

# 2021

## Matatua Road/Alexander Road – safety improvements (2021)

Changes proposed at the Matatua Road/Alexander Road intersection include:

- Reducing lane widths and building out the kerbs to reduce vehicle speeds.
- Improving pedestrian access across Alexander Road by raising the crossing onto a safety platform. This will improve pedestrian safety and reduce vehicle speeds.
- Installing a raised safety platform to reduce speeds on Matatua Road and to reinforce the 30km/h speed limit on Rosetta Road. The raised platform also makes it easier for pedestrians to cross Matatua Road.
- Reviewing car parking to allow for safety improvements (additional parking is planned for Kōwhai Grove).

**Timing:** This work is planned for summer 2021.
