MATTERS UNDER ACTION

Item 1: Potential Dog Park. Estimated date of completion was possibly unrealistic. Mr Currie will take this up with Mr Pederson so that the date is realistic and achievable.

Item 4: Placement of Toilet at Ōtaki Estuary. This is in the submission on GWRC's Annual Plan. A portaloos option was suggested but this has previously been investigated and is not a suitable option. Mr Lutz is looking at other funding options if GWRC won't assist with funding.

Item 5: All Community Board Members' Quarterly Meetings. This is the first informal session to discuss common issues. As Ōtaki Community Board is hosting, Board members will bring a plate. Ms Papps will chair. The meeting will start at 7.30 pm.

Item 10: The difficulty of finding information on the Council website was discussed.

Reserve Priorities/Projects

Contributions that come from the Ōtaki area are not necessarily the Community Board's to spend as the funds go to Council. Council does take guidance from the community on how the money is spent.

Cllr Cootes gave some background on how the reserve projects were done in the past. He gave an explanation why some current projects had not advanced. The Te Horo Beach Improvement project did not come through the Community Board but through an individual submission to Council. The money has been ring-fenced by the Community Board which is waiting for the community to come back with a suitable project.

The BBQ at Ōtaki Beach was discussed and it was suggested a similar process to that undertaken for McLean Park could be followed for the Ōtaki Beach Development Project. McLean Park is a Council-led community project. It would be up to the Community Board to drive this process and get public participation. Cllr Cootes will discuss the issues with Alison Law. Ms Warwick will take the lead on this Project and liaise with Alison Law around time-frames and process.
