

PART O

CROSS BOUNDARY ISSUES

O. CROSS BOUNDARY ISSUES

The Act requires the Plan to state the process to be used to deal with issues which cross territorial boundaries (Section 75(1)(h)).

The district has boundaries with Horowhenua, Masterton, Carterton and South Wairarapa District Councils, Upper Hutt and Porirua City Councils and the Wellington Regional Council with respect to the seaward side of mean high water springs.

Issues which may arise include:

- Land use activities and development strategies which may give rise to adverse environmental effects in a neighbouring jurisdiction.
- Roading and transportation matters which start in one jurisdiction and cross over into other jurisdictions.
- Resource consent matters primarily the concern of the Regional Council which may impinge on two or more territorial authority districts.
- Monitoring of resource consents including ecological connections, both between districts and between the Regional Councils and the Kapiti Coast District Council.

In considering these issues, Council will be guided by the contents of the Regional Policy statement and any Regional Plan and the broad objectives and strategies of this Plan.

Council will consider proposed changes to District and Regional Plans arising in the district of any adjacent local authority which affect the Kapiti Coast. In appropriate cases, submissions will be prepared and lodged with that local authority in relation to such changes.

Where Council receives an application for a land use consent which is to be notified and the activity may give rise to adverse environmental effects in a neighbouring jurisdiction, affected landowners in that jurisdiction and the appropriate local authority will be notified.

Council will, where appropriate, participate in joint hearings with other territorial authorities as is provided for by Section 102 of the Act.
