Policy statement

1. Council has developed this policy because—
 - a) community participation in the democratic process is inherently valuable, and
 - b) community engagement can support robust decision making, and
 - c) section 76AA of the Local Government Act 2002 (LGA) requires the policy.

Operation of the policy

Date policy becomes effective

2. This policy takes effect when adopted by Council.

Interpretation of terms in this policy

3. The following terms and their interpretation apply to this policy:

decision means any decision made by or on behalf of Council including decisions made by officers using powers delegated by Council. Management decisions made by officers using delegated powers in order to implement a Council decision are not significant.

significance, in relation to any issue, proposal, decision, or other matter that concerns or is before a local authority, means the degree of importance of the issue, proposal, decision, or matter, as assessed by Council, in terms of its likely impact on, and likely consequences for,—

- a) the district or region:
- b) any persons who are likely to be particularly affected by, or interested in, the issue, proposal, decision, or matter:
- c) the capacity of Council to perform its role, and the financial and other costs of doing so.

significant, in relation to any issue, proposal, decision, or other matter, means that the issue, proposal, decision, or other matter has a high degree of significance. If something is “significant” then it has a high degree of importance:

- a) a significant activity is one with a high degree of importance.
- b) a significant decision is a decision with a high degree of importance.

**Significant decision
= High degree of importance**

strategic asset refers to an asset or group of assets that Council needs to keep in order to maintain its capacity to achieve or promote its outcomes, and that may be important to the current or future well-being of the community. This includes—

- a) the assets listed in clause 18; and
- b) any land or building owned by the local authority and required to maintain the local authority's capacity to provide affordable housing as part of its social policy; and
- c) any equity securities held by the local authority in—
 - i) a port company within the meaning of the Port Companies Act 1988;
 - ii) an airport company within the meaning of the Airport Authorities Act 1966.

Purpose

4. The purpose of the policy is—
 - a) to enable Council and its communities to identify the degree of significance attached to particular issues, proposals, assets, decisions, and activities; and
 - b) to provide clarity about how and when communities can expect to be engaged in decisions about different issues, assets, or other matters; and
 - c) to inform Council from the beginning of a decision-making process about—
 - i) the extent of any public engagement that is expected before a particular decision is made; and
 - ii) the form or type of engagement that is required.

Policy principles

5. Council is committed to engaging with communities that are directly affected by an issue, matter or proposal.
6. Council will engage with communities in different ways because of the diversity of the district's communities and the expanding number of ways that people communicate.
7. Council will use the special consultative procedure when required to do so by legislation.
8. Council acknowledges the unique perspective of Māori, who are more than an interest group.
9. Council's engagement planning on an issue will take account of—
 - a) Council's prior and current knowledge about the views and preferences of affected or interested parties; and
 - b) the expected costs and benefits of engagement.

Policy operation

10. All decision-making bodies of Council will decide on the degree of significance of a matter in the course of making a decision or dealing with a matter.
11. Council may reassess the significance of a matter at any point during a decision making process.
12. Any report to Council that requires a decision will include—
 - a) an assessment of the significance of the matter; and
 - b) advice on how Council can meet its engagement obligations.
13. If Council is called upon to make a significant decision quickly and the likely cost of delay will outweigh the benefits of consultation, it may make a decision without the usual public consultation. In these circumstances Council will still engage with District communities by providing information about the decision.
14. Council will publish guidance on the operation of this policy on its website.

Exclusions

15. This policy does not cover any engagement process that may be required under the Resource Management Act 1991.

Review and amendment

16. Council will consult on any proposed amendments to the policy in accordance with section 82 LGA unless it considers on reasonable grounds that it has sufficient information about community interests and preferences to enable the purpose of the policy to be achieved.
17. Council will consult on this policy for the first time concurrently with its long term plan consultation in 2015. (See clause 4, Schedule 1AA, LGA).

Significance

Strategic assets

18. Council's strategic assets are significant to Council and its communities. They are—
- water treatment plants, reservoirs and water reticulation system as a whole, including all land, structures, tanks, pipes, pump stations and other plant.
 - wastewater treatment plants and reticulation systems, as a whole, including all land, buildings, pipes, pump stations and plant
 - stormwater reticulation system as a whole, including all land, structures, pipes, pump stations and other plant
 - roading system as a whole including bridges, footpaths, lighting, signs, and off-street parking
 - amenity parks, sports fields and facilities under the Reserves Act 1977, as a whole
 - District library, as a whole, including branch library buildings, books, the Māori collection, other special collections, and other lending resources
 - District swimming pools, as a whole
 - housing for older persons, as a whole.
 - other Council properties, as a whole, including all land, buildings and structures
 - refuse transfer stations
 - landfills
 - cemeteries, including all land, buildings and structures owned by Council.
19. Council manages its strategic assets "as a whole". While the asset as a whole is strategic, some components are not necessarily strategic. For example, the roading network is a strategic asset, but individual sections of the network might not be. That means the sale or purchase of individual parcels of land is unlikely to constitute a significant decision.

General approach to assessing significance

20. Council's general approach to determining the significance of proposals and decisions in relation to issues, assets, and other matters is to consider the following matters—
- the consequences for a strategic asset
 - the financial impact on Council, including the impact on debt
 - the impact on rates
 - the impact on levels of service, as specified in the current long term plan
 - the size of the directly affected community
 - mana whenua's relationships with land and water
 - the level of community interest.

Criteria for assessing significance

21. In order to assess extent to which an issue, proposal, asset, decision, or activity is significant or may have significant consequences, Council will consider the following set of criteria. The criteria are a set, and no single point automatically makes a matter significant.

<i>Criteria</i>	
Strategic assets	Does the matter affect a strategic asset?
Financial impacts	What impact would there be on Council's finances? What would be the impact on Council's debt? What would be the impact on rates?
District strategy	How consistent is the matter with Council's long term plan, annual plan or another major Council plan that may be relevant to the matter?
Public interest	How widespread is the public interest?
Mana whenua's relationships with land and water	Is this consistent with the values and aspirations of tāngata whenua with regards to the sustainable management of the district? What impact would this have on mana whenua's relationships with land and water?
Legislation	Are there any legislative requirements that indicate the significance of the matter?

Thresholds for assessing significance

22. These thresholds provide an initial indication that a matter may be significant:

<i>Thresholds</i>	
Strategic assets	Council would incur capital expenditure of more than 25% of the value of the strategic asset relevant to the decision
Finances	Council would incur capital expenditure of more than 1% of the total value of Council's assets; or Council would incur operational expenditure of more than 5% of its annual budget for that year; or Council would breach its LTP debt limit; or Council would reasonably expect to breach its LTP cap on rates increases in the next year
District strategy	Council would reduce its share in any Council controlled organisation to the point where it no longer had a controlling interest
Public interest	There is District-wide public debate.
Mana whenua's relationships with land and water	The matter relates to the Memorandum of Partnership with tāngata whenua, co-management opportunities and ongoing formal agreements with tāngata whenua.

Significance and engagement in relation to decisions on water assets
