneration. SIGNIFICANCE: Regional
K040	Kiripiti Bush	DOC (665)	92 Old Hautere Rd, Te Horo S25 905/437	Totara-matai-titoki forest - 1.74ha. This site is compact with good understorey and natural regeneration. One of the best examples of habitat of its type in the area. Indigenous vegetation on alluvial plain is nationally under-represented. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: Regional
K041	Hautere Bush D	DOC (684)	Old Hautere Rd, Te Horo S25 904/438	Totara-matai-titoki forest - 1.04ha. These fragments are a continuation of Kiripiti Scenic Reserve and provide one of the best examples of this habitat type in the area. Indigenous vegetation on alluvial plain is nationally under-represented. Provides habitat for <i>Korthalsella lindsayi</i> (KCDC files). Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: Regional
K042	Bothamley Bush	DOC (666)	Old Hautere Rd, Te Horo S25 912/440	Totara-matai-titoki forest - 3.61ha. The largest fragment of its type within Kapiti District. Understorey present but site is convoluted and under considerable threat from pest plant species. Indigenous vegetation on alluvial plain is nationally under-represented. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: Regional

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K043	Ludlams Bush / Totara Grove	DOC (667)	235 – 269 Old Hautere Rd, Te Horo S25 912/440	Totara Forest - 3.4ha. Moderately sized fragment under considerable threat from pest plant species. Indigenous vegetation on alluvial plain is nationally under-represented. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: District
K044	Old Hautere Rd Bush	DOC (683)	212 Old Hautere Rd, Te Horo (Old Hautere Rd Bush). S25 916/437	Totara-matai-titoki Forest - 1.44ha. Small and convoluted fragment under considerable threat from pest species. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: District
K045	Gorge Rd Bush B	DOC (657)	Otaki Gorge Road, Otaki S25 926/439	Totara-titoki-kohekohe forest - 1.91ha. Small, fragmented with sparse understorey and under threat from pest plant species. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plain is nationally under-represented. SIGNIFICANCE: District
K046	Empsons Bush	DOC (655)	Otaki Gorge Rd, Otaki S25 918/431	Totara Forest - 6.87ha. Half of this fragment is unfenced. Understorey is sparse but one of largest fragments of its type. Part of a series of fragments across the plains providing linkage between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plain is nationally under- represented. SIGNIFICANCE: Regional
K047	Huapaka Bush	DOC (652)	Gorge Rd, Otaki S25 931/422	Totara Forest - 3.64ha. This site is highly fragmented but is an example of a formally common habitat and part of a series of fragments across the plains providing linkage between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plain is

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				nationally under-represented. Provides habitat for kereru. SIGNIFICANCE: Regional
K048	Mangaone Bush B	DOC (660)	113 – 115 Arcus Rd, Te Horo S25 901/431	Totara-matai-titoki forest - 2.75ha. One of the largest fragments of its type. Relatively small threat from pest plant species and ungrazed. Provides habitat for kereru. Indigenous vegetation on alluvial plain is nationally under-represented. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: Regional
K049	Mangaone Bush A	DOC (653)	107 – 109 Arcus Rd, Te Horo S25 903/428	Kohekohe-titoki forest - 3.12ha. One of the largest fragments of its type within Kapiti District. Indigenous vegetation on alluvial plain is nationally under-represented. Provides habitat for <i>Streblus banksii</i> . SIGNIFICANCE: Regional
K050	Catley Rd Bush	DOC (650)	11 – 15 Catley Rd, Te Horo S25 901/419	Kohekohe-tawa forest, kawakawa, nikau - 1.32ha. Small relatively good quality area of nationally under-represented habitat type. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: Regional.
K051	Hautere Bush A	DOC (646)	138 Te Horo Hautere Cross Rd S25 904/417	Tawa-kohekohe forest - 0.82ha. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plain is nationally under-represented. Fenced with good understorey although severe <i>Tradescantia</i> infestation. Provides habitat for kereru. SIGNIFICANCE: Regional.
K052	Hautere Bush B	DOC (647)	Te Horo Hautere Cross Rd S25 904/412	Tawa-kohekohe-titoki forest - 1.49ha. Good regenerating example of its type. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. Nationally

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				under-represented habitat type. SIGNIFICANCE: Regional.
K053	Huttons Bush	DOC (688)	Te Horo Hautere Cross Rd S25 924/409	Tawa-kohekohe forest - 4.91ha. Provides habitat for threatened Native Carnivorous Land Snail (Powelliphanta traversi otakia - Department of Conservation 1996) and kereru. SIGNIFICANCE: National
K054	Te Horo Bush	DOC (645)	877 State Highway 1, Te Horo R25 883/428	Tawa-karaka-kohekohe forest - 1.98ha. Site borders both Foxton and Manawatu Plains Ecological Districts and shows influences of both Districts. There are few remaining fragments on the boundary of the two Ecological Districts. The under storey is sparse and the site is under threat from pest plant species, mostly on the edges. Provides habitat for kereru. SIGNIFICANCE: Regional.
K055	Te Hapua Rd Swamp A	DOC (334)	Te Hapua Rd, Te Horo R25 859/413	Dune Wetland - 49.81ha. Large representative example of habitat that was formally characteristic of the area. Provides habitat for spotless crane. Also Ranunculus macropus, Carex dipsacea, Potentilla anserinioides, (Enright & John 2001) and other species becoming uncommon in the Wellington Region including Gratiola sexdenta, kapungawha and Baumea articulata. Wetland habitat is nationally under-represented. Protected in parts by QEII Covenant. SIGNIFICANCE: Regional
K056	Te Hapua Rd Swamp E	DOC (719)	84 Te Hapua Rd, Te Horo R25 865/408	Dune Wetland - 1.41ha. Small wetland habitat with constructed pond and exotic species common. Wetland habitat is nationally under-represented. SIGNIFICANCE: District
K057	Te Hapua Rd Swamp C	DOC (691)	Te Hapua Rd, Te Horo R25 854/406	Dune Wetland - 7.36ha. Site of moderate size in relation to Foxton Ecological District. Provides habitat for bamboo

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				spike-sedge. Contains open water-reedland-sedgeland-scrub wetland associations. Wetland habitat is nationally under-represented. SIGNIFICANCE: Regional
K058	Awatea Bush	DOC (644)	SH1 opposite Te Hapua Rd R26 869/396	Kohekohe-tawa-titoki forest - 7.16ha. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. Below main block of forest is a population of <i>Streblus banksii</i> . Provides habitat for kereru. Indigenous vegetation on alluvial plain is nationally under-represented. In process of protection under QEII Covenant. SIGNIFICANCE: Regional
K059	Awatea Scarp Bush Remnant	DOC (643)	SH1 opposite Te Hapua Rd R26 863/391	Kohekohe-tawa forest, induced wetland. - 2.02ha. Fragment is very small and narrow. Indigenous vegetation on alluvial plain is nationally under-represented. Area of wetland is small and induced. SIGNIFICANCE: District
K060	Peka Peka Rd Swamp	DOC (109)	Peka Peka Rd, Peka Peka R26 844/387	Harakeke Wetland - 4.39ha. Moderately sized wetland with small area of open water and harakeke flaxland-Juncus rushland-coprosma scrub associations. Wetland habitat is nationally under-represented. Protected under DOC Covenant. SIGNIFICANCE: Regional
K061	Waikanae Bush	DOC (642)	SH1 opposite Peka Peka R26 860/376	Kohekohe-tawa forest, titoki-mahoe treeland - 7.49ha. Kohekohe forest at low altitude is uncommon within Tararua Ecological District. Provides habitat for kereru. Protected as Scenic Reserve. SIGNIFICANCE: Regional
K062	Hemi Matenga Forest	DOC (693)	Foothills, Waikanae R26 859/353	Kohekohe-tawa-titoki forest. - 334.23ha. The largest area of forest of its type in New Zealand. Protected in part under Scenic Reserve and DOC covenant. Provides habitat for kereru. SIGNIFICANCE: National

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K063	Huia St Bush	DOC (640)	Huia St, Waikanae R26 851/359	Kohekohe-tawa-titoki forest - 1.5ha. Very small fragment with considerable threat from pest plant species. Kohekohe forest on flat land at low altitude is uncommon within Tararua Ecological District. Separated from Hemi Matenga Reserve by a road. SIGNIFICANCE: District
K064	Paetawa Bush	DOC (641)	SH1 Nth Waikanae R26 855/372	Kohekohe, titoki, tawa forest - 1.59ha. A very small example of a forest type that is under-represented within the ecological district. SIGNIFICANCE: District.
K065	Waikanae Nth Scrubland	DOC (730)	SH1 Nth Waikanae R26 846/362	Kanuka-manuka scrub - 7.68ha. A relatively large area of kanuka-manuka scrub and sphagnum moss wetland. Habitat of this type is uncommon within Foxton Ecological District. SIGNIFICANCE: Regional
K066	Te Harakeke Swamp	DOC (141)	Nth Rutherford Dr, Waikanae R26 821/369	Dune Wetland. Kahikatea, pukatea, toetoe, cabbage trees, manuka - 63.35ha A moderately sized area of harakeke flaxland and raupo reedland - the second largest of its type in the Kapiti District. An important representation of habitat formally common in the area. Wetland habitat is nationally under-represented. Protected under QEII Covenant. SIGNIFICANCE: Regional
K067	Wi Parata Reserve Bush)	DOC (638)	Rimu St, Waikanae R26 836/350	Kohekohe forest - 2.96ha. Site is small and vulnerable to pest plant species encroaching from residential gardens. Under-represented habitat type within ecological region. Provides habitat for kereru. Protected as Council Reserve. SIGNIFICANCE: Regional
K068	Osbornes Swamp	DOC (729)	Te Moana Rd, Waikanae R26 811/355	Raupo-harakeke wetland - 0.95ha. Wetland is small and modified. Wetland habitat is nationally under-represented. Protected under QEII Covenant. SIGNIFICANCE: Regional

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K069	Waikanae Park Bush)	DOC (341)	Park Ave, Waikanae R26 828/348	Kohekohe Forest - 0.51ha. A small fragment with sparse understorey however, kohekohe forest uncommon in Foxton Ecological District. Provides habitat for Korthalsella salicornioides (Townsend et al. 1998). SIGNIFICANCE: District
K070	Russell Reserve Bush	DOC (637)	Ngaio Rd, Waikanae R26 830/347	Kohekohe titoki Forest - 2.2ha. A small area of kohekohe-titoki forest that is uncommon in the Foxton Ecological District. Provides habitat for kereru and Streblus banksii. Protected as Recreation Reserve. SIGNIFICANCE: Regional
K071	Narn's Bush	DOC (690)	SH1 Sth, Waikanae R26 835/337	Kohekohe-titoki-tawa forest, kamahi forest, kanuka scrub - 6.68ha. A small representative example of kohekohe forest – uncommon on lowland within Tararua Ecological District. Very small area of kamahi forest and scrub successional to kohekohe forest. Provides habitat for kereru. Protected in part under QEII Covenant with a further area in the process of becoming protected. SIGNIFICANCE: Regional
K072	Reikorangi Rd Bush A	DOC (732)	Reikorangi Rd, Reikorangi R26 843/330	Kohekohe-titoki-tawa forest - 6.6ha. A small narrow example of tawa-titoki and kohekohe-titoki forest that is part of a series of fragments adjacent to the Waikanae River. Deer present. Provides habitat for kereru. Protected under DOC. SIGNIFICANCE: District
K073	Waikanae South Bush	DOC (731)	16 Aston Road, Paraparaumu, Foothills, South of Waikanae R26 835/328	Kohekohe-Tawa Forest - 4.91ha. A small example of tawa-kohekohe forest. Provides habitat for kereru. Protected under DOC Covenant. SIGNIFICANCE: Regional
K074	Reikorangi Rd Bush B	DOC (733)	26 Reikorangi Rd, Reikorangi East side of River R26 846/329	Kohekohe-tawa forest, mahoe forest - 3.31ha. A small area of kohekohe-tawa forest with remnant podocarp and a small area of secondary forest that is part of a series of fragments adjacent to the Waikanae River.

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				Provides habitat for kereru. Protected under DOC Covenant. SIGNIFICANCE: Regional
K075	Reikorangi Rd Bush C	DOC (734)	Reikorangi Rd, Reikorangi West side of River R26 845/329	Titoki-tawa-rewarewa forest - 3.08ha. A small narrow area of titoki-tawa with some regeneration. Part of a series of fragments adjacent to the Waikanae River. Provides habitat for kereru. SIGNIFICANCE: Regional
K076	Reikorangi Rd Bush D	DOC (735)	Reikorangi Rd, Reikorangi R26 848/323	Tawa-titoki-kohekohe forest - 7.66ha. A small example of indigenous vegetation in good condition that is part of a series of fragments adjacent to the Waikanae River. Provides habitat for maire tawahe. A very small area of wetland present on floodplain. Provides habitat for kereru. Protected by OEII Covenant. SIGNIFICANCE: Regional
K077	Waikanae Gorge Bush	DOC (715)	Reikorangi Rd, Reikorangi R26 847/314	Tawa-kohekohe forest - 25.79ha. A relatively good quality example of indigenous forest on river terrace that is part of a series of fragments adjacent to the Waikanae River. Provides habitat for kereru. Partially protected under DOC Covenant and QEII Covenant. SIGNIFICANCE: Regional
K078	Bluff Hill Bush	DOC (710)	Reikorangi Rd, Reikorangi (Bluff Hill Bush) R26 847/314	Rimu/Tawa, kohekohe titoki Forest - 12.79ha. A relatively good quality example of tawa- kohekohe forest that is part of a series of fragments adjacent to the Waikanae River. Provides habitat for kereru. Protected under QEII Covenant. SIGNIFICANCE: Regional
K079	Mangaone Rd Bush	DOC (716)	Ngatiawa / Mangaone Sth Rd, Reikorangi R26 867/326	Tawa forest, kamahi Forest - 23.18ha. Moderate size, relatively good quality example of tawa forest with small area of kamahi forest riparian margin. Provides habitat for kereru. Protected under QEII Covenant. SIGNIFICANCE: Regional.

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K080	Ngatiawa Rd Bush)	DOC (717)	Ngatiawa Rd, Reikorangi R26 872/318	Kamahi forest, tawa forest, mahoe forest - 8.69ha. Small, narrow areas of habitat types uncommon on lowland within the Tararua Ecological District. Mosaic with areas of exotic vegetation adjoining and of varying quality. Provides important links between other significant fragments and the Tararua Ranges. SIGNIFICANCE: District
K081	Waikanae River Mouth	DOC (152)	Waikanae Estuary - River Mouth R26 789/348	Estuarine wetland, river mouth - 68.23ha. Good sequences between salt marsh, fresh water wetlands, dune lakes and dune systems (although degraded and modified). Linkages to Kapiti Island via Kapiti Marine Reserve. Nationally under- represented habitat types. Provides habitat for numerous fauna species including Australasian bittern, Caspian tern and rare visits from reef and white heron. Carex litorosa, Pimelea aff. arenaria, Coprosma acerosa, Spinifex sericeus, and Leptinella dioica ssp. Projected in part as Scientific reserve. SIGNIFICANCE: National
K082	Lion Downs Bush	DOC (692)	123 Otaihanga, Rd, Otaihanga, Paraparaumu R26 812/342	Kahikatea-pukatea swamp forest - 1.68ha. Part of a series of fragments that jointly illustrate the diversity of habitat formally common in the area. Small area of nationally under-represented habitat type. Canopy fragmented and exotic species common in the ground layer. Protected under QEII Covenant. SIGNIFICANCE: Regional
K083	Turf Dune Forest B	DOC (728)	King Arthur Drive, Otaihanga, Paraparaumu (south of Waikanae River) R26 817/342	Kohekohe-titoki-mahoe forest - 1.11ha. Part of a series of fragments that jointly illustrate the diversity of habitat formally common in the area. A representative example of forest type formally common in the area. Habitat type is uncommon in Foxton Ecological District. Vulnerable to effects of

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				expansion of quarry and sub-division. SIGNIFICANCE: Regional
K084	Turf Dune Forest A	DOC (332)	King Arthur Drive, Otaihanga, Paraparaumu R26 816/338	Kahikatea swamp forest, manuka scrub - 0.96ha. Very small area of nationally under-represented habitat type. Lacking understorey. Narrow area of manuka scrub. Both habitat types are under-represented in the Foxton Ecological District. Part of a series of fragments that jointly indicate the diversity of habitat formally common in the area. SIGNIFICANCE: District
K085	Tini Bush	DOC (331)	SH1, Otaihanga R26 815/330	Kohekohe-pukatea-titoki semi-swamp forest - 6.28ha. These fragments represent the only example of kohekohe-pukatea associations within Foxton Ecological District. Borders both Foxton and Manawatu Plains Ecological District. Good example of the gradation between wetland and dryland forest with small nikau grove. Representative of the former forest diversity likely to have occurred within the District. Part of a series of fragments providing connection between Kapiti Island and the Tararua Ranges. Protected by DOC Covenant. SIGNIFICANCE: Regional
K086	Muaupoko Stream Bush	DOC (712)	SH1, Paraparaumu North Foothills R26 826/322	Kohekohe-tawa forest - 11.17ha. Moderately sized remnant of modified primary forest. Habitat type is uncommon on lowland in Tararua Ecological District. Part of a series of fragments that provide links between Kapiti Island and the Tararua Ranges. Provides habitat for kereru. SIGNIFICANCE: Regional
K087	Muaupoko Bush	DOC (713)	SH1 Paraparaumu North Foothills R26 816/317	Kohekohe-tawa-kanuka forest, wetland - 100.24ha. One of the largest forest fragments in the area containing good representative examples of the forest types present. Provides

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				habitat for Mazus novaezeelandiae subsp. novaezeelandiae (Townsend et al.:1998), Adelopetalum tuberculatum (Forest & Bird Society), Northern rata and kereru. Protected in part by Scenic Reserve (Paraparaumu SR), DOC Covenant, and Forest and Bird Reserve. (Forest and Bird Field Reserve 3.78ha and balance DOC Muaupoko Bush). SIGNIFICANCE: Regional
K088	Otaihanga Rd Bush	DOC (636)	Otaihanga Rd, Paraparaumu R26 809/325	Kohekohe-nikau forest. - 1.32ha. Kohekohe-nikau forest is uncommon in the Foxton Ecological District. Contains maire tawahe. Part protected under QEII Covenant. SIGNIFICANCE: Regional
K089	Muaupoto Swamp Forest)	DOC (720)	Otaihanga Rd, Paraparaumu R26 806/322	Kohekohe mahoe forest, pukatea-maire tawake swamp forest, wetland - 7.54ha. An example of ecological sequence between wetland, swamp forest and dry forest. Kohekohe forest and mahoe forest is uncommon in the Foxton Ecological District. Nationally under-represented habitat. Provides habitat for brown mudfish (Department of Conservation 1996) and kereru. This site contains a relatively large area of mahoe forest. Partly protected by Scenic Reserve (Paraparaumu SR). SIGNIFICANCE: Regional
K091	Nikau forest	DOC (694)	SH1, Nth Paraparaumu R26 804/313	Kohekohe Nikau Forest - 13.63. Relatively large, representative area of semi-coastal forest with considerable area of nikau grove. This habitat type was formally characteristic of this area and is now uncommon within Tararua Ecological District. Protected as Council Reserve. SIGNIFICANCE: Regional
E092	Kapiti Road Wetland	DOC (37)	Kapiti Road, Paraparaumu	Wetland – 2ha
K093	Andrews Pond	DOC (330)	Kapiti Rd / Milne Drive, Paraparaumu R26 782/312	Manuka Wetland - 1.27ha. A small wetland amongst residential and commercial land-use. Nationally under-

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				represented habitat type. Provides habitat for kapungawha. SIGNIFICANCE: District
K094	Norwood Bush C	DOC (701)	Valley Rd, Paraparaumu R26 785/281	Kohekohe Forest - 1.95ha. Small fragment that has been subject to grazing. Edge effects and browse reducing viability of fragment. Part of a series of fragments that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: District
K095	Paraparaumu Coastal Scarp	DOC (698)	SH1, Paraparaumu/ Raumati R26 779/277	Kanuka-mahoe-gorse scrub, kohekohe-titoki forest - 61.13ha. The larger block at the north end is kanuka-mahoe dominated regenerating scrub with kohekohe forest regenerating amongst. Southern parts are kohekohe dominated coastal forest on very steep hill country. Coastal forest is nationally under-represented. Part of a series of fragments that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: Regional
K096	Norwood Bush B	DOC (700)	Valley Rd, Paraparaumu R26 787/274	Kohekohe-Tawa Forest - 4.93ha. A moderately sized area of tawa-kohekohe forest with small area of swamp forest. Indigenous forest is uncommon on low undulating land within Tararua Ecological District. Provides an example of the gradation between wetland and dryland forest. Part of a series of fragments providing linkages between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: Regional
K097	Norwood Bush A	DOC (699)	Valley Rd, Paraparaumu R26 779/269	Kohekohe- tawa Forest - 3.29ha. A moderately sized area of tawa-kohekohe forest. Indigenous forest is uncommon on low undulating land within Tararua Ecological District. Part of a series of fragments providing linkages between Kapiti Island and the Tararua Ranges
K098	Whareroa Bush	DOC (714)	Waterfall Rd, Paraparaumu	Kohekohe forest, kanuka scrub - 63.49. Relatively large area of

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
			R26 782/262	kohekohe forest and kanuka scrub successional to kohekohe forest. Habitat for Mida salicifolia, (Enright & John 2002b) kereru and northern rata. Part protected by QEII Covenant. SIGNIFICANCE: Regional
K099	Whareroa Bush C	DOC (708)	East of Queen Elizabeth Park Between Maungakotukutuku Rd, and SH1 R26 785/242	Kohekohe-mahoe forest - 39.17ha. A valuable area or early secondary forest with tawa forest covering a relatively substantial area. Part protected by DOC Covenant. SIGNIFICANCE: Regional
K100	Whareroa Bush D	DOC (707)	East of Queen Elizabeth Park R26 783/236	Mahoe Forest - 5.64ha. A small area of early secondary mahoe forest with kohekohe and occasional tawa. Part of a series of fragments that provide links between Kapiti Island and the Tararua Ranges. SIGNIFICANCE: District
K101	Whareroa Bush E	DOC (706)	East of Queen Elizabeth Park R26 783/227	Kohekohe Forest Mahoe - 1.36ha. Small area of kohekohe forest. Protected under DOC Covenant. SIGNIFICANCE: Regional
K102	Whareroa Bush G	DOC (705)	East of Queen Elizabeth Park R26 775/231	Kohekohe Forest - 1.5 ha. 1.01ha. Small area of kohekohe forest. Protected under DOC Covenant. SIGNIFICANCE: Regional
K103	Whareroa Bush F	DOC (704)	East of Queen Elizabeth Park R26 773/234	Tawa Forest and Raupo Wetland - 1.24ha. Small area of tawa forest with small area of wetland and swamp forest. Indigenous forest uncommon on low hills within Tararua Ecological District. One of a series of fragments that provide links between Kapiti Island and the Tararua Ranges. Provides habitat for kereru. Protected under DOC Covenant. SIGNIFICANCE: Regional
K104	Whareroa Bush B	DOC (703)	East of Queen Elizabeth Park R26 772/238	Kohekohe-tawa-titoki forest - 3.47ha. Small fragment of kohekohe-tawa-titoki forest. One of a series of fragments that provide links between Kapiti Island and the Tararua Ranges. Protected under DOC Covenant. SIGNIFICANCE: Regional

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K105	Whareroa Bush A	DOC (702)	East of Queen Elizabeth Park R26 766/234	Kohekohe-tawa-titoki forest - 3.22ha. Small fragment of kohekohe-tawa-titoki forest. Indigenous forest on low hills is uncommon within Tararua Ecological District. One of a series of fragments that provide links between Kapiti Island and the Tararua Ranges. Protected under DOC Covenant. SIGNIFICANCE: Regional
K106	Mackay's Crossing Swamp	DOC (62)	Mackay's Crossing SH1, Paekakariki R26 765/239	Raupo reedland wetland - 9.68ha. Moderately sized area of raupo reedland. Wetland habitat is nationally under-represented. Protected as a Wildlife Management Reserve. SIGNIFICANCE: Regional
K108	Queen Elizabeth Park bush and Wetlands	DOC (348)	Queen Elizabeth Park SH1, Paekakariki R26 760/242	Kahikatea swamp forest, ephemeral wetland - 16.81ha. Kahikatea fragment very small, fragmented. Some restoration plantings. The wetland is highly degraded but is being restored. Wetland habitat is nationally under-represented. Historic records of <i>Amphibromus fluitans</i> (Townsend et al. 1998) but hasn't been recorded from this site in recent years. SIGNIFICANCE: District
K109	Queen Elizabeth Park dunes	DOC (329)	Queen Elizabeth Park R26 756/255	Sanddunes: Foredunes and native bush - 109.52ha. Dune system from Paekakariki to Raumati South. The best representative dune system and habitat type in region and in Foxton Ecological District. Under considerable threat from weed species Good example of nationally under-represented habitat type. Provides habitat for pingao and <i>Coprosma</i> <i>acerosa</i> (Milne & Sawyer 2002). Protected as Regional Park. SIGNIFICANCE: Regional
K110	Fisherman's Table Dune	DOC (328)	South end of Ames St, Paekakariki R26 735/216	Sand dune, mahoe forest - 5.28ha. Nationally under- represented habitat type. Although small, modified and with considerable threat from pest plant species, this area contains a representative example of mahoe forest on

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				sand dune. This vegetation type would have formally been typical of the Paekakariki area but is now uncommon within Foxton Ecological District. SIGNIFICANCE: Regional
K111	Wainui Stream Bush	DOC (711)	366 SH1 Paekakariki North, south of Car Haulways R26 761/222	Kohekohe Forest - 15.13ha. Good example of kohekohe forest in gully. Some sheep grazing and feral goats. Provides habitat for kereru. SIGNIFICANCE: Regional
K112	Waimeha lagoon, Waikanae	DOC (154)	North of Queens Rd, Waikanae R26 802/356	Wetland - 5.32ha. Wetland habitat with moderate area of open water and raupo reedland-coprosma scrub associations. Provides habitat for kapungawha. Wetland habitat is nationally under-represented. Protected as Wildlife Refuge. SIGNIFICANCE: Regional
K113	Motungarara Island (Fishermans Island)	DOC (696)	Off lower eastern side of the Kapiti Island.	Offshore Island - 1.4 ha. Taupata shrubland one of four offshore islands in district.
K114	Tahoramaurea Island (Browns Island)	DOC (695)	Off lower eastern side of the Kapiti Island.	Offshore Island - 1.15ha. Second largest offshore island in district.
K115	Tokomapuna Island (Aeroplane Island)	DOC (697)	Off lower eastern side of the Kapiti Island.	Offshore Island - 0.98ha. Smallest offshore island in district.
K116	Okupe lagoon	DOC (92)	North End of Kapiti Island	Wetland - 20 ha. Ephemeral wetland on coastal gravely uncommon in district.
K117	Kapiti Island	DOC (267)	Kapiti Island	Offshore Island, bush-clad – 1916ha. Predominately administered and Managed by Department of Conservation as a Nature Reserve. North End Privately owned portion. SIGNIFICANCE: National.
K123	Totara Reserve	District Planner, KCDC	Cnr Hautere Cross Rd/Otaki Gorge Rd to 1200 m east Otaki. S25 936/420	Totara Forest - 3.08ha. Narrow corridor of trees. Limited understorey with some in-fill planting. Provides linkages between fragments. Council Road Reserve. SIGNIFICANCE: District
K124	Karu Reserve	Submission	Karu Cres, Waikanae R26 836/341	Kohekohe-karaka forest - 0.7ha. Small area of kohekohe forest. Kohekohe forest is uncommon in Foxton Ecological District.

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				Provides habitat for kereru. Protected under Council Recreation Reserve. SIGNIFICANCE: District
K125	Moutuiti Reserve Bush	Submission	Between Ngaio Rd and Kohekohe Rd, Waikanae. R26 837/346	Kohekohe Forest – 1.19ha. A small area of kohekohe forest on gently undulating river terrace. Kohekohe forest is uncommon within Foxton Ecological District. The threat from pest plant species is increasing. Protected as a Scenic Reserve. SIGNIFICANCE: Regional
K131	Raumati South Peatlands	Ecologist (Wildlands) Nomination	Bound by Leicester Ave, Poplar Ave, and Matai Rd, Raumati. R26 772/281	Kanuka-gorse scrub, manuka scrub wetland – 11.09ha. Kanuka dominated habitat on dune systems is under-represented in the ecological district. Small area of nationally under-represented habitat type. Relatively large area of kanuka-gorse scrub although it is highly fragmented and exotic species are common. SIGNIFICANCE: District
K133	Nga Manu Sanctuary	Submission	North Waikanae, East of Ngarara Road, Waikanae. R26 829/359	Wetland, swamp forest, kohekohe forest, tawa forest - 47.3ha. Wetland habitat is nationally under-represented. Contains maire tawahe and Korthasella salicornioides. One of largest and best examples of swamp forest within Foxton Ecological District. Good example of sequences between wetland, swamp forest and dry forest. Provides habitat for brown mudfish and kereru. Nga Manu Nature Reserve protected under Private Trust. Protected in part by QEII Covenant, with further area in the process of becoming protected. SIGNIFICANCE: Regional
K134	Otaki Railway Wetland	Ecologist (Wildlands) Nomination	269 – 271 Main Highway Otaki. S25 924/476	Wetland – 0.42ha. Predominantly raupo dominated - Wetland habitat is nationally under-represented. Provides habitat for kapungawha. Small wetland, grazed in part with a considerable threat from pest plant species. SIGNIFICANCE: District

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
K135	Pukerua Bay Coastal Scarp	Submission	Paekakariki Hill Road on Escarpment behind Paekakariki.	Kohekohe coastal forest, secondary scrub - 39.42ha. This site is an important representation of exposed coastal forest that contributes greatly to the character of the region. Nationally under-represented habitat type. SIGNIFICANCE: Regional
K136	Waiohanga Road Bush	Ecologist (Wildlands) Nomination	27 Waihoanga Road, Otaki S26 967/396	Kamaha forest, makomako forest, scrub – 3.44ha. Small area of secondary makomako forest and kamaha forest with areas of scrub. Continuous with Otaki River riparian margin. Provides habitat for kereru. Protected under QEII Covenant. SIGNIFICANCE: District
K138	Ngatoto Trig Bush	Submission	Council Recreation Reserve Between Crown Hill and Kapiti Retirement Village, Paraparaumu. R26 791/321	Manuka scrub wetland - 0.56ha. A very small area of manuka dominated transitional wetland in sand dune hollow surrounded by subdivisions and expanding retirement village. Wetland habitat is nationally under-represented. Very small area of unprotected wetland dominated by manuka scrub. Located with Council Recreation Reserve. SIGNIFICANCE: District
K139	Rowans Bush	Nomination and submit (in support)	366 SH1 Paekakariki North, south of Car Haulways R26 756/227	Kohekohe-titoki forest – 2.8ha. Kohekohe forest on lowland hill country. Part of a series of fragments that provides links between Kapiti Island and the Tararua Ranges. Protected in part under QEII Covenant. SIGNIFICANCE: Regional
K140	Valley Road	Nomination (in support)	East of 165 Valley Road, Paraparaumu R26 797/279	Kohekohe forest – 2.02ha. Regenerating fenced off bush on hill east of Valley Road. A good quality representative example of indigenous forest at low altitude that is uncommon in Tararua Ecological District. Part of a series of fragments providing links between Kapiti Island and the Tararua Ranges. Provides habitat for kereru. SIGNIFICANCE: Regional.
K141	221 Valley Road	Nomination (in support)	221 Valley Road, Paraparaumu R26 787/274	Riparian regenerating bush - 2.41ha. Very small, narrow riparian margin with some threat from pest plant species. Listed

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				as a Natural Area due to heritage trees associated with original farm house. Was included (1995) in register at request of landowner.
K145	Lady of Lordes Statue Hill	Ecologist (Wildlands) Nomination	West of Ruahine Street, Paraparaumu R26 793/301	Kanuka scrub – 1.35ha. A very small area of kanuka scrub successional to kohekohe forest. Kanuka scrub is uncommon in Foxton Ecological District. Provides habitat for kereru. One of several areas of kanuka scrub in the vicinity. SIGNIFICANCE: District
K150	Kaitawa Reserve	Ecologist (Wildlands) Nomination	Adjoins Rewai St and Kaitawa Crescent, Paraparaumu R26 790/298	Pukatea-maire tawake swamp forest, mahoe, kohekohe-kanuka forest - 7.29ha. Very small fragments of under-represented habitat types including swamp forest. Indicative of previous diversity of vegetation type in the area. Provides habitat for kereru. Active restoration plan is in place. Protected in part as Council Scenic Reserve and part Recreational Reserve. SIGNIFICANCE: District
K151	Forest Lakes Road Bush (No. 2)	Ecologist (Wildlands) Nomination	2 Forest Lakes Road, Otaki S25 945 / 499	Kohekohe-mahoe forest – 2.14ha. Small fragmented area of kohekohe-mahoe forest with considerable weed threat. Indigenous vegetation on alluvial plain is nationally under-represented. Black beech present (uncommon in the Ecological District). SIGNIFICANCE: District
K153	Simon Brown Bush	Ecologist (Wildlands) Nomination	334 SH1, Paraparaumu North R26 818/327	Kohekohe coastal forest – 1.73ha. Examples of coastal broadleaf forest and kanuka forest successional to kohekohe, both forest types are uncommon within Tararua Ecological District. Contains kowhai The fragment is small and unfenced. SIGNIFICANCE: District
K154	Cobb's Bush	Ecologist (Wildlands) Nomination	283 Te Horo-Hautere Cross Road, Te Horo S25 921 / 423	Kohekohe-titoki forest – 1.74ha. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plains is nationally under-represented. Good representative example of

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				uncommon habitat type with good regeneration. SIGNIFICANCE: Regional
K164	Pukehou Bush	Ecologist (Wildlands) Nomination	424 North Highway,1, Otaki S25 959 / 498	Kohekohe-tawa forest – 1.29ha. Small fragment of habitat under-represented within the District. Habitat for toro – the only site on the Manawatu Plain where this species has been recorded (Ravine 1995). Indigenous vegetation on alluvial plains is nationally under-represented. SIGNIFICANCE: Regional
K165	Otaki River Bush C	Ecologist (Wildlands) Nomination	379 Otaki Gorge Road, Otaki. S25 929 430	Totara forest – 2.76ha. Small, mostly unfenced with considerable weed threat. Part of a series of fragments in the area that provide links between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plains is nationally under-represented. SIGNIFICANCE: District
K166	Waitohu Stream Bush B	Ecologist (Wildlands) Nomination	Greenwood Boulevard, Otaki. S25 935 / 478	Kohekohe forest- 1.93ha. Open, fragmented kohekohe with tawa, pukatea and occasional titoki. Indigenous vegetation on alluvial plains is nationally under-represented. Small and fragmented. SIGNIFICANCE: District
K168	Paraparaumu Quarry Scrub	Ecologist (Wildlands) Nomination	South of Paraparaumu Quarry, North of Mamuku St. R26 797/301	Kanuka scrub – 4.05ha. Small area of kanuka scrub with regenerating early successional forest – an uncommon habitat type in Foxton Ecological District. One of several kanuka scrub fragments in the area. SIGNIFICANCE: District
K170	El Rancho Manuka Wetland	Ecologist (Wildlands) Nomination	North of El Rancho Holiday Park, east of Weggery Drive, Waikanae. R26 808/250	Manuka wetland – 8.77ha. Ephemeral manuka dominated wetlands in dune hollows. Subdivision on dune ridges. The wetlands are separated by rank pasture. Nationally under-represented habitat type. Relatively large area of manuka dominated wetland with some open water. SIGNIFICANCE: Regional
K171	Native Orchid Habitat – Paraparaumu Airport	District Planning	East of 25-29 Teoti St, Paraparaumu, Airport Land. R26 769/319	Native orchid habitat: <i>Spiranthes novae-zelandiae</i> - 600m ² . Very small area of greatly modified ephemeral wetland that provides

No:	NAME:	ORIGIN:	LOCATION / NZMS 260 MAP GRID REFERENCE	DESCRIPTION / SIGNIFICANCE / DOMINANT HABITAT OR VEGETATION / SIGNIFICANCE
				habitat for <i>Spiranthes novae-zelandiae</i> , endangered native orchid. This is the only known natural population of this species within Wellington Region. SIGNIFICANCE: Regional
K175	Waimanu Lagoons	Ecologist (Wildlands) Nomination	Bound by Barrett Drive and Tutere St, Waikanae Beach R26 794/351	Dune lake – 8.02ha. Adjoins K081 Waikanae Estuary. Highly modified, with artificial assemblage of species and some inappropriate enhancement plantings. However, this site has linkages to Waikanae River Mouth and provides continuation of open water habitat. Wetland habitat is nationally under-represented. High use by water bird species. SIGNIFICANCE: District
K176	Otaki Stewardship	Ecologist (Wildlands) Nomination	Rangiuru Road, Otaki Beach. R25 884/488	Wetland, dune system – 25.35ha. Highly modified sand dune dominated by pine and macrocarpa canopy. Nationally under-represented habitat type. Both dune and wetland habitats are modified and invasive exotic species common. Partially protected under DOC Stewardship. SIGNIFICANCE: District
K178	Kiripiti Scientific Reserve	Ecologist (Wildlands) Nomination	Old Hautere Road, Te Horo S25 904/439	Totara-matai-titoki forest. 1.98ha. Part of a series of fragments across the plains that provide links between Kapiti Island and the Tararua Ranges. Indigenous vegetation on alluvial plains is nationally under-represented. Site is one of the best examples of this habitat type within Manawatu Plains. Contains akeake Protected as Scientific Reserve. SIGNIFICANCE: Regional
K184	Poplar Ave Wetland	GW - RC (site name: WRC A)	South of Poplar Ave, Opposite intersection of Matai Rd, Raumati South R26 768/277	Manuka Scrub Wetland - 3.12ha. Wetland dominated by manuka scrub, <i>Isolepis prolifer</i> and rushland. Wetland habitat is nationally under-represented. SIGNIFICANCE: District
K185	South Waikawa Beach Dune Lake	GW - RC (site name: WRC E)	South of Waikawa Beach, adjoining northern boundary of the District. S25 906/537	Dune Lake – 0.81ha. Small lake, unfenced with full stock access. Wetland habitat is nationally under-represented. Provides habitat for Kapungawha and,

KEY TO NATIONALLY & REGIONALLY RARE & THREATENED SPECIES

NO	DESCRIPTION	SITE	GRID REFERENCE	NATIONAL THREAT RANK	AREA	ADDITIONAL PROTECTION STATUS
1	<i>Amphibromus fluitan</i> Wetland grasss	Queen Elizabeth Park	R26 762 243	Nationally endangered	No Information	Wellington Regional Council Reserve
2	<i>Euphorbia glauca</i> Shore spurge	Wharekohu Point, Kapiti Island	R26 678 335	Serious decline	40 x 30m ²	Nature Reserve
3	<i>Dechampia caespitosa</i> var. <i>macrantha</i> Tussock grass	Kapiti Island	R26	Gradual decline	No Information	Nature Reserve
4	<i>Korthalsella salicornioides</i> Mistletoe	Kapiti Island	R26 344, R26 709 355	Sparse	N/A	Nature Reserve
5	<i>Hebe elliptica</i> var. <i>crassifolia</i> Kokomuka	Kapiti Island	R26	Range restricted	Extensive along coastline	Nature Reserve
6	<i>Korthalsella salicornioides</i> Mistletoe	Waikanae Park	R26 825 353	Sparse	N/A	Recreation Reserve
7	<i>Tupeia Antarctica</i> Tupia	Kapiti Island	R26 726 373, R26 727 376, R26 727 402 and also in grid squares R26 72-37- R26 72-40- R26 72-39- R26 814 324	Gradual decline	Plants scattered throughout 500 ha in eastern & northern part of Island	Nature Reserve
8	<i>Mazus novaezeelandiae</i>	Puketitiro, (adjacent to Paraparaumu Senic Reserve)	R26 814 324	Serious decline	8m ²	None
9	<i>Mazus novaezeelandiae</i>	Otaihanga (adjacent to Paraparaumu Senic Reserve)	R26 811 321 and R26 814 322	Serious decline	50m ²	None
10	<i>Leptinella dioica</i> subsp. <i>monoica</i> Shore cotula	Waikanae Estuary	R26 787 348, R26 795 347, R26 785 347, R26 795 349	Gradual decline	Over an area of approximately 20ha	Scenic Reserve and unprotected
11	<i>Lepidium tenuicaule</i> Shore cress	Wharekohu Bay, Kapiti Island	R26		N/A	Nature Reserve
12	<i>Lepidium oleraceum</i> Cook's scurvy grass	Kapiti Island	R26 686 335	Nationally endangered	20m ²	Nature Reserve

I: HERITAGE REGISTER

13	<i>Ophioglossum petiolatum</i> Stalked adder's tongue	Totara Lagoon, Waikanae Beach	R26 Historic Record	Nationally endangered	Unknown	None
14	<i>Carex litorosa</i> Sea sedge	Estuary Inlet off Waikanae River, Makora Rd	R26 795 347	Serious decline	Scattered through estuary margin	None
15	<i>Desmoschoenus spiralis</i> Pingao	Otaki River outlet		Gradual decline	Unknown	None
16	<i>Pimelea arenaria</i> Sand pimelea	Waikanae River outlet		Serious decline	Unknown	None
17	<i>Paraxilla colensoi</i> Scarlet-flowered mistletoe	Plateau Waitewaewae track	S27 020 406	Gradual decline	Within 2metres of river	National Park
18	<i>Spiranthes novae-zealandiae</i>	Paraparaumu Airport	Contact Council	Nationally endangered	Contact Council	Contact Council
