Mahoe

BACK DUNE

Ngaio
Mahoe
Kanuka

MID DUNE

Taupata Tauhinu
Harakeke Wiwi
Pohuehue

FRONT DUNE

Spinifex
Pingao
Nihinihi

To read about the sand dune lifecycle and the plants that help protect our dunes get a copy of our new brochure ‘Caring for sand dunes in Kāpiti’ from your nearest service centre or head to our website to download a copy.

We can all protect the health of our natural defenders simply by staying on formed and signed tracks when we’re heading to or from the beach.
