9 May 2018	PRCB meeting	Bus stop at Paraparaumu Railway Station	Roading/Town Centre project teams	<p>The bus parking situation at the Paraparaumu train station sits with NZTA as the road controlling authority, and GWRC as the service operator. Council has been working to assist the process where possible by re-configuring the area through the town centre project to coincide with the revocation process of the old SH1.</p> <p>Unfortunately the agency has delayed the revocation work, with physical construction unlikely to commence before the New Year. GWRC and NZTA have worked collaboratively in conjunction with the town centres team to install a temporary arrangement to accommodate the revised GWRC bus routes in the area near the Paraparaumu train station over the intervening period.</p> <p>The permanent configuration, including on-road bus stops, will be installed as part of the revocation works during 2019/20.</p>

A request has been made for the reasons for this decision but these have not yet been received. It is important that the Community Board understands the reasons before it makes a decision.
