

26 January 2022

Request for Official Information responded to under the Local Government and Official Information and Meetings Act 1987 (LGOIMA) – reference: OIR 2122-171

I refer to your information request we received on 17 December 2021 and subsequent requests on 12 and 13 January 2022 for the following:

1. *Regarding being unvaccinated and the charge of rates. Should not be paying the amount of rates, as does not have access to all facilities.*

There will not be a reduction in rates for those who do not have a vaccine pass. Rates help pay for services and facilities for the Kāpiti community that are either critical or beneficial to the community as a whole – often the things that make our district a more desirable place to live. Many of those raising the perceived issue of a rates rebate for the Council services are claiming that they have been denied because of the introduction of vaccine passes.

The services are still on offer and ratepayers cannot receive a rebate or reduction simply because they have self-selected to opt-out by not receiving the government funded vaccine.

Many services have been translated into a safe and contactless service - information on our services under the COVID-19 protection framework is available on our website: <https://www.kapiticoast.govt.nz/our-district/cdem/covid-19/our-services-during-covid-19/>

2. *Wanting legal paperwork regarding the mandate - not wanting the generic email to be sent, wanting to have a discussion regarding this.*

The operational decision to require a vaccine pass at many of our facilities was made by Council's Senior Leadership Team. The decision was made in order to protect the community's vulnerable members (older persons, children under 12 years not vaccinated and immune compromised persons) that would be using the Council facilities. As a Council we are committed to doing as much as we can to protect our staff and communities as we transition to living with COVID-19.

The delegation that permits the Chief Executive to make this decision can be seen within the reports and minutes in relation to the Council meeting on 12 December 2019 these documents can be seen on the Council website at: <https://www.kapiticoast.govt.nz/your-council/meetings/meetings/>

The Amendments to the Council delegations to Chief Executive and staff report includes the delegation under the Local Government Act 2002 which gives the Chief Executive the power to give approval to matters or activities relating to land or buildings under the control, authorisation or ownership of the Council. The COVID-19 Public Health Response Act 2020 then empowers measures such as requiring a Vaccine Pass to enter facilities.

3. Also requesting the Risk analysis for the Waikanae Pool for unvaccinated children.

Individual risk assessments were not carried out for individual facilities however please find attached a copy of the Kapiti Coast District Council Risk Assessment prepared to determine our COVID-19 Vaccination requirements for staff positions. It also looks at risk in relation to COVID-19 for different Council roles and facilities. Due to this risk assessment, these facilities have been mandated as requiring a Vaccine Pass for the health and safety of our staff our community and our customers.

4. Are 5-11 year olds going to require vaccine passes to access community facilities (if Council will be extending it's Vaccine Pass requirement to the 5-11 year old age group).

Government advice is that children under the age of 12 years and 3 months are not required to show proof of vaccination.

Yours sincerely

Mark de Haast
Group Manager Corporate Services
Te Kaihautū Ratonga Tōpū

**Kapiti Coast District Council Risk Assessment
for COVID Vaccinations per position**

*** following the risk assessment of all roles the assumption is that as a local government organisation our role is to deliver services to the community which meet legislative requirements and underpinned with our organisational values. Therefore in the interest of being a good employer, caring about the wellbeing of our workers, putting the health and safety of our workers, our community, and our customers as a priority, it appears unlikely that any role within our organisation could be exempt from the risk of spreading and/or contracting delta in the workplace or as a result of the work being undertaken.**

<p>Public Health Order - Education Mandated roles under the Public Health Order for Education - required to go into schools</p> <p>Public Health Order – Education Mandated roles under the Public Health (Vaccinations) Order for Education, which includes: Workers over the age of 12 years who carry out work at or for an affected education service (including as a volunteer worker or an unpaid worker) and who either: •may have contact with children or students while carrying out the work •will be present at the affected education service at a time when children or students are also present.</p>	<p>Roles that are required to regularly go into schools as an essential part of their role and therefore mandated under the COVID-19 Public Health Response (Vaccinations) Order 2021. **PUBLIC HEALTH ORDER INFORMATION MAY BE SUBJECT TO CHANGE</p>	<ul style="list-style-type: none"> •Mask wearing •Physical Distancing •Good Hygiene •Tracking using COVID app •Staying home when unwell •Covid test where required •Workers to forward results to Human Resources Advisors/Health and Safety Advisor for filing onto secure personal files <p><u>Vaccination Legally Mandated</u></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High <i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High <i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>These roles are required to be vaccinated under the COVID-19 Public Health Response (Vaccinations) Order 2021.</p>	<p>It is legally mandated for these roles to be vaccinated.</p> <p>All positions that fit within this role profile are required to be vaccinated.</p>
<p>Public Health Order - Covid Vaccination Certificate Roles that will be mandated under the health order for Covid Vaccination Certificates include: - Workers at permitted events/gatherings (KCDC events) regardless of whether the work is carried out before people arrive at, or leave, the permitted event - Gyms (no current KCDC operated Gym facilities) - Workers of a food and drink business service (see definition in COVID-19 Public Health Response (Protection Framework) Order 2021) - Workers at close proximity businesses and services (where physical distancing of 1 metre cannot be maintained, excludes professional and semi-professional sports, specified social services, education entities - see definition in COVID-19 Public Health Response (Protection Framework) Order 2021) - Workers who carry out work for a tertiary education provider at tertiary education premises that are located in an area described in Part 1 of Schedule 7 of the Covid-19 Framework (areas at Red of traffic light).</p> <p>* Please note the rules for these categories differ depending on whether we are at a Red, Orange or Green setting.</p>	<p>Roles that support activities that require COVID Vaccination Certificate e.g. events, gyms etc **PUBLIC HEALTH ORDER INFORMATION MAY BE SUBJECT TO CHANGE</p>	<ul style="list-style-type: none"> •Mask wearing •Physical Distancing •Reduction of attendees to events/facilities/programmes •Good Hygiene •Tracking using COVID app •Staying home when unwell •Workers with cold, flu or COVID-19 symptoms get tested where required •Workers to forward results to Human Resources Advisors/Health and Safety Advisor for filing onto secure personal files. <p><u>Vaccination Legally Mandated</u></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High <i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High <i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>These roles are required to be vaccinated under the COVID-19 Public Health Response (Vaccinations) Order 2021 and Covid-19 Public Health Response (Vaccinations) Amendment Order (No 6) 2021.</p>	<p>It is legally mandated for these roles to be vaccinated.</p> <p>All positions in KCDC that fit within this role profile are required to be vaccinated.</p>

**Kapiti Coast District Council Risk Assessment
for COVID Vaccinations per position**

Role Groupings for Risk Assessment	Potential Situations* see below at end of table	Current Controls	Residual Risk Contraction of COVID-19 (once controls are in place)	Residual Risk Transmission of COVID-19 (once controls are in place)	Vaccination Consideration	Vaccination requirement
Pool and Recreation Facilities	<p>KCDC Pool and Recreation Facilities roles regularly interact with the public, in particular having high attendance rates for children* and other vulnerable groups of society.</p> <p>Pools and Recreation Facilities can not easily provide separate access/egress or separate worker only areas, therefore, anyone working onsite will interact with the general public. (this includes the Plunge Cafe located within the Coastlands Aquatic Centre)</p> <p><i>*Children are defined as a vulnerable group by Government given they cannot be vaccinated (you must currently be at least 12 years old to be vaccinated).</i></p> <p>Council Halls - these premises are regularly hired to members of the public/businesses/community groups/clubs, etc for their activities and events. Such hire arrangements do not include a requirement for Council staff to be present and as such the 'hirer/organiser' of the event has responsibility to ensure infection control protocols are in place and carried out.</p>	<ul style="list-style-type: none"> •Mask wearing (where appropriate)☐ •Physical Distancing •Good Hygiene •Tracking using COVID app •Staying home when unwell •Workers with cold, flu or COVID-19 symptoms get tested where required •Workers to forward results to Human Resources Advisors/Health and Safety Advisor for filing onto secure personal files <p>Pool specific rules:</p> <ul style="list-style-type: none"> •parents to assist with guiding or hands on support if needed for swim lessons <p>KCDC requires the hirer of the Council facility - such as Halls and the separate function rooms within the same facility - to undertake the required protocols for managing infection under the Covid-19 traffic lights system. For multiple hire's within the same facility, the Council may restrict bookings to single events only.</p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Pool and Recreation facilities workers are in close contact with children and other vulnerable groups of society. They are also unable to confirm vaccination status of those they regularly interact with.</p> <p>Pool Specific Risk: Due to the nature of pool activities, standard health and safety measures like face coverings are not appropriate, and physical distancing is not always easy to maintain.</p> <p>Recreation Facility Specific Risk: KCDC managed facilities host multiple events and sporting activities with high attendance by children (and other vulnerable groups of society), where physical distancing is not always possible to be enforced.</p> <p>All locations within pool and recreation facilities may have interaction with vulnerable groups of society and therefore are considered within this group.</p> <p><i>Under the traffic light system, it does talk about close contact roles, which swim school may fall within, which would see the roles mandated.</i></p> <p><i>** Halls - mixed usage by individual groups for hire within the same facility poses a risk for shared toilet and kitchen facilities as well as the common entry and exits.</i></p> <p>Vaccination consideration ranking Number of people interacted with = Extreme Risk</p>	<p>Due to the high interaction with vulnerable groups of society, potential for large scale events, and emergency response (first aid) it is recommended that all Pool and Recreation Facilities roles are required to be vaccinated to provide an extra layer of protection.</p> <p>School groups regularly use pools - Teachers are required by the government mandate to be vaccinated.</p> <p>Any roles that regularly go into Pools and Recreation Facilities would also need to be vaccinated as we can't separate those on site from public, and children who cannot be vaccinated.</p> <p>Although Council staff do not attend on site to manage private bookings, the Council will require all hirers to know their responsibilities and follow the Covid-19 traffic light system rules such as with the use of Vaccine Passports for attendance.</p>
Libraries and Community Centres	<p>Libraries and Community Centre roles regularly interact with the public, in particular having high attendance rates for children* and vulnerable groups of society.</p> <p>Libraries and Community Centres can not easily provide separate access/egress or have worker only areas away from the public, therefore, anyone working onsite will be exposed to the general public.</p> <p><i>*Children are defined as a vulnerable group by Government given they cannot be vaccinated (you must currently be at least 12 years old to be vaccinated).</i></p>	<ul style="list-style-type: none"> •Masks •Physical Distancing • Physical barriers where appropriate •Good Hygiene •Tracking using COVID app •Staying home when unwell •Workers with cold, flu or COVID-19 symptoms get tested where required •Workers to forward results to Human Resources Advisors/Health and Safety Advisors for filing onto secure personal files •Work from home where possible <ul style="list-style-type: none"> •Scheduling of programmes and limiting admission numbers into Library and Community Centres as well as programmes 	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Libraries and Community Centre roles regularly interact with the public and vulnerable groups of society, including hosting youth programmes etc. They and are also unable to confirm vaccination status of those they regularly interact with.</p> <p>Libraries and Community Centres will likely continue to be operational during higher traffic light levels, where there is high community transmission.</p> <p>Vaccination consideration ranking Number of people interacted with = Extreme Risk Ease of contact tracing = High Risk Physical Distancing = High Risk Length of interaction = Medium to High Risk Interacting with the public = Extreme Risk Affecting vulnerable people = Extreme Risk Workplace risk vs non-work = High Risk</p>	<p>Due to the interaction with public (vulnerable groups) on a regular basis and the risk for both exposure and transmission, it is recommended that all Libraries and Community Centre roles are required to be vaccinated to provide an extra layer of protection.</p> <p>Any roles that regularly go into Libraries and Community Centres would also need to be vaccinated as we can't separate those on site from public, and children who can not be vaccinated.</p>
Regulatory Services	<p>Roles that have regular interactions with the public and/or internal/external stakeholders to deliver regulatory services.</p> <p>These roles include building consents and inspections, animal management services, parking and public space services and environmental health.</p>	<p>Golden Rules:</p> <ul style="list-style-type: none"> •Mask wearing •Physical Distancing •Good Hygiene •Tracking using COVID app •Staying home when unwell •Covid test where required •Forward results to Human Resources Advisor/Health and Safety Advisor for filing onto secure personal files •Work from home where possible 	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Regulatory Services roles interact regularly with the public and/or internal/external stakeholders, and are unable to confirm vaccination status of those they interact with. Difficult to identify who they come into contact with.</p> <p>These include legally required roles Council must deliver. There may be certain sites that require vaccination certificates are mandated under the Health Order.</p> <p>Vaccination consideration ranking Number of people interacted with = High to Extreme Risk Ease of contact tracing = High Risk Physical Distancing = High Risk Length of interaction = Medium to High Risk Interacting with the public = High Risk Affecting vulnerable people = High Risk Workplace risk vs non-work = High Risk</p>	<p>Due to the interaction with public and/or internal/external stakeholders on a regular basis and the risk for both Covid exposure and transmission, it is recommended that all Regulatory Services roles be required to be vaccinated to provide an extra layer of protection.</p> <p>There is currently a requirement by some external stakeholders that Council regulatory staff are able to provide evidence of vaccination prior to going onto premises/properties.</p>

<p>Essential Services</p> <p>These roles would be required during a lockdown, higher alert/traffic light levels or in the event of a local/regional or national emergency.</p> <p>These essential services roles include, but are not exclusive to:</p> <ul style="list-style-type: none"> •Emergency Management (incl. EOC workers) •IT •Facility Management/Property •Operations Team - operational maintenance or emergency and/or call •Water and Wastewater Treatment Plants and Laboratory •Cemetery Services •Animal Management and Public Spaces / Compliance services and after hour response •Asset and plant management •Tenancy management/welfare/urgent responses •Building Site inspections •Communications and Engagement •Waste Operations •Security •H&S **HR and Payroll 	<p>Essential services roles which are required to work on site during lockdowns, as well as in alert/traffic light levels or in the event of a local/regional or national emergency</p> <p>These roles:</p> <ul style="list-style-type: none"> - directly contribute to delivering an essential service (e.g. Water or Wastewater or Lab operators) - include identified "back-up roles" which perform the function of the primary role if unavailable - if unavailable has the potential to negatively affect the organisation or pose a threat to public health and safety - requires highly specialised skills and/or knowledge that is difficult to cover for <p>This does not include essential roles that can work from home.</p> <p>** HR and Payroll may be required to be on site at some stage pending context of situation and may interact with other essential services staff/contractors</p>	<ul style="list-style-type: none"> •Mask wearing •Physical Distancing •Good Hygiene •Tracking using COVID app •Staying home when unwell •Workers with cold, flu or COVID-19 symptoms get tested where required •Workers to forward results to Human Resources Advisors/Health and Safety Advisor for filing onto secure personal files •Work from home where possible 	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Essential roles will be required to work on site during lockdowns, as well as in alert/traffic light levels or in the event of a local/regional or national emergency.</p> <p>These roles will have varying levels of interactions with the public including vulnerable groups of society. They are unable to confirm vaccination status of those they are likely to interact with.</p> <p>Difficult to identify who they come into contact with.</p> <p>Close physical contact in an indoor environment during an emergency.</p> <p>Vaccination consideration ranking</p> <p>Number of people interacted with = High to Extreme Risk Ease of contact tracing = High to Extreme Risk Physical Distancing = High Risk Length of interaction = Medium to High Risk Interacting with the public = Extreme Risk Affecting vulnerable people = High to Extreme Risk Workplace risk vs non-work = High to Extreme Risk</p>	<p>Due to the interaction with public including vulnerable groups of society and the risk for both exposure and transmission, it is recommended that all Essential Services roles are required to be vaccinated to provide an extra layer of protection. This is a particular issue for roles associated with the provision of water and wastewater services. The lack of staff available to provide these services poses a serious risk to public health and safety.</p> <p>Due to the nature of the Water and Wastewater Treatment Plants operational requirements, it is recommended that all visitors to these sites are required to provide evidence of complete and full vaccination. This includes the Laboratory.</p>
<p>Public facing (medium/high interaction with public and/or internal/external customers/external stakeholders)</p>	<p>Public facing roles that have high interactions with internal/external stakeholders. This work can not be done remotely.</p>	<ul style="list-style-type: none"> •Masks •Physical Distancing • Physical barriers where appropriate •Good Hygiene •Tracking using COVID app •Staying home when unwell •Workers with cold, flu or COVID-19 symptoms get tested where required •Workers to forward results to Human Resources Advisors/Health and Safety Advisor for filing onto secure personal files <p>Scheduling and limiting interaction with external stakeholders</p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>These roles will have high interaction with the public (including vulnerable groups of society) and/or internal/external stakeholders. They are unable to confirm vaccination status of those they interact with.</p> <p>These roles will likely continue to be operational during higher traffic light levels, where there is high community transmission.</p> <p>Vaccination consideration ranking</p> <p>Number of people interacted with = Extreme Risk Ease of contact tracing = High to Extreme Risk Physical Distancing = Medium to High Risk Length of interaction = Medium to High Risk Interacting with the public = Extreme Risk Affecting vulnerable people = Extreme Risk Workplace risk vs non-work = Extreme Risk</p>	<p>Due to the high interaction with public and stakeholders and the risk for both exposure and transmission, it is recommended that all Public Facing (high interaction) roles are required to be vaccinated to provide an extra layer of protection. This extra layer of protection is also taking account of the interactions such staff will have with other work colleagues.</p>
<p>Public facing (low / limited interaction with public and/or external stakeholders/internal customers/colleagues)</p>	<p>Public facing roles that have low interaction with internal/external stakeholders as well as public. This work cannot be done remotely. This includes public facing roles that are not captured within the other role profiles.</p>	<ul style="list-style-type: none"> •Mask wearing •Physical Distancing • Physical barriers where appropriate •Good Hygiene •Tracking using COVID app •Staying home when unwell •Workers with cold, flu or COVID-19 symptoms get tested where required •Workers to forward results to Human Resources Advisors/Health and Safety Advisor for filing onto secure personal files <p>Scheduling and limiting interaction with external stakeholders</p>	<p>Consequence: Moderate</p> <p>Likelihood: Likely</p> <p>Risk: Medium</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Moderate</p> <p>Likelihood: Likely</p> <p>Risk: Medium</p> <p><i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>These roles will have low/limited interaction with the public (including vulnerable groups of society) and/or internal/external customers/stakeholders. Due to the low interaction they are likely to be able to confirm vaccination status of those they interact with.</p> <p>Vaccination consideration ranking</p> <p>Number of people interacted with = Medium Risk Ease of contact tracing = High Risk Physical Distancing = Medium Risk Length of interaction = Medium Risk Interacting with the public = Medium Risk Affecting vulnerable people = Medium to High Risk Workplace risk vs non-work = Medium Risk</p>	<p>With physical distancing, mask, good hygiene required for these roles, there are multiple layers which are adequate to reduce the risk of contraction and transmission of covid.</p> <p>Common areas such as staff rooms, toilets, stairwells limits the ability to physical distance from colleagues, who may have higher interaction with public and/or internal/external stakeholders.</p> <p>It is recommended that these roles are to be vaccinated. This takes account of the risks to other colleagues and customers as well as the individual themselves.</p>

**Kapiti Coast District Council Risk Assessment
for COVID Vaccinations per position**

Role Groupings for Risk Assessment	Potential Situations* see below at end of table	Current Controls	Residual Risk Contraction of COVID-19 (once controls are in place)	Residual Risk Transmission of COVID-19 (once controls are in place)	Vaccination Consideration	Vaccination requirement
Office or non-public facing (with high face to face interaction with colleagues/internal/external customers/external stakeholders)	Office or non public facing roles that have high interaction with internal/external stakeholders that can not be done remotely.	<ul style="list-style-type: none"> •Mask wearing •Physical Distancing • Physical barriers where appropriate •Good Hygiene •Tracking using COVID app •Staying home when unwell •Workers with cold, flu or COVID-19 symptoms get tested where required •Workers to forward results to Human Resources Advisors/Health and Safety Advisor for filing onto secure personal files <p>Scheduling and limiting interaction with external stakeholders</p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High <i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>Consequence: Major</p> <p>Likelihood: Likely</p> <p>Risk: High <i>Unvaccinated or those at higher risk may experience more severe reaction, and have a higher risk</i></p>	<p>These roles will have high interaction with the internal/external stakeholders. Due to the nature of the relationships and high levels of interaction they are not likely able to confirm vaccination status of those they interact with.</p> <p>Vaccination consideration ranking Number of people interacted with = High Risk Ease of contact tracing = High Risk Physical Distancing = Medium to High Risk Length of interaction = Medium to High Risk Interacting with the public = Low to High Risk Affecting vulnerable people = High Risk Workplace risk vs non-work = Medium to High Risk</p>	<p>Due to the interaction with stakeholders on a regular basis and the risk for both exposure and transmission, it is recommended that all Office or non-public facing roles are required to be vaccinated to provide an extra layer of protection. This is also to protect colleagues and customers.</p>
Office or non-public facing (with medium to low face to face interaction with colleagues/ internal/external customers / external stakeholders)	Office or non-public facing roles that have low interaction with colleagues/internal/external stakeholders.
