Dear Darryl

Proposed KCDC District Plan Submission: M. Housiaux, 176 Te Hapua Road, Te Horo

I am pleased to respond to your request for comment from Greater Wellington Regional Council (GWRC) Flood Protection regarding the submission on the proposed Kapiti Coast District Plan (KCDC) from M. Housiaux, 176 Te Hapua Road, Te Horo (Part Lot 7 DP 61569).

We do not have any flood hazard information for the Te Hapua wetland area, which is outside the area of flooding associated with the Pukenuamu Drain in a 100 year return period flood event. The Pukenuamu Drain is one of the tributaries of the Mangaone Stream and is the closest watercourse to the area for which we have flood hazard information.

Please contact me directly if you would like to discuss this further.

Yours sincerely

Sharyn Westlake
