More needs to be done to develop pre existing residential land use areas. For example the eastern half of Te Moana Road has had limited contributions towards its development and enhancement as a residential area for decades. Limited improvement to footpathing on the northern side (much still unchanged from 30 years ago) limited footpathing on the southern side requiring pedestrians to cross an increasing busy / excessive speed road. No safe formal zebra crossings provided and an absence of either active or passive traffic calming makes for a very unsafe situation for the increasingly young population and those wanting to access the river walkways. Providing an environment where 70/80/90 km per hour for thousands of vehicles per month is not in keeping with providing ratepayers and residents with the Kapiti lifestyle. A road noise policy is also required to mitigate significant changes in vehicle type and volume as has occurred on Te Moana Road in recent years.
