Using Beamafilm

Devices you can use

You can enjoy Beamafilm videos on a smartphone, tablet, PC or Mac, except where some manufacturers may have imposed limitations. You can also view videos on your TV by connecting your TV to a computer or device via Apple TV, HDMI cable, or Chromecast.

Searching or Browsing

Search for movies by entering a movie or director's name or a subject.

Browse by genre under *Documentaries*, *Movies* or *Subjects*.

Sorting or Filtering

Sort or Filter the entire collection by choosing VIEW ALL on the Subjects page. Or just filter the search/genre results.

Filter by *Classification, Country, HD or Closed Caption Films.*

Sort by *Recently Added, Popular, Year Released or A-Z.*

Changing video quality

Click the HD button on the bottom right corner of the player window and choose your preferred quality.

If the quality of the video is low, this is likely due to your internet connection speed or multiple devices connecting to your WiFi.

Adding videos to your Favourites

Bookmark films by clicking the heart icon on the video image.

To see the movies that you've bookmarked, click the profile icon on the top right corner of the screen. Then click *Profile*. You will see a list of videos you have added to your Favourites and a list of videos you have viewed.

Continue viewing

You can resume a video at the point where you paused it before.

Downloading

Beamafilm videos are currently only available to stream, not to download.
