Public Notice is hereby given, in accordance with Clause 8D of the First Schedule of the Resource Management Act 1991, that at a meeting held on 11 April 2019 the Kapiti Coast District Council resolved to withdraw Standard 2 of Rule 11B.1.1 (which is shown as a strikethrough below) of the Proposed Kapiti Coast District Plan 2012 (PDP) as follows:

The following table sets out the rules and standards for managing demand on water supply, sanitation and drainage.

Introduction: Applicability of Rules in Tables 11B.1 to 11B.5

The rules in Tables 11B.1 to 11B.5 apply to all zones of the District. There are other rules within the District Plan that may also apply to sites and activities. Section 1.1 in Chapter 1 sets out how to use the Plan and identify other rules that may also apply to a site or activity.

Table 11B.1 Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and standards in other Chapters irrespective of their activity status (unless otherwise specified).

Permitted Activities	Standards
1. <i>All permitted activities in all zones, including network utilities.</i>	<p>1. <i>Development</i> must be undertaken in accordance with the Council's Subdivision and Development Principles and Requirements, 2012.</p> <p>2. <i>Stormwater systems must be designed to provide hydraulic neutrality to ensure stormwater runoff from all new impermeable surfaces is disposed of, or stored on-site and released at a rate that does not exceed the peak stormwater runoff when compared to the pre-development situation, for the 50%, 20%, 10% and 1% Annual Exceedance Probability flood events.</i></p>

Reasons for withdrawal:

In order to improve the effectiveness and efficient operation of the PDP, the Council has resolved to withdraw Standard 2 of Rule 11B.1.1, shown above. Withdrawal of the standard will remove duplication and assist in the overall workability of the PDP provisions.
