No approaches had been made to the Board Chair to date. The Chair indicated he would discuss the matter with the Older Persons' Council.

Noise from Kaitawa Reserve basketball court

Mr Pedersen confirmed he and Ms Alison Law, Parks and Recreation Manager, had met with the neighbours concerned and discussed the issue. Ms Law has identified a material from which a quieter back board can likely be constructed, and that option is being pursued.

Long Term

Re-development of the Raumati pool building

It was noted this matter will be addressed through the Long Term Plan, and that the Council is currently focussed on reducing its capital spend.

Investment in a Performing Arts Centre

Progress is being made relating to the funding and access agreement between the Council and the College.

Concern was expressed at the lack of progress and the resolution from the previous Board meeting was noted.

The Board expressed disappointment that briefings to Council and Community Boards have once again been postponed, and requested a new date be circulated.

Expressway Update

- Neighbourhood Impact Forum – Makarini Street: Mr Randall said the residents are very unhappy, with the main complaint being noise; residents noted that if the maximum speed limit increases to 110kph then the noise issue will get worse.
- Neighbourhood Impact Forum – Leinster Avenue: Mrs Spiers said this group had similar issues with noise; there were also problems with flooding due to drainage work being carried out at Queen Elizabeth Park. She said people in Rongomo Lane had concerns regarding the sale of surplus land by NZTA, with the concern that development of the land will change the rural nature of the area. A request for Official Information had been made to the agency asking them to advise what land has been sold and what land is under negotiation.
- Community Liaison Group – Mr Best advised the noise issue was the main concern and recommendations from both the CLG and this Board had gone to NZTA. An independent review panel has been brought in to review the project to check it is in compliance with the Board of Enquiry's conditions. Independent experts will attend public meetings which
