Q8a. Reasons for dissatisfaction with the availability of pathways for cycling, walking and bridle ways

Verbatim comment	Location	Ward/Area	Gender	Age
<i>The Millennium cycleway is not completed to Ōtaki.</i>	Ōtaki.	Ōtaki	Female	65 to 69
<i>I don't know where they are. They are not advertised.</i>	<i>In general Kāpiti area.</i>	Waikanae	Female	45 to 49
<i>I don't think there is a safe cycleway. They should take them away from the traffic.</i>	<i>Manly Street, the main street right through to Marine Parade and the beach access.</i>	Paraparaumu	Male	55 to 59
<i>I feel there aren't enough walkways.</i>	<i>They should have walkways close to the beach where people can walk safely.</i>	Paraparaumu	Male	55 to 59
<i>I have a family of ten cyclists. Cars can actually park on cycleways so they should be separated from the road with the footpaths next to them.</i>	<i>All the way going towards Marine Parade and Raumati.</i>	Paraparaumu	Female	50 to 54
<i>I have asked the Council to put a pathway in but they haven't. The walkway down the riverbank is made of stones and hasn't been done properly.</i>	<i>Alongside a stream and the Ōtaki riverbank walkway.</i>	Ōtaki	Male	70 to 74
<i>I think there are better things the Council could spend our rates on.</i>	<i>Not applicable.</i>	Paekākāriki-Raumati South	Male	65 to 69
<i>I think there has been good work done with bridle paths in the past years. There needs to be more work done on road cycleways so it is safe to ride on the streets.</i>	<i>Around the Raumati and Paraparaumu areas.</i>	Paekākāriki-Raumati South	Female	45 to 49

<i>I think we need more walkways and cycleways in our township.</i>	<i>Ōtaki.</i>	<i>Ōtaki</i>	<i>Female</i>	<i>45 to 49</i>
<i>I wouldn't know where any of the bridleways or cycleways are as they are not advertised.</i>	<i>I don't know.</i>	<i>Paekākāriki-Raumati South</i>	<i>Male</i>	<i>40 to 44</i>
<i>In Ōtaki the Council has done very little and we have missed out.</i>	<i>I have a dog and the streets are pretty boring. Where the Council have designated you can walk your dog is actually private property which the Council doesn't own.</i>	<i>Ōtaki</i>	<i>Female</i>	<i>55 to 59</i>
<i>It is very difficult to walk around the town without crossing main roads, and there is no way to get across the railway lines. There are no overbridges, only one underpass under the bridge.</i>	<i>From Lyndale to Tutanekai Street or Awatea subdivision.</i>	<i>Paraparaumu</i>	<i>Female</i>	<i>55 to 59</i>
<i>The Council is not active enough in doing walkways and cycleways. They need to create more and in different areas.</i>	<i>Along the main road for a start. The current main road should have a cycleway and a walkway, even if it becomes a different road, for example, the planned Expressway could have a cycleway and pathway.</i>	<i>Waikanae</i>	<i>Male</i>	<i>75 years and older</i>
<i>The cyclists get in the way when we are driving down State Highway One. There needs to be more designated cycleways.</i>	<i>State Highway One.</i>	<i>Ōtaki</i>	<i>Male</i>	<i>55 to 59</i>
<i>The footpaths are not good. I am in a motorised wheelchair and it is hard to drive on them.</i>	<i>Outside the Town Centre and Coastlands Shopping Centre.</i>	<i>Paekākāriki-Raumati South</i>	<i>Female</i>	<i>60 to 64</i>
<i>The road has a pathway to school but no path. There is a lack of footpaths. I feel the Council do not respond to our needs.</i>	<i>All footpaths and cycleways in general, including those on railway crossings.</i>	<i>Ōtaki</i>	<i>Male</i>	<i>70 to 74</i>

<i>The walkways could be better.</i>	<i>Paraparaumu beach.</i>	Paraparaumu	Male	55 to 59
<i>There are no cycleways for the children biking to school, which upsets me.</i>	<i>Ruapehu Road.</i>	Paraparaumu	Female	75 years and older
<i>There are no pathways in town and it's connecting areas.</i>	<i>Ōtaki.</i>	Ōtaki	Female	55 to 59
<i>There are not enough around the place. There are loads of older people getting out cycling to get fit.</i>	<i>Nothing specific, just need some more.</i>	Paraparaumu	Male	65 to 69
<i>There are not enough pathways.</i>	<i>They need to connect between south and north.</i>	Paekākāriki-Raumati South	Male	45 to 49
<i>There are rubbish collections every day which means there are rubbish bins out every day. It makes the streets look awful. There are several blind people in the area and the bins are left half on and half off the footpaths for them to trip over. I think there should be one day for all. It's also hard to see past the bins when we go out of the driveway.</i>	<i>All pathways in Paraparaumu.</i>	Paraparaumu	Female	65 to 69
<i>There are too many of them. Council resources should be directed at roads.</i>	<i>All of them.</i>	Paraparaumu	Male	40 to 44
<i>There are trees planted under the power lines which interfere with the power supply. The trees could be removed to build more walkways.</i>	<i>I think generally where there are power lines beside the road.</i>	Waikanae	Female	70 to 74
<i>There are very few pathways where we live.</i>	<i>Having cycleways and pathways at the railway station would be good, as well as everywhere else in general.</i>	Waikanae	Male	65 to 69
<i>There aren't many pathways that can also be used as cycleways.</i>	<i>South of Ōtaki area coast rather than locally.</i>	Ōtaki	Male	55 to 59
<i>There is no footpath on our side of road.</i>	<i>Rosetta Road.</i>	Paekākāriki-Raumati South	Female	70 to 74
<i>They are not easy to find or get to. They need more easy access and should be connected.</i>	<i>Raumati South, Coastlands, Waikanae.</i>	Paekākāriki-Raumati South	Female	50 to 54
<i>They are not well looked after and have too many puddles.</i>	<i>Riverbanks.</i>	Paraparaumu	Female	75 years and older
<i>They are uneven and have entrance ways that are uneven. I</i>	<i>The footpaths</i>	Paraparaumu	Female	75 years and older

<i>have a stick and not good eyesight.</i>	<i>everywhere.</i>			
<i>They don't always come up to expectations. There are cracks and holes in them which you have to go around.</i>	<i>Not sure.</i>	Waikanae	Female	75 years and older
<i>They've done quite a good job but there's room for improvement.</i>	<i>I am referring to the cycleways along the Waikanae River.</i>	Waikanae	Female	60 to 64
<i>Where we live there are none. I am a cyclist and I used to be a marathon runner and it's very hairy around here. There are people new to the area who do not appreciate rural roads, they go too fast and have no cognizance of other road users such as cyclists and walkers and drive like bats out of hell. Some places there isn't even a middle white line and some places it isn't a two lane road and it's scary.</i>	<i>Reikorangi Valley.</i>	Waikanae	Female	60 to 64

<i>I can never find one when I need to, there are not enough.</i>	<i>Raumati South, Kāpiti.</i>	Paekākāriki-Raumati South	Female	50 to 54

<i>I wouldn't use a hoist as it is degrading, I'm not disabled, but can't use the metal steps that go straight down, they need upper arm strength to pull one out of pools, and it's not safe. <i>I'm not happy that the hydrotherapy pool is not available. Not only do old people need it, but also young people with sports injuries. Q8g. Reasons for dissatisfaction with the range, variety and character of Council owned parks and open spaces

Verbatim comment	Location	Ward/Area	Gender	Age
<i>Council's ruling on native trees is unrealistic. I think it's wrong that an old Rimu tree must stay when it is a problem to my neighbour and I. The Council has said that the tree cannot be cut down because it's protected.</i>	<i>Kohekohe Road.</i>	Waikanae	Female	75 years and older
<i>I don't think they are suitable for the population we have in Raumati. There is no safety or provision for the young people or comfort for the elderly or those in a wheelchair. <i>We have rung Council on four occasions about a tree outside our property and a neighbour's property. It obstructs our view down the street and we can't see where young children are when we back out of our driveway. Council won't cut it down. The last time they mowed it was at least four months ago. It makes the whole street look horrible.</i>	<i>Maire Street.</i>	Ōtaki	Female	60 to 64
<i>We have the Kaitawa Reserve and Hookway Grove children's park around us. The Council doesn't take good care of the parks. Q8j. Reasons for dissatisfaction with the standard of playgrounds

<i>At the playground in Ōtaki by the Memorial Hall, the equipment is too bulky for small children. Teenagers have tagged things and broken the round swing. The slide rungs are fence posts. Q8k. Reasons for dissatisfaction with the reliability of Council's water supply

Verbatim comment	Ward/Area	Gender	Age
Aquifers are being depleted and there is no real effort being made to come up with an answer to increase the water storage that would be of more use in the future.	Waikanae	Male	75 years and older
As the town has grown they haven't improved the water supply. They haven't put in a reservoir. There are always restrictions. A long term solution is needed in Kāpiti.	Paekākāriki-Raumati South	Female	65 to 69
I don't think water meters are going to achieve their purpose. It would be preferable to have water storage and make every new house have their own water tank.	Paraparaumu	Female	60 to 64
They haven't addressed the fact that they will need more water for the houses that are being built. They are building a pool, which I consider is a luxury item.	Paraparaumu	Female	65 to 69
Every summer we go through a water restriction and we still run out of water. Something should be done about holding the water so we don't run out.	Paraparaumu	Female	50 to 54
Every three years I need to spend money on a new hot water cylinder.	Waikanae	Male	50 to 54

<i>Everything the Council says. They don't listen and they muck around with the water and dam.</i>	Paraparaumu	Female	75 years and older
<i>For forty years there have been hosing restrictions and the drinking water is unpleasant. No one thought to desalinate the sea or dam water.</i>	Paraparaumu	Female	75 years and older
<i>For not seeing issues of water supply and lack of supply for gardening purposes. Area is advertised as a gardening area, but water restrictions and rising costs of water are compromising benefits of living here. We need to source water from somewhere.</i>	Paekākāriki-Raumati South	Female	55 to 59
<i>I am dissatisfied with the use of water meters, especially when people were against it. I think a dam should have been built.</i>	Paraparaumu	Male	55 to 59
<i>I do not believe in the river recharge system. They should have a dam.</i>	Waikanae	Male	60 to 64
<i>I don't agree with the cost of installing and maintaining water meters and the servicing of them when you sell the property. The ongoing costs will outweigh what Council expects to gain. It's happened in another city that I have come from.</i>	Paraparaumu	Male	55 to 59
<i>I don't agree with water meters and they should build a dam to collect water for the water supply.</i>	Paraparaumu	Male	50 to 54
<i>I don't like the Fluoride treatment of the water.</i>	Paraparaumu	Male	18 to 19
<i>I don't like water meters as they rely on bore water or river water and I find bore water tastes disgusting.</i>	Waikanae	Female	45 to 49
<i>I don't see the Council having a clear direction or long term plan infrastructure in place. The accent should be on repairing as water meters won't save water.</i>	Waikanae	Female	70 to 74
<i>I think it is going to run out at some time and they are not doing anything about it and water meters are not the solution.</i>	Paraparaumu	Male	50 to 54
<i>I think the Council are too slow in knowing what the future holds. I also don't think they know what they are doing as every time they muck around with the water, it tastes awful.</i>	Paraparaumu	Female	70 to 74
<i>I think the water meters are going to push prices up.</i>	Waikanae	Male	65 to 69
<i>I think they have inadequate water storage facilities. Some of the grey water ruins the pipes and it costs a lot for hot water cylinders to be fixed. It contains a lot of chemicals.</i>	Paraparaumu	Male	50 to 54
<i>I think we need a dam.</i>	Waikanae	Female	50 to 54

<i>In summer time it is absolutely terrible and undrinkable due to the chemicals in the stuff. Not at all good for appliances or hot water cylinders. Wonder why we had to remove our own household water tanks. All new homes now have to have them. Very short sighted of someone on the Council. Needs to be fixed. Water meters will not do that. We need a dam and proper storage before meters.</i>	Waikanae	Female	55 to 59
<i>It tastes bad at times.</i>	Ōtaki	Female	40 to 44
<i>It's ridiculous that we have a river the Council won't dam up in the summer so there is no way of storing water. I don't think water meters will save water as the Council will still be rationing and won't be giving us more water.</i>	Paraparaumu	Male	60 to 64
<i>It's the biggest disaster on the Coast. Storage facilities are just not there. We needed to have them in place years ago and right now I feel we are a joke.</i>	Waikanae	Male	60 to 64
<i>It's too uncertain in the summer months.</i>	Paraparaumu	Male	60 to 64
<i>Not planning for the community. I don't see why extra houses are being built and water meters before we have a sufficient supply. There really needs to be a dam.</i>	Paraparaumu	Female	40 to 44
<i>Nothing has been planned. The Council are not listening to what people want. They are fixing short term problems rather than long term ones.</i>	Waikanae	Female	40 to 44
<i>The bore water replacement system is atrocious. We need a dam or reservoir.</i>	Waikanae	Female	45 to 49
<i>The Council is not doing enough work on the infrastructure for the water.</i>	Waikanae	Female	65 to 69
<i>The Council should be doing something about it. I wonder where the rates are going.</i>	Paraparaumu	Male	50 to 54
<i>The summer time water restrictions. They are building too many houses then we have to use bore water.</i>	Paraparaumu	Female	45 to 49
<i>The water quality is terrible and we are upset at having a water meter installed.</i>	Paraparaumu	Male	70 to 74
<i>The water restrictions are caused by having a lack of storage.</i>	Paraparaumu	Female	55 to 59
<i>The water restrictions in summer and water is not available.</i>	Paraparaumu	Female	70 to 74
<i>There are a few sunny days in summer and they need restrictions. They should have catchments and not run into the sea.</i>	Paraparaumu	Male	70 to 74
<i>There is a lack of storage and normal water. With water restrictions in summer, without bore water we can't water the gardens.</i>	Paraparaumu	Male	35 to 39
<i>There is no consistent water supply.</i>	Paekākāriki-Raumati South	Male	65 to 69

<i>There is no reliable supply.</i>	Paraparaumu	Female	70 to 74
<i>They are not doing anything. Put in storage tanks, like a dam.</i>	Paekākāriki-Raumati South	Male	65 to 69
<i>They are spending millions of dollars on water meters and the problem is water storage. We have a lot of rain in this district and we're not catching the water. We need a dam.</i>	Paraparaumu	Female	30 to 34
<i>They have put water meters in Ōtaki and I don't think there is a need for them.</i>	Ōtaki	Male	55 to 59
<i>They should never have spent money on the water wells at Waikanae Beach.</i>	Paraparaumu	Male	55 to 59
<i>We do not have any from Council.</i>	Ōtaki	Male	55 to 59
<i>We go onto bore water when there is no supply.</i>	Paraparaumu	Female	45 to 49
<i>We lack a dam. Something needs to be done about bulk storage. The meter idea is acceptable.</i>	Paekākāriki-Raumati South	Male	70 to 74
<i>We need a dam, as the bore water is terrible.</i>	Waikanae	Female	65 to 69
<i>We run out of water in the summer and the bore water supplied is unsuitable. It is not suitable for hot water cylinders. We need a dam or a reservoir.</i>	Waikanae	Male	55 to 59
<i>We shouldn't have bores. They spend a lot of money on water meters. We need to have a dam and the infrastructure has to be sorted out.</i>	Waikanae	Male	50 to 54
<i>We still have to boil water at times.</i>	Paraparaumu	Female	45 to 49
<i>With the amount of water we had in the last week we could have stored water for the next ten years. It's more of a storage problem than shortage of water.</i>	Waikanae	Male	40 to 44

Q8l. Reasons for dissatisfaction with the standard of urban kerbside recycling

Verbatim comment	Ward/Area	Gender	Age
<i>Collectors seem not to care for the bins or that all the rubbish doesn't go into the truck.</i>	Ōtaki	Female	40 to 44
<i>Frequently rubbish gets spilt and it's left to litter the street and gardens. Litter is not picked up, because it is out of the bins.</i>	Waikanae	Male	75 years and older
<i>Half the time they just chuck it in together and make it normal rubbish.</i>	Waikanae	Female	65 to 69
<i>I am disappointed that the Council is moving out of this responsibility. I think it's a core responsibility of Council.</i>	Ōtaki	Female	65 to 69
<i>I don't have recycling and I would like it in the Pekapeka area.</i>	Waikanae	Female	65 to 69
<i>I don't know who is going to pick up my recycling when the Council stops</i>	Paekākāriki-Raumati South	Male	65 to 69

<i>collecting my recycling.</i>			
<i>I don't like the Council stopping this service as I don't think it is viable for others to do the collection.</i>	Paraparaumu	Female	50 to 54
<i>I feel that rubbish disposal as an extra cost is too expensive on top of the rates we pay. Kerbside is included.</i>	Paekākāriki-Raumati South	Female	75 years and older
<i>I feel the green bins are not big enough and rubbish gets left on the roadside.</i>	Paekākāriki-Raumati South	Male	30 to 34
<i>I guess based on our own pickup, if there was something wrong in the bin it would get thrown out and the bins are thrown and get broken.</i>	Ōtaki	Female	55 to 59
<i>I have issues with what needs to be recycled and lack an understanding of what's what. I require information and feel my needs are not being met.</i>	Paraparaumu	Female	30 to 34
<i>I walk a long way because they do not come to my gate.</i>	Waikanae	Male	60 to 64
<i>I would do a better job by just dumping everything and stopping the people who are supposed to keep the streets clean dropping it all over the place. The system just does not work in our part of town.</i>	Waikanae	Female	55 to 59
<i>It is a waste of ratepayers' money. It costs too much money to keep it there and it should be scrapped immediately.</i>	Paraparaumu	Male	40 to 44
<i>It's because they are on the footpaths and I am not sure when they are coming as I am hard of hearing and it is frightening.</i>	Paraparaumu	Female	75 years and older
<i>It's not available half a kilometre north of Waikanae.</i>	Waikanae	Female	50 to 54
<i>It's not provided where we live.</i>	Paraparaumu	Female	40 to 44
<i>I've seen how they work in other areas and I think ours could work a lot better in our area.</i>	Paekākāriki-Raumati South	Male	45 to 49
<i>Most people seem to have their own bins which they pay for and we still have to pay for recycling the green waste.</i>	Paraparaumu	Female	65 to 69
<i>Not everything is taken. It is a bit slap dash with the emptying methods and what they will or will not take from week to week varies.</i>	Paekākāriki-Raumati South	Female	50 to 54
<i>Recycling should be free. I can't believe in 2013 we have to pay for recycling. The box is too small and collectors are inflexible. They won't take one extra piece of cardboard and will leave it blowing in the wind.</i>	Paekākāriki-Raumati South	Male	40 to 44
<i>Rubbish is often left behind and bins are scattered about because the workers are in too much of a hurry.</i>	Ōtaki	Male	70 to 74
<i>The amount of rubbish generated if it is windy. I would prefer closed</i>	Waikanae	Male	65 to 69

<i>containers. I don't like contractors sorting the rubbish on the streets before they drive off. I think people should sort out their rubbish if it gets left behind when it's windy.</i>			
<i>The bins are quite small and limited for use.</i>	Ōtaki	Female	55 to 59
<i>The Council should be telling us how to dispose of 'e' materials such as light bulbs and batteries. They should also take away our big cartons.</i>	Waikanae	Female	50 to 54
<i>The recycling bins are too small. It could be better.</i>	Paraparaumu	Male	50 to 54
<i>The service is good, but often the accuracy of the emptying the bins is not. They tend to leave broken glass lying around.</i>	Ōtaki	Female	60 to 64
<i>The single bin system that they use is antiquated and well out of date compared with other Councils in New Zealand and the way it's funded. There should be a user pays service.</i>	Waikanae	Male	40 to 44
<i>The workers put bins on footpaths. They should be put onto the grassed area.</i>	Paekākāriki-Raumati South	Female	60 to 64
<i>There are often things left on the pavement. The bins are the wrong shape and the handles are in the wrong place. The bins are left anywhere.</i>	Ōtaki	Female	75 years and older
<i>There are rubbish collections every day so there are rubbish bins out every day. It's awful. If there was a uniform one day with one colour bin that would be better. There are several blind people and the bins are left half on and half off the footpaths. It's also hard to see past the bins when we go out of the driveway.</i>	Paraparaumu	Female	65 to 69
<i>There have been missed collections in Waikanae Beach.</i>	Waikanae	Male	50 to 54
<i>There is a lot of rubbish left on the street after collection days.</i>	Paraparaumu	Female	50 to 54
<i>There is too much wastage. We need to encourage better recycling by using small bins for general waste and the larger bins for recycling.</i>	Paraparaumu	Female	55 to 59
<i>We don't have kerbside recycling in Nikau Valley at all.</i>	Ōtaki	Female	75 years and older
<i>We need bigger bins. Every week our bin is overflowing and we have to put the excess into the rubbish bin.</i>	Paraparaumu	Male	55 to 59
<i>We pay for own rubbish bins and they are tiny recycling bins.</i>	Paekākāriki-Raumati South	Female	70 to 74
<i>When it get picks up it is scattered and not all picked up.</i>	Ōtaki	Female	60 to 64

Q8m. Reasons for dissatisfaction with Council's management of dog and animal issues

Verbatim comment	Ward/Area	Gender	Age
<i>Dog attacks are going unpunished. There are many unregistered dogs in parts and they need to be 'done away with'.</i>	Waikanae	Female	55 to 59
<i>Dog registration is heinously expensive. I had a dog in Wellington which was much cheaper. So I can't understand why it's so much more expensive here.</i>	Waikanae	Female	60 to 64
<i>Dogs over my fence bark all day.</i>	Waikanae	Female	70 to 74
<i>I am a dog owner and find that there are a lot of unregistered dogs roaming around.</i>	Ōtaki	Male	55 to 59
<i>I am dissatisfied because of the dogs barking all day, dogs roaming and their mess in Otaihanga.</i>	Paraparaumu	Female	75 years and older

<i>I live near the beach and I notice dogs here who are roaming free and not on a leash.</i>	Waikanae	Female	70 to 74
<i>I think the direct involvement with Animal Control is not satisfactory.</i>	Paraparaumu	Female	50 to 54
<i>My dog was taken just recently by the Council and held for four days in the Pound which was absolutely ridiculous and traumatising. He was taken from a neighbour and was taken from another property. He had jumped a fence and it was the first time he had done this. He is just a puppy.</i>	Ōtaki	Female	55 to 59
<i>The beach is not patrolled well enough I believe.</i>	Paraparaumu	Male	60 to 64
<i>The beach is too large an area for dogs to be loose.</i>	Paraparaumu	Female	65 to 69
<i>The Council charge a lot of money and I am not sure what it's all for. There is regular mess on my grass verges and they don't do anything about it.</i>	Paekākāriki-Raumati South	Male	40 to 44
<i>The dogs are not allowed in Council areas. I think dogs should be able to walk without a leash.</i>	Paraparaumu	Female	55 to 59
<i>The dogs that are roaming Ōtaki Beach area.</i>	Waikanae	Female	70 to 74
<i>The fees are too high compared with other Councils and I'm not happy with how the money is spent.</i>	Ōtaki	Female	60 to 64

<i>The pick on dog owners too much.</i>	Waikanae	Male	50 to 54

<i>There are a lot of local dog attacks and dogs roaming around. Owners are not taking responsibility and the Council is not prosecuting. They need to be tougher.</i>	Ōtaki	Male	30 to 34
<i>There are dogs roaming everywhere and are not on leashes. In Paraparamu Beach and Raumati.</i>	Paraparaumu	Male	55 to 59
<i>There are enormous fees and no rebate for good owners. I had to pay the full amount with a new dog when previously I had a dog for thirteen years. They didn't follow through.</i>	Waikanae	Female	65 to 69
<i>There are many places where you are unable to take dogs. It depends on the season and on the time of day.</i>	Paraparaumu	Female	55 to 59
<i>There are too many dogs roaming free and they are very noisy.</i>	Paraparaumu	Male	75 years and older
<i>There are too many occasions when dogs attack people and they should be put down.</i>	Ōtaki	Female	65 to 69
<i>There has been poor follow up when I have rung the Council. There is a lack of availability and response in Raumati.</i>	Paekākāriki-Raumati South	Male	45 to 49
<i>There have been two very nasty dog on people attacks recently. We have heard no feedback on what is happening regarding the beach attack.</i>	Ōtaki	Female	60 to 64
<i>There is always dog litter everywhere. Especially on the walkway through Queen Elizabeth Park.</i>	Paraparaumu	Female	45 to 49
<i>There is dog waste all over the street. Dogs are roaming and cats are everywhere. There is a really loud aviary next door which is really noisy all day and drowns out our conversation and attract cats that fight over the territory.</i>	Paraparaumu	Female	55 to 59
<i>There seem to be a lot of unlicensed dogs around and I think it is unfair to those who do pay.</i>	Ōtaki	Male	70 to 74
<i>There seems to be a lot of dogs barking and dog mess around. There are far too many dogs in the district and they are allowed to run free on the beach.</i>	Paraparaumu	Male	70 to 74

<i>We have problem dogs on our street that never seem to be dealt with.</i>	Ōtaki	Male	40 to 44

<i>When we go along the beach we notice that there are dogs that are not on leashes. If we put our rubbish bins out early on rubbish day we find that dogs come and foul the area beside the bins.</i>	Waikanae	Female	75 years and older

Q8o. Reasons for dissatisfaction with Council's work on dune restoration and planting

Verbatim comment	Location	Ward/Area	Gender	Age
<i>Anything that the Council is doing in that area, the Council should stop and let nature take its course.</i>	<i>Any or all of the areas where the Council is doing dune restoration work. It is none of the Council's business.</i>	Paraparaumu	Male	40 to 44
<i>As they have started early we will not have this erosion problem.</i>	<i>All beach front properties in Paraparaumu and Raumati.</i>	Paraparaumu	Female	60 to 64
<i>Coastal erosion will affect my property as it will affect property values. More restoration work is needed, not the removal of introduced species.</i>	<i>Watson Drive area.</i>	Paraparaumu	Male	50 to 54

<i>I only see the Department of Conservation doing anything when I walk. Council is not seen at all.</i>	<i>North Beach.</i>	Paraparaumu	Male	55 to 59
<i>I see them in action but I'm not sure they are doing it in the right places to help erosion issues.</i>	<i>Ten Pin Bowling area.</i>	Waikanae	Female	45 to 49
<i>It could be better. They could plant more flaxes and other vegetation to stop the erosion.</i>	<i>Paraparaumu and Raumati beaches.</i>	Paraparaumu	Male	50 to 54
<i>Not a lot of thought has gone into what they have planted and where. Some have already disappeared from erosion. It's a lot of wasted money. Standards were put in without planning and they are a waste of time as they do nothing.</i>		Ōtaki	Female	55 to 59
<i>Nothing ever seems to be done.</i>	<i>All over.</i>	Ōtaki	Male	70 to 74
<i>Restoration work doesn't go far enough. There is a lot of burden on home owners facing the beach and who are close to beach. Home owners have done most of the work.</i>		Paraparaumu	Female	75 years and older
