Question 1

Do you support council entering into a five year lease with W Read for land at Ngawahakangutu Reserve? . Yes

What comments would you like to provide on the proposal to enter into this new lease with W Read?

We adjoin the reserve and welcome the grazing of the reserve leased by W Read. His stock keep the grass under control, saving KCDC maintenance costs and prevent a fire hazard. We will continue to provide bore water for the stock to drink if the lease is renewed for W Read.

Question 1

Do you support council entering into a five year lease with W Read for land at Ngawhakangutu Reserve? No

What comments would you like to provide on the proposal to enter into this new lease with W Read?

As this area is reserve land I would like to see the public have access to this area. Grazing cattle from time to time may be incorporated to the plan but I request that the public are able to access this reserve land at least the majority of the time. I would support W Read grazing only if the term was shorter and access to all the reserve land for public granted. I also question the least cost - it seems much lower than the going rate for grazing in our area - I would ask this be reassessed to check it is a suitable amount. Reason being Peka Peka resident numbers are growing and continuing to grow. This is reserve land and we need open spaces / access to reserve land for walking, for dogs to be exercised, for horses to be ridden etc. I understand that there will be development of this area. I request that initially we have access to the area and as it is developed that there are suitable tracks built.
