

Internal Memo

To: Craig Harris
Deputy Commissioner of Crown lands

From: Bart van Stratum

Date: 27 August 2014

Subject: **Status Report on part Otaki Beach adjoining Marine Parade between Tasman Road and Koromiki Street**

Purpose To seek your agreement as to both the status and the administering authority for part Otaki Beach adjacent to Marine Parade between Tasman Road as shown hatched in black on the Quickmap plan in the attached status report.

Reference The attached status report dated 30 July 2014 prepared by RMAC Services Limited.

The land status report to the Kapiti Coast District Council prepared by Simpson Grierson dated 16 July 2014.

Background A request from Ann Lawler to licence the land to undertake beautification generated the need undertake this status report.

Ann Lawler has also lodged an Official Information Act request on the subject of this land.

Comment I have reviewed the RMAC prepared status report and support their conclusion.

The property, when confirmed as Crown Land, will be entered into NaPALIS with a note that the boundary on the seaward side is the line of the Mean High Water subject to survey. A note will also record the fact that some or all of the surf club and car-park are on the subject land. Discussions are in train with the Kapiti Coast District Council to advise them of the shortcoming in the Simpson Grierson status report and advise them of the LINZ standard for claiming accretion.

Recommendation That the land hatched in black on the Quickmap plan (with no legal description) is Crown Land under the Land Act 1948 and lies within the jurisdiction of the Commissioner of Crown Lands.

Status of Part Otaki Beach

Bart

You asked for comment on the status of that part of Otaki Beach adjoining Marine Parade between Tasman Road and Koromiko Street.

Early survey plans (1916 – 1921) subdividing the land in CT 110/245 show the legal road (Marine Parade) abutting the sea. The CT (issued in 1901) notes that the coastal boundary is High Water Mark.

The sea bed out from the road was subject to tidal action and such areas have always been regarded as Crown Land.

The Resource Management Act 1991 established a Coastal Marine Area with the landward boundary being Mean High Water Springs (MHWS). Subsequent legislation, The Foreshore and Seabed Act 2004 and the Marine and Coastal Area Act 2011 (MACAA) adopted the line of MHWS as the boundary. MACAA also declared, in general, that lands below that line were incapable of ownership.

Any land between the legal road and the line of MHWS therefore remains as Crown Land and lies within the definition contained in the Land Act 1948.

The problem here is that the position of the line of MHWS is not known. If it approximates the line of vegetation shown on google imagery, then there has clearly been accretion action. The area could be claimed as accretion to the road, but there is no evidence of any such claim. The common law presumption of *usque ad medium filum aquae* (AMF) does not apply to roads or over tidal waters.

There is no evidence that the land has ever been alienated from the Crown; nor has it been allocated to any other Crown agency. No certificate of title has issued as the area has not been surveyed and is not held under the Land Transfer Act.

Conclusion

That the land between the legal road (Marine Parade) and the line of MHWS is Crown Land under the Land Act 1948 and therefore lies within the administrative authority of the Commissioner of Crown Lands.
