APPENDIX ONE	18

TITLE, COMMENCEMENT AND APPLICATION

This Policy may be cited as the Kapiti Coast District Council Dog Control Policy 2009 and shall come into force on 12 November 2009

This Policy applies to any part of the Kapiti Coast District.

This Policy replaces the Kapiti Coast District Council Dog Control Policy 1997.

DOG CONTROL POLICY VALIDATION

The Kapiti Coast District Council Dog Control Policy 2009 was approved at a meeting of the Kapiti Coast District Council on 12 November 2009 after completion of the Special Consultative Procedure.

PURPOSE OF THIS POLICY

The purpose of this policy is to outline how the Kapiti Coast District Council ('Council') will address the requirements set out in section 10 of the Dog Control Act 1996 and the Dog Control Amendment Act 2003, together referred to in this Policy as the Act.

The object of the Act is:

- (a) to make better provision for the care and control of dogs –
 - i. by requiring the registration of dogs; and
 - ii. by making special provision in relation to dangerous or menacing dogs; and
 - iii. by imposing on the owners of dogs, obligations designed to ensure that dogs do not cause a nuisance to any person nor injure, endanger, or cause distress to any person; and
 - iv. by imposing on owners of dogs obligations designed to ensure that dogs do not injure, endanger, or cause distress to any other dog, stock, poultry, domestic animal, or protected wildlife; and
- (b) to make provision in relation to damage caused by dogs.

Council has the requirement to manage most of the provisions in the Act. This includes providing a dog control and impounding operation. Another obligation on

Council is to develop a policy on dogs within their area. This policy must include the following matters:

1. to specify the nature and application of all bylaws made or to be made under the Act;
2. to classify public places where dogs shall be given access;
3. include details in the policy as the territorial authority thinks fit including, but not limited to:
 - fees or proposed fees
 - owner education programmes
 - dog obedience courses
 - classifying owners as probationary
 - disqualifying owners from owning dogs
 - the issuing of infringement notices.

When adopting a Policy on dogs the Council must have regard to the following matters:

- the exercise and recreational needs of dogs and their owners
- the need to minimise danger, distress, and nuisance to the community generally
- the need to avoid the inherent danger or uncontrolled dogs in public places frequented by the general public, and
- the importance of enabling the public to use streets, and public amenities without fear of attack or intimidation by dogs.

POLICY OBJECTIVES

The objectives listed in this section have been developed to guide the Dog Control Policy and ensure that Council consistently and effectively fulfils its responsibilities under the Act. The following objectives have been based on the provisions of the Act.

Objective 1

All dogs in the District are kept under proper and appropriate control at all times

Objective 2

To prohibit or restrict specific breeds of dogs which are known to be dangerous

Objective 3

To eliminate or minimise the distress, danger and nuisance caused by dogs to the general public and their property

Objective 4

To ensure that the owners of dogs comply with their obligations under the Act

Objective 5

To provide for the exercise and recreational needs of dogs and their owners

Objective 6

To recognise good and responsible dog owners and to reward them by reduced fees; to discourage poor dog ownership by applying penalty fees where appropriate.

In order to achieve the objectives stated above the Kapiti Coast District Council proposes to adopt this updated Dog Control Policy, in accordance with section 10 of the Dog Control Act 1996.

POLICY CLAUSES

1. Classification of Owners

There are four dog owner classifications used by the Kapiti Coast District Council:

Two are specified in the Dog Control Act 1996:

- *Probationary Owners* (defined in section 21)
- *Disqualified Owners* (defined in section 25)

In addition to these two owner classifications provided in the Dog Control Act 1996, other owner classifications are designated by the Council:

- *Approved Dog Owners*

The criteria for being granted this status is based on a good record of compliance with dog legislation and the owner successfully completing the following requirements:

- the dog is micro-chipped (where required by the Dog Control Act 2003); and
- in the last two years the dog hasn't been impounded, chased or returned home or been subject to any justified complaint; and
- the owners property and dog accommodation meet Council criteria for fencing, access, dog shelter and exercise areas; and
- the owner has been a recorded dog owner in the Kapiti Coast District for the last twelve months; and
- an approved owner processing fee and all registration fees have been paid; or
- an approved owner from another District; or
- a current registered member of the New Zealand Kennel Club.

- *Other Owners*

This includes all other owners not complying with, or whose property does not meet, the criteria for Approved Dog Owner Status, nor do they meet the category of Probationary or Disqualified Owners.

2. Registration

The maintenance of a registration system is both a statutory requirement and an essential component of the efficient running of a dog control service. In the maintenance of a dog register Council shall do the following:

- Provide information to owners and potential owners about important rules for dogs and their obligation to register their dog.
- Monitor registration and take action against owners who fail to register their dog/s. This includes:
 - issuing or a warning or infringement notice;
 - impounding of unregistered dogs; and

- the requirement that all dogs be registered before they are released from the pound.

3. Registration Fees

The provision of a dog control service includes the maintenance of dog registration databases, the monitoring of regulations and bylaws, response to complaints, enforcement actions, and education programmes. It is important that the costs involved with the dog control service are identified and recovered through the appropriate means. Council will, where possible, recover costs associated with dog control from those who benefit from the service where they can be identified.

There are constraints on Council recovering costs and the user of a service cannot always be directly identified. The monitoring of regulations and bylaws or the impounding of a dog whose owner cannot be identified are two examples where the immediate user of the service cannot be identified. Enforcement actions (Council prosecuting an owner in Court) are an expensive process and the ability to recover these costs is constrained by law.

Where the cost cannot be fully identified with a particular group the cost must still be allocated. The public does benefit from a dog control service (e.g. reduction in nuisance factors, safety issues addressed, no roaming dogs) and therefore they should contribute to the cost. However dog owners should be responsible for most of the Council's costs associated with the provision of a dog control service.

The Council will recover most of the costs associated with dog control through Registration, Control and Enforcement fees.

Fees are set and advertised on at least one occasion each registration year (01 July to 30 June). Council is committed to keeping annual dog registration fees as low as possible and will review its dog control service at least every three years.

Registration and fees are prescribed as follows:

- All dogs are required to be registered in accordance with the Dog Control Act 1996.
- Dog registration fees will be set for neutered or spayed dogs, in accordance with section 37(2)(a) of the Dog Control Act 1996, this fee is to be:
 - a) less than the standard registration fee for Other Dog Owners but greater than the Approved Dog Owner fee; and
 - b) a sufficiently large concession on the standard registration fee to give a strong incentive to neuter or spay dogs
- There is a reduced registration fee under section 37(2)(b) for working dogs (as defined in section 2 of the Dog Control Act 1996) and under section 37(2)(e) for dog owners who have been granted Approved Dog Owner Status by the Council.
- There are no registration fees for Disability Assist Dogs as defined under section 2 in the Dog Control Act 1996.
- Council may impose a penalty for late registration fee payment.
- There is an increased registration fee for dogs classed as dangerous in accordance with section 31 of the Dog Control Act 1996.

4. Education – Awareness Programmes

From time to time the Council will provide education material and information promoting responsible dog ownership and responsible interaction with dogs.

Examples of awareness programmes and information include:

- child safety information;
- responsible dog ownership information;
- school education programmes;
- health and hygiene information; and
- dog information brochures
- NZKC Canine Good Citizen Programme

5. Dog Obedience Courses

The Council will encourage and promote dog obedience courses to dog owners.

6. Dog Welfare

Kapiti Coast District Council recognises the benefits of good and proper dog care.

Owners have an obligation to ensure that their dog:

- is adequately housed
- receives proper and sufficient food and water
- is regularly and adequately exercised

It is an absolute requirement that dog owners provide adequate shelter, accommodation, food and water and veterinary care for their dog(s). Apart from the obvious humane aspects, a well cared-for dog will be a better companion animal or working dog, will respond better to training, and will be less likely to cause problems or nuisances. Caring for a companion animal is also a very useful aid to the general education of children. All of these aspects are in the best interests of the dogs, their owners and the community at large.

Council therefore will continue to ensure that the sections of the Dog Control Act 1996 devoted to dog welfare are enforced.

7. The Issuing of Infringement Notices

The Council will issue warnings, at the officers discretion, and/or infringement notices, for infringement offences as set out in Schedule 1 of the Dog Control Act 1996.

Section of the Act	Infringement Offence Summary	Maximum fee set under the Act
18	Wilful obstruction of a dog control officer(s) of dog ranger(s)	\$750
19(2)	Failure or refusal to supply information or wilfully stating false particulars	\$750
19A(2)	Failure to supply information or wilfully providing false particulars about the dog	\$750
20(5)	Failure to comply with any bylaw authorised by section 20 of the Act	\$300
23A(2)	Failure to undertake dog education programme or dog obedience	\$300

Section of the Act	Infringement Offence Summary	Maximum fee set under the Act
	course (or both)	
24	Failure to comply with obligations of a probationary owner	\$750
28(5)	Failure to comply with effects of disqualification	\$750
32(2)	Failure to comply with effects of classification of dog as a dangerous dog	\$300
32(4)	Fraudulent sale or transfer of dangerous dog(s)	\$500
33EC(1)	Failure to comply with the effects of classification as menacing dog	\$300
33F(3)	Failure to advise person of muzzle and leashing requirements	\$100
36(A)6	Failure to implant a microchip transponder in dog	\$300
41	False statement relating to registration application	\$750
41A	Falsely notifying death of dog	\$750
42	Failing to register dog(s)	\$300
46(4)	Fraudulent attempt to procure replacement label(s) or disc(s)	\$500
48(3)	Failure to advise change of ownership	\$100
49(4)	Failure to advise change of address	\$100
51(1)	Removal or swapping of label(s) or disc(s)	\$500
52A	Failure to keep dog(s) controlled or confined	\$200
53(1)	Failure to keep dog(s) under proper control	\$200
54(2)	Failure to provide proper care and attention, to supply proper and sufficient food, water, shelter, and exercise	\$300
54A	Failure to carry leash in public	\$100
55(7)	Failure to comply with barking dog abatement notice	\$200
62(4)	Allowing dog(s) known to be dangerous to be at large un-muzzled or unleashed	\$300
62(5)	Failure to advise of muzzle and leashing requirements	\$100
72(2)	Releasing dog from custody	\$750

8. Dog Shelter

The Council policy in relation to impounding and release of dogs is:

- a) Where a dog is claimed by its owner the dog will not be released from the shelter until all fees and charges have been paid or appropriate arrangements for payment made and all other requirements in accordance with the Dog Control Act 1996 are met.

- b) Where a dog is released from the Council's dog shelter to a new owner, the new owner is not required to pay a standard release fee, but is required to pay the cost of registration.
- c) Council will make every effort to re-home unclaimed dogs that pass a temperament test.

Fees are reviewed and set annually by Council resolution, and are scaled depending on whether the dog is registered and if it has been impounded before. Owners will also incur a standard daily dog sustenance fee for each day the dog is held in custody.

9. Neutering of Dogs

Any dog classified as menacing by the Kapiti Coast District Council or any other Council in accordance with section 33A or 33C of the Dog Control Act 1996 must be neutered. These requirements are set out in sections 33E and 33EB of the Dog Control Act 1996.

The owner of a dog classified as menacing must, if required by the Council, produce a veterinary certificate showing the dog has been neutered or that it is unfit to neuter before a certain date.

This policy applies to all dogs classified as menacing, except where, on written veterinary advice, conducting this procedure will present a significant health risk to the dog. The Council shall receive a certificate stating when this procedure could be conducted. In all cases the classification documents served on the owner of a menacing dog will advise them whether it is necessary for the dog to be neutered. Owners must comply within 1 month of the classification.

10. Dangerous and Menacing Dogs

Problems exist with a small section of the dog population, which pose a significant threat to the community through aggressive behaviour. These are the dogs that attack or threaten people or animals causing injury, damage or distress.

It is important that where dogs are identified (through their behaviour) as dangerous or menacing that the appropriate actions are taken to control them.

Council shall classify dangerous dogs, in accordance with the provisions of the Dog Control Act 1996. The owner of a dangerous dog shall:

- be given notice of the dog's classification in writing;
- be allowed to object to the classification and be heard;
- comply with the requirements of the Act to keep the dog fenced in, muzzled/caged when in public and have the dog neutered;
- pay a surcharge of 150% on dog control fees;
- not dispose of the dog to any person without Council prior written approval;
- advise any person in possession of the dangerous/menacing dog of the requirement to muzzle, cage and leash the dog when in public; and
- ensure the dog is micro-chipped

Section 33A of the Dog Control Amendment 2003 allows Council to classify dogs as menacing. Section 33C requires the Council must classify the breeds or types listed in Schedule 4 of the Act as menacing. Council shall classify menacing dogs in accordance with the provisions of the Dog Control Amendment Act 2003. The owner of a menacing dog shall:

- be give written notice of the dog's classification in the form prescribed;
- be allowed to object to the classification and be heard;
- comply with the requirements of the Act to keep the dog muzzled/caged when in public and may be required to have the dog neutered;
- advise the person in possession of the menacing dog of the requirement to muzzle/cage the dog when in public; and
- ensure that the dog is micro-chipped

Council must also classify dogs belonging to the breed or type listed in Schedule 4 of the Dog Control Amendment Act 2003 as menacing. Those breeds or types of dog currently listed are as follows:

- Breed of Dog: Brazilian Fila, Dogo Argentine, Japanese Tosa

- Type of Dog: American Pit Bull Terrier

11. Permits

In order to ensure improved dog control, dog welfare and security against dangerous dogs, Council will introduce a permit system. These will impose conditions upon owners wishing to continue to keep Dangerous or Restricted dogs. For example, the Special Licence may require higher standards of fencing and more secure gates on properties where such dogs reside, or that the dogs be fitted with dog identification microchips or wear muzzles when being exercised.

Special Licenses would also be required for:

- ownership of more than two dogs
- operation of a boarding kennel
- medical exemptions of dogs.

There will be a fee imposed for processing and issuing a permit.

12. Micro-chipping Dogs

Where a dog is classified as dangerous or menacing, or from 01 July 2006 it is registered for the first time or is impounded, the owners must provide permanent identification of the dog by arranging for the dog to be properly implanted with an approved microchip.

In management of the introduction and implementation of micro-chipping dogs, Council will employ the following:

- require that owners of dangerous or menacing dogs implant a microchip in the dog;
- require that a dog first registered after 01 July 2006 is implanted with a microchip;
- require that an unregistered dog impounded from 01 July 2006 is implanted with a micro-chip before release;
- require that a dog impounded for the second time from 01 July 2006 is implanted with a microchip before release;
- issuing of a warning or infringement notice;

- seizure for non-compliance; and
- prosecution

13. Enforcement of Dog Control

The following clauses have been adopted by the Council and incorporated into the Kapiti Coast District Council Dog Control Bylaw 2008 to ensure:

- the health and safety of citizens and dogs throughout the community; and
 - hygienic and healthy practices of dog care and control are maintained throughout public places
- (a) Dogs on public roads, which include footpaths and private ways, are to be under leash control by a person capable of controlling the dog. Leashes should not be excessively long (i.e. less than 2 metres) and should be properly attached to a correctly fitting collar or harness (section 20(1)(b) and (c) of the Act).
- (b) Dogs on public places, unless categorised as a no-dog or dog off-leash zone should be kept on-leash at all times (section 20(1)(c) of the Act).
- (c) The Council may, by Special Consultative Procedure, declare any public place a no-dog, dog on-leash or dog off-leash area (sections 20(1)(a), 20(1)(b) and 20(1)(d))
- (d) A Council permit needs to be issued to authorize anyone to keep two or more dogs on any property zoned commercial, industrial, residential or any rural residential areas less than one acre in size. There are a number of exemptions, such as: dogs kept for working purposes, dogs that assist people with disabilities, dog breeders operating with a Kapiti Coast District Council Resource Consent and veterinary premises for example.
- (e) Dogs on open trays of vehicles or left within enclosed vehicles must be well restrained and not left in circumstances that could lead to their danger or discomfort (section 20(1)(l) of the Act).

-
- (f) Bitches in season are to be appropriately confined so that they are unable to wander at large on any private or public place (section 20(1)(l) and section 20(1)(i) of the Act).
- (g) Native, indigenous or protected wildlife can be sensitive to threats by predators (including dogs) which can damage or cause distress to both wildlife populations and habitat. When it is identified that dogs will have a significant negative effect on wildlife or their habitats access for dogs may be restricted (section 20(1)(l) of the Act).
- (h) An owner of a dog which defecates in a public place or on any land other than that occupied by that person is required to remove the deposited faeces from that land or place immediately (section 20(1)(h)). (Note: the Dog Control Act 1996 also defines the owner as the person in charge.)
- (i) Dogs are prohibited from being closer than 10 metres from any children's playground equipment whether temporarily or permanently erected in any public place (section 20(1)(l) of the Act).
- (j) Dog are prohibited inside the marked boundary of all sports fields at all times (section 20(1)(l) of the Act).
- (k) The Council will erect appropriate warning signs and install disposal bins at various locations to assist dog owners in complying with the bylaws (section 20(1)(l) of the Act).

14. Categories of Dog Control areas

The Kapiti Coast District Council recognises the need for adequate areas for dog exercise. To achieve this, the Council will continue to work toward ensuring that:

- dogs and their owners are provided with access to public places which fairly represent the proportion of dog owners in the community;

- that dog exercise areas will be considered in the Open Places Strategy for the District;
- dogs and their owners have access to public places which allows for their reasonable recreational and exercise needs whilst ensuring that danger, distress and nuisance to the rest of the community is minimised; and
- where possible, dog owners have on-leash ‘right of passage’ with their dogs through otherwise no-dog areas (i.e. specified on-leash zone access corridors will be allowed for access between off-leash and on-leash zones separated by no-dogs zones).

Three basic categories of Dog Access Zone are provided for in the Policy:

No-Dog Zone (Prohibited Zone)	Dogs not allowed under any circumstances
On-leash Zone (Controlled Zone)	Dogs allowed only when under a leash or lead control
Off-leash Zone (Exercise Zone)	Dogs allowed to run freely, but under direct voice and visual control at all times

There are times of the year when it may be inappropriate to allow access of dogs to certain zones. For example, in mid summer, during school holidays or when an organised event¹ is being held, it is reasonable to expect the most popular central beach or park and reserve areas to either be on-leash or no-dog zones.

Reducing dog access during peak times will allow the unimpeded enjoyment of busy public places by family groups, and help to minimise problems caused by dogs fouling public recreation areas.

¹ For the purposes of this Policy and the Kapiti Coast District Council Dog Control Bylaw 2008, an organised event means a planned sporting or cultural event held by a club, school, or other organised body.

No-dog zoning may therefore be applied only during the busiest holiday periods, reverting to on-leash zoning for the rest of the year. Similarly, it may be appropriate for no-dog zoning to be applied for specific events, such as cultural or sports events, in specified areas.

15. *Walking a dog in an Off-Leash Public Place*

If walking a dog in an area that is designated off-leash the dog-walker may elect to exercise his/her dog off its leash to run free. It is the dog walker's choice, and his/her responsibility to maintain direct control over their dog at all times. Direct control means that the dog walker must keep the dog within his/her direct vision and voice range at all times so that the dog will immediately return upon hearing a voice or whistle command.

When exercising a dog off-leash, it is good practice when encountering other people, dogs or animals, to call the dog back and put it on its leash until a safe distance has been re-established.

16. Dog Areas defined under the Conservation Act 1987 or National Parks Act 1980

Dog access is also affected by the Conservation Act 1987 and the National Parks Act 1980. Permits are required before dogs can be allowed access into specified areas of land affected by these two additional Acts. The Wellington Conservancy of the Department of Conservation is responsible for this function and the attached maps in this Policy will identify the areas where these additional limitations apply.

17. Access Corridors

Designated Access Corridors will also be established. These corridors will have on-leash status and will allow dogs and their owners to pass across no-dog zones to reach off-leash or on-leash zones.

18. Exemptions

Exemption applications for certain dogs who cannot comply with the Kapiti Coast District Council Dog Bylaw will be considered by the Kapiti Coast District Council

Dog Owners Objections Subcommittee² (the Panel). The Panel has the delegated authority to hear objections to any dog classified as dangerous or menacing or any owner classified as probationary or disqualified under the provisions of the Dog Control Act 1996.

The Panel also has the authority to consider exemptions under the Bylaw, such as certain situations where dogs with a proven medical condition cannot comply with the Bylaw's rules. In such circumstance the Panel also has the ability to place alternative conditions (where necessary) on dog owners to ensure public safety is not compromised.

19. Kapiti Coast District Dog Restriction Zones

Council defined No-Dog, On-Leash and Off-Leash zones are highlighted on the attached dog restriction maps (see Appendix 1). For further details on dog restriction zones please refer to Schedules 1, 2 3 and 4 of the Kapiti Coast District Dog Bylaw 2008, available on Council's website: www.kapiticoast.govt.nz

² The name of this Committee applies to the 2007-2010 triennium and may change in the future.
