Our next project at this location will focus on maintaining our rail asset to ensure that we can proactively maintain the wear. At the time where our work could affect public wellbeing we will look to contact the community to help mitigate any impacts.
5	9/9/14	Beautification of Waikanae – Planting	Council is not intending to plant on the site this calendar year as they need to do the ground preparation and get rid of the weeds which will require spraying more than once and the \$9200 approved last financial year by the Board, will be used to do this. Next May the additional approved budget will be used to do the planting. Council was still waiting on formal permission to carry out the work and although they have indicated verbally that the proposed works should be okay, work cannot start until a Beautification Lease has been received.
