

- 1 begin central path
 - 2 terraced steps
 - 3 enlarged picnic lawn
 - 4 picnic / bbq facilities and shelter
 - 5 coastal gardens
 - 6 scooter track *
 - 7 halfcourt basketball *
 - 8 mouse-wheel installed
 - 9 future central path extension (20/21)
- * provisional items
subject to final costs

Maclean Park Refresh

Works are progressing well, with part of the old pond now filled in and grassed over.

In 2019 we'll be completing the first stage of the park redevelopment:

- installing electric BBQs with shelter
- building new central path through the park
- landscaping including terracing and additional park furniture

Then, depending on the cost of the above improvements, we'll also:

- relocate the basketball court to provide a full size (keyhole) court away from the road
- build a kids scooter track

If not we'll come back to this in the future.

We're working hard to get this exciting development moving and you should see some more action from March 2019 depending on contractor availability. Thanks for your patience and enjoy!

View looking south from the end of the existing pond towards the playground - the kiosk and pond are removed and the usable park area will be enlarged to provide a terraced lawn for events and picnics, covered barbecues, new garden areas and a promenade width central path that will one day connect the Kāpiti Island Departure point to the retail area at Maclean Street.
