## OUR DIRECTION PAGES 10-19

Council has developed community outcomes to contribute to our community's wellbeing:

- Mana Whenua and Council have a mutually mana-enhancing partnership
- Our communities are resilient, safe, healthy, thriving and connected. Everyone has a sense of belonging and can access the resources and services they need
- Our local economy is prosperous with ample opportunities for people to work and learn in Kāpiti
- Our natural environment is restored and enhanced as we transition to a low-carbon future
- Our people have access to suitable housing in Kāpiti so that they can live and thrive.

Do you think these are the right priorities for Council at this time?

## INVESTING FOR RESILIENCE AND GROWTH: OUR PROPOSED DEVELOPMENT OF INFRASTRUCTURE AND FACILITIES PAGES 20-24

Do you think investing for resilience and growth is the right approach for Council to take at this time?

## OUR FINANCIAL AND INFRASTRUCTURE STRATEGIES PAGES 25-31

Council has determined that it is appropriate to change the limits for rates, capital spending and borrowing for the 2021–41 Long-term Plan given the extra costs that need to be met and the challenges the district is facing – particularly to be able to replace vital infrastructure in the future.

What do you think?

## OUR BIG ISSUES PAGES 34-49

We want to know your views to guide our direction on these big issues.

### COVID-19 response and recovery, pages 36-37

If we experience a resurgence of COVID-19, are there particular things you would like Council to do in response? The same things we did previously? Other things?

What are the positives that have come out of the pandemic you would like us to keep doing or support in the community?

### Access to housing, page 38

For comments on our plans to address housing, see *Key decisions, key project 1* (page 52)

If you have any views on access to housing generally, please comment here:

### Responding to climate change, pages 39-41

We have made good progress on reducing Council's emissions, however, achieving further gains will cost more. Should we continue to prioritise emissions reduction within Council?

The effects of climate change are being experienced in different ways across the district, for example, for our coastal communities and infrastructure such as the seawall in Paekākāriki. As climate change impacts become more severe and costs to respond increase, how do we ensure equity across the district?

We have developed a strategic framework to guide our decision making (pages 40-41) and we want to know if you think we've got it right. What are your views?

### **Managing growth, pages 42-43**

As our district grows, what do you think good growth looks like?

### **Strengthening our resilience, pages 44-45**

What else can Council do to help build community resilience?

How can Council encourage households' emergency preparedness?

Should we explore different options for how we insure our assets? We could:

- reduce our cover/increase our excess?
- self-insure more/increase our reserves?

### **Government changes impacting Council: Three waters services, pages 46-47**

With the changes the Government is making to regulation and supply for three waters services (drinking water, wastewater and stormwater):

What's important for you about Council's role?

What should we advocate for?

## KEY DECISIONS PAGES 50-63
