

Request 1920-014

The Community Board had made submissions in the LTP about the development of the old swimming pool at Raumati.

We were informed that no money would be available to carry out any work. I understand that the roof has been replaced about two weeks ago.

It's disappointing that the Community Board was not informed about this work.

Who is the officer that can be contacted about the repairs?

Council response

The roof replacement was undertaken on the Waterfront Bar Restaurant and was due to Council's lease obligation to keep the premises weather tight.

As part of our compliance requirements, we also undertook other maintenance in accordance with the Building Act 2004 and the Fire Safety and Evacuation of Buildings Regulation 2006. All of this work was committed and funded under our existing maintenance budget for the 2018/19 year.

No work was carried out for the pool complex.

Happy to discuss if required.
