6 Working Zones

This chapter primarily implements Objectives 2.3 Development Management, 2.16 Economic Vitality, and 2.17 Centres (set out in Chapter 2). The following objectives are also relevant to resource management issues for the *Working Zones*:

- 2.1 Tāngata whenua
- 2.8 Strong Communities
- 2.11 Character and Amenity Values
- 2.12 Housing Choice and Affordability
- 2.13 Infrastructure
- 2.14 Access and Transport.

Introduction

The Working Zones of the Kāpiti Coast are the urban areas where business activities are the primary activity undertaken. Other activities which are complementary to and support business activities are also undertaken in the Working Zones are also essemal include cultural, community, civic, recreational, entertainment, education, religious and residential activities. A high level of amenity is envisaged for the Working Zones.

Where business activities are undertaken in other zor, they are generally ancillary to the primary activities within the zone.

The following issues are covered in this chaptel

- business distribution and consolidar on
- a centres hierarchy and the inter Jif. atio of centres
- amenity and local character
- residential activities in Wor and Zones
- built and urban form in Wolling lones.

This chapter contains (policies rules and standards) applying specifically to the *Working Zones*.

District-wide po' cies "... t set out *Council*'s approach to managing *business activities* in all areas and *zones* across the District are set out in Chapter 2A. Rules and standards relating to *business* avities in other zones will be located in the relevant chapters (i.e. Chapter 7- Rural Zones, Chapter 5 – Living Zones).

Many areas in the *Working Zones* are characterised by special features as shown on the District Plan maps. Chapters relating to special features (i.e. Chapter 9 - Hazards, Chapter 10 - Historic Heritage and Chapter 3 - Natural Environment) also contain relevant provisions applying to the *Working Zones*.

Zone and precinct framework for the Working Zones

The Working Zones include a variety of business areas that have specific characteristics or are proposed for specific development. The zoning framework for the Working Zones supports a centres-based approach to managing business activities across the District. Within some Working Zones, smaller specific precincts are identified to manage location specific issues and desired outcomes. Location specific rules, and in some cases a structure plan, apply to zone and precinct areas.

The *zone* and precinct framework for the *Working Zones*, as identified on the District Plan Maps, is summarised as follows:

a) Paraparaumu Sub-Regional Centre

- i. **District Centre Zone**, including:
 - a. Precinct A (A1 and A2);
 - b. Precinct B; and
 - c. Precinct C; and the

ii. Outer Business Centre Zone at:

- a. Ihakara Street West Precinct;
- b. Ihakara Street East Precinct:
- c. Kapiti Road; and
- d. Paraparaumu North Gateway Precinct;

b) Town Centre Zone, including:

- i. Ōtaki Main Street;
- ii. Ōtaki Rail:
- iii. Waikanae;
- iv. Paraparaumu Beach; and
- v. Raumati Beach;

c) Local Centre Zone, including:

- i. Paekākāriki:
- ii. Raumati South;
- iii. Kena Kena:
- iv. Meadows Precinct;
- v. Te Moana Road;
- vi. Mazengarb Road;
- vii. Waikanae North Developme, † Zone Precinct 6 Mixed Use; and
- viii. Ngārara Zone Waime na Leig.: bourhood Development Area;

d) Civic and Communit Zc 'e,

e) Industrial / Service 7on including:

- i. Ōtaki Suth Precinct; and
- f) Airport Zone, in luding:
 - i. Airport Co & Precinct;
 - ii. Airport Mixed Use Precinct;
 - iii. Airport Buffer Precinct; and
 - iv. Aviation Heritage Precinct.

6.1 Working Zone Provisions

6.1.1 Policies

Policy 6.1 - Consolidation of Business Activities

Business activities will be managed to consolidate activities in centres and other Working Zones in accordance with the following principles:

- a) retail activity will be primarily focused within the District Centre Zone, Town Centre Zone and Local Centre Zone, and otherwise managed to avoid the dispersal of business activity which would be detrimental to the efficient operation, function, viability and sustainability of the District's centres;
- b) commercial activities, including offices, will be consolidated in the District Centre Zone, Outer Business Centre Zone, Town Centre Zone and Local Centre Zone, and will be only provided for in the Industrial/Service Zone where they are ancillary to industrial activities and otherwise managed to avoid detrimental effect on the efficient operation, function, viability and sustainability of the District's centres;
- c) industrial activities will be primarily located in the Industrial/Service Zone:
- d) providing for a range of *business activities* be andertaken in the Airport *Zone* where:
 - i. they remain compatible with aircan operations;
 - ii. they avoid reverse sensitivity et outs on industrial activities undertaken at the Airport;
 - iii. retail activities are limiter' in type and scale to ensure that the Airport Mixed Use Precinct is complementary to the role and function of the Sub-F.e. on a Centre; and
 - iv. do not adversely after the Centres Hierarchy (Policy 6.2) and the role and function of individual centres; and
- e) development within exis ing Working Zones will be encouraged to make efficient us, of alldings, land and existing investment in public infrastructure, utilit is, cansport and other facilities.

Policy 6.2 – Centres Hierarchy

The role, function, distribution, size and design of each *centre* is managed according to a *centres* hierarchy to ensure they can collectively meet community needs, and enable employment, goods and services to be accessed efficiently and equitably by the community. *Development*, use and *subdivision* within each *centre* will be of a type, scale, intensity and design appropriate to the position of that *centre* in the hierarchy. *Centres* include a range of activities that are compatible with and support their functioning, including community and civic activities, educational and cultural activities, and appropriate *residential activities*.

The hierarchy of *centres* within the District is as follows:

- a) Paraparaumu Sub-Regional Centre (encompassing the District Centre Zone and the Outer Business Centre Zone);
- b) Town Centres; and
- c) Local Centres.

Explanation

The role and function of the different centres within the Centres Hierarchy is detailed in Policies 6.7, 6.8, 6.9, 6.10, 6.11, 6.12, 6.13 and 6.14.

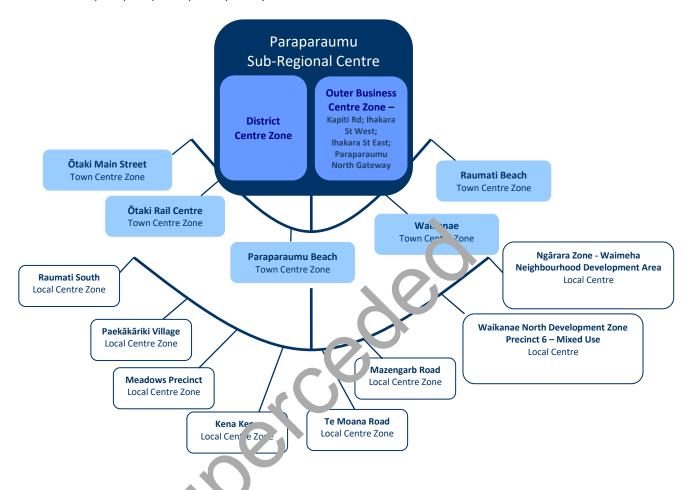

Figure 6.1: Diagrammatic representation of the centres hierarchy in Policy 6.2.

Policy 6.3 – Activities in the Working Zones

Business activities are the primary land use and function of the Working Zones. The location, scale, size and design of subdivision, use and development in the Working Zones will be undertaken with regard to the following principles:

- a) local and on-site amenity values are maintained and enhanced;
- b) local built identity and character values are retained;
- c) connectivity and access within and to the Working Zones is enhanced;
- d) opportunities for transport choice and efficiency are maximised, including integration with public and community transport;
- e) built form is compatible with the surrounding environment;
- f) facilities are integrated within the centre or other Working Zones; and
- g) temporary events will be enabled in centres where they are consistent with the scale, role and function of the centre.

Policy 6.4 - Intensification of Centres

The growth and development of *centres* will be provided for in a manner which contributes to their vibrancy, vitality, efficiency and *amenity values*. *Subdivision*, use and *development* which increases the concentration of *business activities* within a *centre* will be provided for where it:

- a) does not undermine the role, function and viability of other higher or similar *centres*:
- b) is consistent with the identified role and function of the centre;
- c) increases the range of compatible and complementary land uses and activities within the *centre*;
- d) supports a high level of access and connectivity within the *centres* and between the *centres*, recreational and residential areas;
- e) contributes to a high amenity *environment* and provides a strong sense of place: and
- f) supports increased residential living opportunities, where appropriate.

Policy 6.5 – Mixed Use Activities in Centres

Mixed use development, including residential activities, well be enabled in centres to enhance the viability and vitality of the centre where a high level of amenity for residents, businesses and visitors is acheved in accordance with the principles in Appendix 6.9 Centres Design Principles.

Policy 6.6 – Urban form and design of contrast

Subdivision, use and developm en in centres must be undertaken in a manner that achieves efficient integration with necessary infrastructure, reinforces the District's consolidated untantorm and sense of place, and provides for a high quality interface between built form and public space. To achieve this, the principles in the Centres Nesson Principles in Appendix 6.9 will be applied.

Policy 6.7 - Paraparaumu Sub-Regional Centre

Subdivision, use and development will contribute to a vibrant, well-connected and safe sub-regional centre at Paraparaumu which includes a wide mix of activities and has a high level of amenity. Subdivision, use and development in the Paraparaumu Sub-Regional Centre will be managed under two zones, supported by specific precinct areas, to ensure that:

- a) the greatest intensity of *building* and activity occurs in the *District*Centre Zone as part of Precincts A, B and C; and
- b) the Outer Business Centre Zone at Kapiti Road and the Ihakara Street East and Ihakara Street West Precincts provides for peripheral centre activities and creates a buffer for more sensitive activities in adjoining zones.

Policy 6.8 - District Centre Zone

The *District Centre Zone* will be developed for a range of activities which recognises its importance as the core of the *Paraparaumu Sub-Regional Centre*. This *zone* will be developed in a way which achieves an integrated and compact core, ensures all precincts are well connected through pedestrian and transport networks, and provides for a broad range of mutually compatible activities that are integrated with public transport, and that provide a strong community focal point.

The following land uses will be provided for in the *District Centre Zone* consistent with the District Centre Zone Structure Plan in Appendix 6.7:

- a) retail and *commercial activities* in Precinct A that contribute to a vibrant and vital centre and will activate the following streets:
 - i. existing State Highway One (Main Road);
 - ii. Rimu Road;
 - iii. the desired connector roads in Precinct A;
- b) residential activities:
- c) clustered community facilities in Precinct B;
- d) commercial, limited retail and residential activities in Precinct C which do not adversely affect the role, function and iterate of Precinct A;
- e) a large consolidated stormwater management and, if practicable, wetland to provide for flood storage, ecologic, values and amenity values; and
- f) recreational opportunities along the *NF* ar mauku Stream, Drain 3, other stormwater management ar with ald areas, and in *Precinct B*.

Policy 6.9 - District Centre Zon Prochets

Subdivision, use and deve op. Te...in the District Centre Zone will be undertaken in accordance with he District Centre Zone Structure Plan in Appendix 6.7 and the principles in the Centres Design Principles in Appendix 6.9, in a manner that Tainfolds the following specific management principles for each precipit:

a) Precinct A

Manage *Precinct A* to maintain and reinforce its purpose as the primary retail and commercial core within the District and to improve *amenity values* and functional diversity. Manage Precinct A1 to enhance existing retail and commercial development, while managing Precinct A2 to enable *development* for *retail*, *commercial* and *residential activities* and to reinforce the amenity and function of the existing retail and commercial core.

Precinct A will be developed in the following manner:

- i. transport circulation and integration within the surrounding District Centre precincts and the rail interchange, is improved;
- ii. diversity and choice in terms of the shopping and social experience for the wider Kāpiti Coast community is created, and a variety of *commercial* and *entertainment activities* is enabled;
- iii. the extent and diversity of employment is retained and increased;
- iv. retail and commercial activities adjoining Rimu Road are provided for where these provide an active edge, and where activities remain

Policy 6.9 – District Centre Zone Precincts

- compatible with the role of *Precinct A* as the primary commercial core of the District Centre;
- v. enable apartment and mixed use activities to occur alongside the eastern edge of the green network of the Wharemauku Stream in a manner that enhances the recreational values of stream margins;
- vi. *amenity values* for pedestrians that utilise the adjoining public realm are improved; and
- vii. building development adjoining Rimu Road will have active frontages and avoid blank facades.

b) Precinct B

Manage *Precinct B* to consolidate its role as the community and civic focal point for the District.

Precinct B will be developed in the following manner:

- i. transport circulation and integration within the surrounding District Centre precincts will be provided, while reinforcing the development of Rimu Road as the District Centre's main Street:
- ii. community uses and civic facilities will be consolidated in the Iver
 Trask Place and Ngahina Street areas, and
- iii. substantial stormwater management (ac. 'ities will be provided where these also provide ecological and recreational values.

c) Precinct C

Manage Precinct C to provide development, to reinforce the subregional status and the vitality and functioning of the District Centre. Precinct C shall be developed at provide strong connections within the District Centre Zone and the commodate development that is compatible with any complianentary to the balance of the Centre and reinforces the role and function of the Sub-Regional Centre.

Precinct will be a veloped in the following manner:

- i. tra isport chimatation and integration within the surrounding District Centra pre sincts will be provided for;
- ii. adverce ifects that would otherwise decrease the efficiency and effectiveness of Kāpiti Road as a transport corridor, including for public transport, will be managed;
- iii. amenity values of Kāpiti Road will be maintained or enhanced;
- iv. adverse effects on the landscape and amenity values of the dune system will be avoided to the extent practicable having regard to the development outcomes provided for in Precinct C and, where adverse effects cannot be avoided, they will be mitigated or offset by environmental enhancements within Precinct C that are commensurate with the scale of the adverse effects.
- v. the establishment of complementary activities, including commercial and residential activities, will be provided for where activities remain compatible with the role and function of Precinct A as the primary retail and commercial core of the District Centre Zone;
- vi. allowance for *retail activities* will be limited in type and scale to ensure adverse effects on the vitality and viability of the District Centre will not be significant:

Policy 6.9 – District Centre Zone Precincts

- vii. *medium density residential activities* will be enabled in conjunction with *commercial activities*; and
- viii. stormwater management will be provided to address stormwater concerns and, where practicable, will also support ecological and recreational values.

Policy 6.10 – Civic and Community Zone and Precinct B of the District Centre Zone

Subdivision, use and development in the Civic and Community Zone and Precinct B of the District Centre Zone, will provide for community, civic, cultural, education, health and recreation uses, facilities and services which serve the local community and District. The Civic and Community Zone will have a civic focus and will provide for a network of facilities which meet the needs of the community now, and into the future.

Subdivision, use and development in the Civic and Community Zone and Precinct B of the District Centre Zone will be undertaken in accordance with the following principles:

- a) retail and commercial activities will only be are ided for where they are limited in scale and are ancillary to community civic, cultural, education, health or recreation uses;
- b) the co-location, sharing and efficien use of facilities and associated infrastructure will be supported;
- c) design will be high quality and contribute to a high level of amenity;
- d) development and landmarks vill . ppropriate to and reflect the natural, cultural and historical identity of the District;
- e) public spaces will provi le vizces where people can safely meet, play and interact;
- f) viewshafts of key is ndfc ms, including remnant dunes and Kāpiti Island, will be maintained and framed by streets and buildings;
- g) buildings will have act. 'e frontages, including frequent entrances and window', and a hir ectural details, which are appropriate to the use of the building.
- h) streets and *dr /elopment* will be designed at a high quality pedestrian scale to create a slow street traffic environment;
- public spaces will provide for the clear and easy movement of people;
- j) development will be undertaken in accordance with the Crime Prevention Through Environmental Design Guidelines in Appendix 5.5;
- k) access through and around facilities, *buildings* and public spaces will be clear and convenient for all visitors and workers; and
- universal design principles will be adopted in buildings, infrastructure and streets.

Policy 6.11 - Outer Business Centre Zone

A. Subdivision, use and development in the Outer Business Centre Zone will provide for high amenity commercial development in a manner which:

- a) remains compatible with the role and function of *District Centre Zone*Precinct A as the primary retail and commercial core of the *Paraparaumu*Sub-Regional Centre;
- b) is appropriate along an arterial road environment; and
- c) is compatible with adjoining residential areas.
- B. Subdivision, use and development in the Outer Business Centre Zone will be undertaken in the following manner:
 - a) adverse effects that would otherwise decrease the efficiency and effectiveness of Kāpiti Road as a transport corridor, including for public transport, will be managed:
 - apartment living and medium density housing developments will be encouraged east of Moana Road to consolidate residential densities within close proximity to District Centre Zone Precinct A and the rail interchange;
 - c) retail activities will be provided for in a manner which minimises adverse effects on the role, function and vitality of the District Centre Zone and ensures the safe, efficient function of the District's an ansport network and hierarchy by:
 - i. managing the scale of *retail activities* in the lhavara Street East and Ihakara Street West Precincts;
 - ii. limiting the type and scale of retail activity in Capiti Road; and
 - iii. limiting the type and scale of retail ar avives in Paraparaumu North Gateway Precinct (as outlined in Poli v 6. 2); and
 - d) amenity values of Kāpiti Road will be meintained or enhanced;
 - e) vehicle parking and manoeuvring will be rovided for on-site and preferably at the rear of the site
 - f) activities which produce high least of nuisance effects will not be provided for;
 - g) buildings will have active frontages, including frequent entrances and windows, along the prince y road frontage;
 - h) building bulk, size and height will be of a scale and design that relates to the surrounding environ nent;
 - i) activities and dev. lop ment will recognise the proximity of sensitive activities in nearby cones; and
 - j) buildir is will have a minimal and consistent setback from the road boundary.

Policy 6.12 - Paraparaumu North Gateway Precinct

Subdivision, use and development for business activities in the Paraparaumu North Gateway Precinct will reinforce the Precinct's primary function as a gateway to Paraparaumu and will be undertaken in a manner that:

- a) is of an appropriate size, design scale and type, given the urban-rural fringe location of the Precinct;
- b) enables *commercial*, tourism (including *visitor accommodation*), education and craft-based activities;
- c) limits the location, type and scale of *retail activities* to minimise adverse *effects* on the District's *centres*, including the *District Centre Zone*; and
- d) avoids adverse effects on:
 - i. the function, role and vitality of the District's centres;
 - ii. the safe, efficient function of the *transport network* and hierarchy;
 - iii. the natural and rural character of the surrounding area.

Policy 6.13 – Town Centres

Town centres are managed to enable retail activities that provide 'convenience' goods and a range of 'comparison' goods to serve the major weekly household shopping needs of the local community, as well as a range of other business, cultural and community facilities and services. Large format retail will be managed to ensure it is of an appropriate scale and can be integrated into the existing urban fabric and character. Town centres may service a 'niche' destination retail market, as well as contain higher density residential activities and some community and civic activities. Town centres are located within the Town Centre Zones at Ōtaki Main Street, Ōtaki Rail, Waikanae, Paraparaumu Beach and Raumati Beach.

Policy 6.14 - Local Centres

Local centres are managed to enable a mix of limited local revial activities, other business activities, facilities and services which serve the daily convenience needs of local communities, generally within a walkathe listence. Local centres may also contain residential and community and livitable.

Local centres are located within the Local Centres at Paekākāriki, Raumati South, Kena Kena, Meadows, Te Moana Road an Mezengarb Road. Local centres are also provided for in the Waikan te Acrth Development Zone Precinct 6 (Mixed Use) and the Ngārara Zone Waitan to Neighbourhood Development Area.

In the following *local centres*, *subdivision*, use and *development* will be undertaken in a manner that is *sor.s* stent with the specified design objectives and principles:

- a) Paekākāriki Villago the Paekākāriki Village Centre Design Guide in Appendix 6.1;
- b) Meadows Precinct: he Meadows Precinct Design Guidelines in Appendix 6.2, an the Meadows Structure Plan in Appendix 6.3;
- c) Waimena Neic abourhood Development Area, Ngārara Zone: the Waimeha Neighbou. Sod development guidelines under the Ngārara Structure Plan in Appendix 5.7;
- d) Precinct 6 Waikanae North Development Zone: Waikanae North Design Guide in Appendix 5.6.

Policy 6.15 – Connectivity to and within Centres

Subdivision, use and development will be designed and located to enhance connectivity and access to public transport, shops and services and centres in general accordance with the following principles:

- a) effective and efficient transport routes and facilities will connect new developments with the surrounding context;
- b) public spaces and streets will be designed to support a mix of land uses and activities;
- c) the provision of transport routes and nodes will be designed to integrate with adjoining land uses;

- d) opportunities for active modes and integration with public transport routes will be provided for where it is appropriate;
- e) missing transport links will be completed;
- f) high traffic-generating activities and busy roads which divide *centres* or act as a physical barrier to the connectivity of a *centre* will be managed to avoid, remedy or mitigate adverse effects; and
- g) landmarks and transport nodes will be linked with well-defined pedestrian pathways where appropriate.

Policy 6.16 - Land Use and Built Form in the Industrial/Service Zone

A range of *industrial activities* within the *Industrial/Service Zone* will be provided for in a manner which avoids or mitigates impacts on adjoining sensitive activities and areas.

The location, type, scale and built form of subdivision, use and development in the *Industrial/Service Zone* will be managed to mitigate a 'erse effects, whilst meeting the District's economic needs.

Subdivision, use and development in the Industrial/S are according to be undertaken in the following manner:

- a) building entrances will be obvious from the subject through landscaping design or the form of the building;
- b) sufficient on-site service areas, including par parking, will be provided;
- c) service areas will be screened ar in provided for visual interest;
- d) appropriate access to the arterial and network will be provided and direct access to local residental streets will be avoided;
- e) buildings will be located and designed to minimise visual impact, including effects on real the dunes, ridgelines and other sensitive areas;
- f) the proliferation of sign will be avoided; and
- g) the amenity values and safety of the streetscape in the Industrial/Service 7 one will be maintained and, where possible, enhanded and into 19th the application of the Crime Prevention Through Environmental Design Guidelines set out in Appendix 5.5 and the Streetscape Strategy and Guidelines set out in Subdivision and Development Principles and Requirements 2012.

Policy 6.17 - Non-industrial Activities in the Industrial/Service Zone

- A. Sensitive activities in the Industrial/Service Zone will be avoided, except residential activities will be provided for in the form of caretaker live/work units where they:
 - a) are limited in size and scale;
 - b) are ancillary to industrial activities;
 - c) provide a high level on-site amenity for residents; and
 - d) will not lead to reverse sensitivity effects.
- B. Residential, retail (excluding trade supply retail and yard based retail) and commercial activities which are not ancillary to a primary industrial activity will be managed to prevent the uptake of industrial land by activities that:
 - a) are an inefficient use of the industrial land resource;
 - b) are provided for in other zones;
 - c) may affect the vitality, function and amenity of centres;
 - d) would be incompatible with the character and standards of amenity of the *Industrial/Service Zone*; or
 - e) may result in *reverse sensitivity* issues with *permi ted* consented activities.

Policy 6.18 - Industrial Fringe

Building bulk, outdoor storage, signage, no se and vibration will be managed at the interface between the Industrial/Serv. a Zi ne and neighbouring zones to minimise adverse effects of industrial activities on open spaces, residential areas, centres, strategic arterial roll as and najor community connector routes.

Policy 6.19 - Ōtaki South €recil ct

Subdivision, use and development in the Ōtaki South Precinct will be provided for in a manner which is consistent with the Ōtaki South Precinct Structure Plan in Apper Virtuo and complies with all of the following principles:

- a) development's designed to address the residual risk from flooding from the Otaki River and the direct risk from stormwater flooding and flooding from other watercourses:
- b) development is integrated into the existing environment by respecting the existing landform and the surrounding river environment, and avoiding adverse effects on groundwater, surface water and the Ōtaki River;
- c) traffic and visual effects are managed; and
- d) development does not compromise the viability of existing centres and industrial areas.

Policy 6.20 - Airport Zone Precincts

Subdivision, use and development will provide for aviation, business and employment opportunities through the efficient utilisation of land for aviation and associated activities, and providing for appropriate non-aviation business activities, in accordance with the Airport Precincts, as follows:

- a) the efficient use of the Kapiti Coast Airport for aviation purposes will be safeguarded and aviation and aviation related activities will be provided for within the 'Airport Core Precinct':
- b) a range of activities will be provided for to support aviation activities and provide for non-aviation commercial and other employment opportunities, with limited retail activities in the 'Airport Mixed Use Precinct' where the nature and scale of activities does not have adverse effects on the role and function of the District's centres:
- c) historic heritage, including the airport control tower and the museum, will be protected in the 'Airport Heritage Precinct'; and
- d) aviation and *business activities* within the Airport Zone will be buffered from adjoining residential, rural and open space zone 1 properties by the 'Airport Buffer Precinct' to ensure:
 - i. the amenity of adjoining properties is protected.
 - ii. public access routes and Cycleways, Wal way: and Bridleways (CWB) linkages are provided;
 - iii. the ancestral connection of *tāngata* with the Kapiti Coast Airport land is recognised;
 - iv stormwater is managed;
 - v. open space is provided; and
 - vi. ecological and conservatio values are protected and enhanced.

Policy 6.21 - Operational afet) and Efficiency in the Airport Zone

The function of the kapiti as a significant transport infrastructure node with supported by ensuring that the following principles are achieved:

- a) the operation of safety of the Airport for recreational and general aviation will be protected from hazards of encroachments by buildings, structures and trees, inappropriate development within flight paths and associated safety margins and glare from buildings;
- the continued use of the Airport for weather monitoring activities will be provided for and the operational requirements of weather monitoring will not be compromised by other activities on surrounding Airport land; and
- c) the amount of noise permitted from the use of the Airport for aviation purposes will be regulated to avoid unreasonable exposure of residents to noise through air noise boundaries, a night time curfew and limitations on aircraft engine testing.

Policy 6.22 – Built Form and Design in the Airport Zone

Subdivision, use and development will be well-designed and respect its setting by ensuring that:

- a) the visual impact, including the bulk, form, massing and colour of buildings, from Kāpiti Road and the extension of lhakara Street, public open spaces, adjoining residential properties and from all roads and walkways accessible to the public road network will be managed and an overall design cohesiveness will be achieved while still maintaining an individual presence;
- b) visual impact of car parking areas wil be managed;
- c) visual connections to Kāpiti Island and the Tararua Ranges will be maintained;
- d) Crime Prevention Through Environmental Design (CPTED) principles will be implemented, where appropriate;
- e) water and energy efficiency measures are integrated into design;
- f) restrictions on the timing of *development* will be imported to manage traffic *effects*; and
- g) the impact from stormwater run off on surrounding vater bodies will be minimised and natural values will be protected and enhanced, through a stormwater management plan.

6.1.2 Rules and Standards

The rules and standards applying to the *Working Zones* are contained in the following sections and rule tables as follows:

- District Centre Zone (Tables 6A.1 6A.5)
- Outer Business Centre Zone (Tables 6B.1 6B.5)
- Town Centre Zone (Tables 6C.1 6C.5)
- Local Centre Zone (Tables 6D.1 6D.5)
- Civic and Community Zone (Tables 6E.1 6E.5)
- Industrial/Service Zone (Tables 6F.1 6F.5)
- Airport Zone (Tables 6G.1 6G.6).

6.1.2.1 District Centre Zone

Introduction: Applicability of Rules in Tables 6A.1 - 6A.5

The rules in Tables 6A.1 to 6A.5 only apply to land and activities within the *District Centre Zone*. There may be other rules within the District Plan that also apply to *sites* and activities within these *Zones*. Section 1.1 in Chapter 1 sets out how to use the Plan and identify other rules that may also apply to a *site* or activity.

Table 6A.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise logicified).

Permitted Activities	Standards
Any activity that is a <i>permitted</i> activity under the rules in	General permitted activity standards
Table 6A.1.	 Hours of operation for any activity adjoining or facing the Living Zones shall be limited to between 7.00am and 11.00pm, 7 days a week.
	2. The activity must not cause offens. 'e or objectionable odour, dust or smoke at or beyond the boundary of the property on which it is occur .ng
	3. Light level from the activity nutriot exceed 10 lux, measured 1.5 metres inside the boundary of any adjoining Rural or Living Zone.
	4. Sites must be no nintained so that they are clear of all rubbish, except waste materials which are temporarily stored pending usposal clear there, and all materials (including goods, machinery, vehicles, boxes, crates, pallets and waste in aterial) hust be stored in a neat and tidy manner.
	5. Activities accoming the Living Zones and storage areas containing refuse, by-products or raw materials (unless fronting a service lane) must be screened by a 2 metre high close-boarded fence or shrubs or trees of an equivalent height.

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards	
2. Any activity which is not specified as a <i>permitted</i> ,	1. The activity complies with all <i>permitted activity</i> standards in Table 6A.1 Permitted Activities.	
controlled, restricted discretionary, discretionary, non-complying activity in the rules in Tables 6A.1-6A.5.	Note: See Rule 9A.1.2 for separation of <i>buildings</i> and <i>structures</i> from <i>waterbodies</i> standards, Tables 11P 1-11P.4 in relation to Parking, Tables 11B.1 – 11B.5 in relation to water and a symmetry and Table 12A.1 in relation to <i>financial contributions</i> rules and standards for all <i>development</i> .	
Retail, commercial and residential activities in Precincts A1 and A2.	1. Any <i>retail activity</i> within Precinct A2, that adjoins Nimy Road or is opposite or adjacent to the Wharemauku Stream reserve, shall have a maximum ground level <i>retail floor space</i> of 500m ² .	
	2. Residential activities shall only be located above the ground floor level or be separated from all street frontages by retail or commercial activities, excapt. Presinct A2, where residential activities may be located on the ground floor level where they directly front the Charemauku Stream reserve, or there is a legal road between the residential activity and the Wharemauku Suran reserve.	
	 3. Residential activities my second a) Provide an outdox living court or balcony of at least 6m²; and b) Have a main pedestian ront door accessed from the street. 	
	4. Compliance with a ble 12A.1 - financial contributions.	
4. Community facilities, educational facilities, performing arts facilities and health facilities in <i>Precinct B</i> .	1. Activities must reset the Civic and Community Zone permitted activity standards and the building permitted activity standards applicable to the District Centre Zone in Rule 6A.1.7.	
5. Commercial and residential activities in Precinct C.	1. Where <i>residential activities</i> are incorporated into a <i>development</i> that includes <i>commercial activities</i> they must be located above ground floor level or separated from all street frontages by <i>commercial activities</i> .	

Appeals Version March 2018 - [6-17] -

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards		
Termitted Activities	 Residential activities (other than those incorporated into a development that includes retail or commercial activities) must meet the following standards: a) comprise at least one household unit; b) have a minimum development area of 200m² per n. usehold unit and a minimum average area of 250m² per household unit across the development; c) each household unit sevelopment area must be cape se of containing an 8 metre diameter circle; d) a ground floor habitable room must face the street must be a main pedestrial building that fronts the street; e residential buildings that front a street must be a main pedestrian building that fronts the street; f) garages, irrespective of access, must be accessed fronts a street, a common lane, a rear boundary, etc.); g) a height envelope control of 2.1 m/s rcs + 45° shall apply from all boundaries facing the southern half of a compass including norther attempts, and one of 3 metres + 45° shall apply to all boundaries facing the northern half. This sta dard shall not apply from the road frontage boundary; h) maximum building lenc n is 12 retres before a recess with a minimum dimension of 3 metres x 3 metres is required. This recess must also have a maximum height of no less than 1 metre lower than the adjacent building mais. In addition, no more than 2 units may be terraced unless the connection is via a single storey gar rs, ir which case an unlimited number may terrace to avoid long repetitive rows of units; i) the maxim, mhe ht of a front boundary fence, or any fence within the front yard, shall be 0.8 metres; j) each unimal. This ovide a private outdoor living court of at least 30m², with a minimum dimension of 2.5 metres and the billity to accommodate a circle with a 4 metre diameter. This space must be directly access. See rom a habitable room,		
Recreation, community, cultural and lighting activities in the Dune Protection Area	 Activities must meet the permitted activity standards in the Open Space (Local Parks) Zone, with the exception of the building and structure standards in the rules in Table 8.1. 		

Appeals Version March 2018 - [6-18] - District Centre Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Dormitted Activities	Standards		
Permitted Activities			
	2. Earthworks must be for the purposes of the construction of a pedestrian or cycle way and must not exceed 20m² in		
in Appendix 6.7.	any 12 month period.		
in Appendix 6.7. 7. Except within the Dune Protection Area identified on the Structure Plan in Appendix 6.7, new buildings and additions and alterations to existing buildings.	 The maximum height of any building from original ground leve. shall be 12 metres and no building shall be more than 3 storeys above the original ground level, except in Pre since \(\)1 where the maximum height of any building shall be 15 metres and no building shall be more than 4 stor vs at ove original ground level. In Precinct A, where a building adjoins, or is within 2 n are so fit the front boundary of a property, or a main internal pedestrian route, the building must contain at lear or not a ground level road boundary façade and façades on main internal pedestrian routes as active retail firenates, including pedestrian entrances and clear glass for the display of goods. This standard excludes by including entrances of a residential activities in Precinct A2. In Precinct A, buildings must be located international entrances of any existing retail activities on the site or adjoining sites, and provide links via footpaths to the nedes rian entrances of adjoining premises. In Precinct A, buildings must an entrance of pedestrian accessive entrance of pedestrian and public or not produce of pedestrian accessive entrance entrance of buildings and public roads, vehicle parking and loading areas and public or not passes, and contain a minimum width of 2 metres and shall have an all-weather surface suitable for foot access. In Precinct B, buildings must contain at least 50% of the ground level road boundary façade and facades on desired connector roads as active frontages, including pedestrian entrances and clear glass with views to activities in the building. In Precinct C, buildings for commercial uses must contain at least 50% of the ground level road boundary façade and facades on desired connector roads as active frontages, including pedestrian entrances and clear glass with views to activities in the building. 		
	7. All buildings must fit within a height envelope, which is made up of recession planes which commence at a point 2.1 metres above the original ground level at the property boundary where it adjoins the boundary of Living Zones and

Table 6A.4 Discretionary Activities

The following activities are discretionary activities.

Discretionary Activities

- 1. Any activity which is listed as a *restricted discretionary activity* and does not comply with one or more of the associated standards, unless otherwise specifically stated.
- 2. Retail activities in Precinct C that are not Permitted or Restricted Discretionary Activities.

Table 6A.5 Non-Complying Activities

The following activities are **non-complying** activities.

Non-Complying Activities

- 1. Any activity which does not comply with *permitted activity* Rules 6A.1.8 6A.1.9 and does not meet the *restricted discretionary activity* standards and is not provided for under Rules 6A.4.1 or 6A.4.2.
- 2. Activities which create offensive odours detected at any boundary with the Living Zones.
- 3. Offensive trades.

6.1.2.2 Outer Business Centre Zone

Introduction: Applicability of Rules in Tables 6B.1 – 6B.5

The rules in Tables 6B.1 to 6B.5 only apply to land and activities within the Outer Business Centre Zone. There may be other rules within the District Plan that also apply to *sites* and activities within these *Zones*. Section 1.1 in Chapter 1 sets out how to use the Plan and identify other rules that may also apply to a *site* or activity.

Table 6B.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise logicified).

Permitted Activities	Standards
Any activity that is a permitted activity under the	General permitted activity standards.
rules in Table 6B.1.	1. Hours of operation for any activity adjoining or facing the Living Zones shall be limited to between 7.00am and 11.00pm, 7 days a week.
	2. The activity must not cause offens, a or objectionable odour, dust or smoke at or beyond the boundary of the property on which it is occur ing
	3. Light level from the activity nuclinot exceed 10 lux, measured 1.5 metres inside the boundary of any adjoining Rural or Living Zone.
	4. Sites must be no intained a sthat they are clear of all rubbish, except waste materials which are temporarily stored pending asposal case, here, and all materials (including goods, machinery, vehicles, boxes, crates, pallets and waste in aterian) a ust be stored in a neat and tidy manner.
	5. Activities activities activities activities activities and storage areas containing refuse, by-products or raw materials (unless fronting a service lane) must be screened by a 2 metre high close-boarded fence or shrubs or trees of an equivalent height.

Appeals Version March 2018 - [6-33] - Outer Business Centre Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Pe	ermitted Activities	Standards
2.	Any activity which is not specified as a permitted, controlled, restricted discretionary, discretionary or non-complying activity in the rules in Tables 6B.1-6B.5.	1. The activity complies with all <i>permitted activity</i> standards in Table 6B.1 Permitted Activities. Note: See Rule 9A.1.2 for separation of <i>buildings</i> and <i>structures</i> from waterbodies standards, Tables 11P 1-11P.4 in relation to Parking, Tables 11B.1 – 11B.5 in relation to water and 2 ormwater and Table 12A.1 in relation to <i>financial contributions</i> rules and standards for all <i>development</i> .
3.	Commercial activities.	
4.	Retail activities.	1. Retail activities shall be limited to internet-based retail ales that do not involve any direct door sales to the public or for wholesale, and do not have any goods of the public.
		2. In addition to Standard 1, within the Parapa. rum J North Gateway Precinct retail activities are limited to food and beverage outlets (on-licence only), by mus not include drive-through restaurants.
		3. In the Ihakara Street West Precinc. any <i>retail activity</i> with frontage to Ihakara Street or Trieste Way shall have a maximum <i>retail floor space</i> (11)0m.
		4. In the Ihakara Street E street, any retail activity must have a minimum retail floor space of 150m² and a maximum retail floor s, ace c 1000m².
		Note: for the avoidance of coubt, Standards 1 and 2 above do not apply to the Ihakara Street West or Ihakara Street East Precing to
5.	Residential activities.	1. Residential activates shall only be located above the ground floor level or be separated from all street frontages by commercial activities except in the Ihakara Street West Precinct, where residential activities may be located on the ground floor level where they are located on a site that directly fronts the Wharemauku Stream or Drain 6 reserves.
		2. Residential activities on the ground floor in the Ihakara Street West Precinct must:
		a) Provide an outdoor living court or balcony of at least 6m ² ; and
		b) Have a main pedestrian front door accessed from the street or legal right of way.

Appeals Version March 2018 - [6-34] - Outer Business Centre Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities

6. New buildings and additions and alterations to existing buildings, except in the Paraparaumu North Gateway Precinct.

Standards

- 1. The maximum *height* of any *building* from *original ground level* shall be 12 metres and no *building* shall be more than 3 storeys above the *original ground level*.
- 2. Buildings except residential buildings in the Ihakara Street We. † Precinct complying with Rule 6B.1.5, must contain at least 25% of the ground level road boundary façade and facaces on boulevards as active frontages including pedestrian entrances and clear glass with views to activities in the building.
- 3. Buildings located on properties with frontage along the purth eastern side of Kāpiti Road must be set back at least 3 metres from the Kāpiti Road boundary.
- 4. All buildings must fit within a height envelor, which is made up of recession planes which commence at a point 2.1 metres above the original ground level at the incorerty boundary where it adjoins the boundary of Living Zones and inclines inwards at an angle of 45 degrees, efector definition of height envelope and diagrams in Chapter 1). The exception to this is that garages located in the side or rear yard and not more than 2.4 metres in height may infringe the height envelope. Where there is a high of-way or an access strip/leg immediately adjacent to, and on the other side of, the property boundary, the recession plane shall be measured from a point 2.1 metres above a point midway across the right-of-year.
- 5. Any building which is sale ck and more metres from the road boundary must provide (or, in respect of existing trees, retain) at least the spicimen tree capable of growing to 5 metres in height within 10 years of planting for every 10 metres of property rontage. Any landscaping provided in accordance with this standard must be included in the landscaping call park requirement.
- 6. All built nas our residential buildings in the Ihakara Street West Precinct or inplying with Rule 6B.1.5, must be lit with exterior lighting at pedestrian entrance areas at a minimum or oux.
- 7. Buildings shall be sited a minimum of 4 metres from the boundary of the Living Zones.

Note: Please refer to Rules 11B.1 – 11B.3 in relation to water and stormwater rules for all *development*, and Rule 9A.1.2 for separation of *buildings* and *structures* from *waterbodies* standards.

Appeals Version March 2018 - [6-35] - Outer Business Centre Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards
7. Tourist activities, commercial and residential activities in the Paraparaumu North Gateway Precinct.	 1. Residential activities must be limited to caretaker units which are: a) located above or behind the commercial activity on the property; b) limited in size to 100m²; and c) a minor flat shall not be allowed.
8. Industrial Activities.	 Industrial activities must be located above the ground floor le el o be separated from all street frontages by retail activities.

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
1. Boundary adjustments and subdivisions where no additional lots (other than reserves or legal road to be vested in Council) are created. 1. Boundary adjustments and subdivisions where no additional lots (other than reserves or legal road to be vested in Council) are created.	 Each lot must have legal and physical access to a legal road. No further development potential shall be created as a result of the subdivision (i.e. through the creation of a small lot and a larger lot which can then be further subdivided and would not have met all restricted discretionary activity standards including minimum or average lot sizes prior to this subdivision occurring). Public roads, public water supply vas. we er and stormwater systems must be a ailable to serve the subdivision. Each lot, including any palance area, must be able to accommodate built ng which complies with the pe mitura activity standards. The relegant standards under Rule 6B.3.2 must be complied with, including any additional restriced discretionary activity standards for subdivision attached as notations to structure plans. Where the zone standards and standards attached as notations differ, the notations shall take precedence. The Esplanade Reserve and Esplanade Strip 	 Design and layout of the subdivision and earthworks. Vehicl acc s points onto legal road including the State Highway Net work. Vall character and amenity effects. I sign, size, shape and location of reserves and esplanade reserves. The location of any associated building area(s) relative to any identified natural hazards, historic heritage feature, notable tree, ecological site, key indigenous tree, key indigenous tree species, rare and threatened vegetation species, geological feature and outstanding natural features and landscapes Natural hazard management. Council's Subdivision and Development Principles and Requirements 2012. The imposition of financial contributions in accordance with Chapter 12 of this Plan. Imposition of encumbrances on titles to prevent or limit further subdivision. Imposition of conditions under sections 108 and 220 of the RMA.

Appeals Version March 2018 - [6-37]
Outer Business Centre Zone

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
	provisions of Schedule 8.1 must be complied with.	
New buildings and additions and alterations to existing buildings in the Paraparaumu North Gateway Precinct.	 Buildings must comply with the permitted activity standards for buildings in the Outer Business Centre Zone. Buildings shall have a maximum height of 10 metres and a maximum gross floor area of 1000m². Buildings must be located a minimum of 5 metres from a state highway, or limited access road (LAR) and a minimum of 5 metres from the precinct area boundary. Coverage must not exceed of the provided along and changes in materials. Security fercing must be visually permeable (e.g. chain-link) A landscaped area of at least 1 metre in width and 2 metres in height must be provided along property boundaries to screen buildings and activities from adjoining rural properties outside the Paraparaumu North Gateway Precinct, identified in the District Plan Maps. 	 Locati n, la, out, size and design of the proposed develo, men. in ex ent of consistency with the Crime Prevention Through Environmental Design Guidelines in Appendix 5.5, Council's Subdivision and Development Principles and Requirements 2012 and the Centres Design Principles in Appendix 6.9. Visual, character and amenity effects. Context and surroundings. Cumulative effects. The imposition of financial contributions in accordance with Chapter 12 of this Plan.

Appeals Version March 2018 - [6-38] - Outer Business Centre Zone

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
	Note: Please refer to Rules 11B.1 – 11B.3 in relation to water and stormwater rules for all development, and Rule 9A.1.2 for separation of buildings and structures from waterbodies standards.	

The following activities are **restricted discretionary** activities, provided that they comply with all corresponding restricted discretionary activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Restricted Discretionary Activities	Standards	Matters over which Council will restrict its discretion
1. Any activity which is listed as a permitted activity or a controlled activity and does not comply with one of more of the associated standards, unless otherwise specifically stated.		 Consideration of the effects of the standard not met. Musures to avoid, remedy or mitigate adverse effects. Luminative effects. Lonsistency with relevant objectives and policies.
2. Any subdivision of land which is not a controlled activity under Rule 6B.2.1.	 Each <i>lot</i> must have legal and physical access to <i>legal road</i>. Each <i>lot</i>, including any balance area, must be sole to accommodate a <i>building</i> which cort plies vith the <i>permitted activity</i> standards. 	 Design and layout of the subdivision and earthworks. Vehicle access points onto legal road including the State Highway Network and any effects on the transport network.
	3. Public roads, public water stopt, vastewater and stormwater systems must be vailable to serve the subdivision.	3. Visual, character and amenity <i>effects</i>.4. Design, size, shape and location of reserves and <i>esplanade reserves</i>.
	 4. A development plan howing indicative buildings and landscriping must be provided. 5. For properties ac bining Living Zones, development must meet the remitted activity standards of the adjoining Living Zone for building separation, setbacks and screening. 	5. The location of any associated building area(s) relative to any identified natural hazards, historic heritage feature, notable tree, ecological site, key indigenous tree, rare and threatened vegetation species, geological feature, outstanding natural features and landscapes and dominant ridgelines.
	6. Any additional restricted discretionary activity standards for subdivision attached as notations to structure plans must be complied with. Where the zone standards and standards attached as notations	 Natural hazard management. Council's Subdivision and Development Principles and Requirements 2012 and the Centres Design Principles in Appendix 6.9.

Appeals Version March 2018 - [6-40] - Outer Business Centre Zone

The following activities are **restricted discretionary** activities, provided that they comply with all corresponding restricted discretionary activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Restricted Discretionary Activities	Standards	Matters over which Council will restrict its discretion
	 differ, the notations shall take precedence. The Esplanade Reserve and Esplanade Strip provisions of Schedule 8.1 must be complied with. In the Paraparaumu North Gateway Precinct, lots must have a minimum area of 1000m² and a minimum average for the subdivision of 2500 m² Compliance with Table 12A.1- financial contributions. 	 8. In position of encumbrances on titles to prevent or limit further subdivision. 9. The imposition of financial contributions in accordance with chapter 12 of this Plan. 10. The provision of walkways, cycleways and bridleways.
Retail activities in the Paraparaumu North Gateway Precinct that do not meet the permitted activity standards.	1. Retail activities must be limited to part base I retail activities and have a maximum revial floor space of 300m² per total property area	 Location, layout, size and design of the proposed development. The extent of consistency with the Crime Prevention through Environmental Design Guidelines in Appendix 5.5, Council's Subdivision and Development Principles and Requirements, 2012 and the Centres Design Guide in Appendix 6.9. Economic effects including effects on the vitality of centres. Visual, character and amenity effects. Traffic and transport effects. Location and design of parking, traffic circulation areas, loading and access.

Appeals Version March 2018 - [6-41] - Outer Business Centre Zone

The following activities are **restricted discretionary** activities, provided that they comply with all corresponding restricted discretionary activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Restricted Discretionary Activities	Standards	Matters over which Council will restrict its discretion
4. Development which is undertaken in accordance with the Development Incentives Guidelines set out in Appendix 3.1.	1. The amount of development proposed mus to ot exceed or proceed earlier than the stir diation. In the guideline.	 Context and surroundings. Jumulative effects. Whether any nuisance effects are created. The consistency with the relevant objectives and policies. The scale of biodiversity, energy or water quality benefits created by the proposal. Layout, size, design and location of proposed buildings. Visual, character and amenity effects. Ecological or biodiversity effects. Traffic and transport effects. Proposed mitigation, remediation or ongoing management measures. Effect on natural character values. Cumulative effects. The Centres Design Principles in Appendix 6.9.

Appeals Version March 2018 - [6-42] - Outer Business Centre Zone

The following activities are **restricted discretionary** activities, provided that they comply with all corresponding restricted discretionary activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Restricted Discretionary Activities	Standards	Matters over which Council will restrict its discretion
5. New buildings and additions and alterations to existing buildings where one or more of the permitted activity standards in Rule 6B.1.6 is not met.		 Location, layout, size and design of proposed a velopment. Consideration of the permitted activity standard not met. Visual, character, amenity, historic heritage, streetscape and stream effects. The extent of consistency with the Crime Prevention Through Environmental Design Guidelines in Appendix 5.5, Council's Subdivision and Development Principles and Requirements 2012 and the Centres Design Principles in Appendix 6.9. Effects on landform and landscape. Traffic and transport effects. Design and appearance of buildings. Location and design of parking, traffic circulation areas, loading and access. Public safety. Context and surroundings. Any nuisance effects.

Appeals Version March 2018 - [6-43] - Outer Business Centre Zone

The following activities are **restricted discretionary** activities, provided that they comply with all corresponding restricted discretionary activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Restricted Discretionary Activities	Standards	Matters over which Council will restrict its discretion
		13. The consistency with the relevant objectives and plicies.

Table 6B.4 Discretionary Activities

The following activities are discretionary activities.

Discretionary Activities

1. Any activity which is listed as a *restricted discretionary activity* and does not comply with one or more of the associated standards unless otherwise specifically stated.

Table 6B.5 Non-Complying Activities

The following activities are non-complying activities.

Non-Complying Activities

- 1. Activities which create offensive odours detected at any boundary adjoining the Living Zones.
- 2. Offensive trades.

6.1.2.3 Town Centre Zone

Introduction: Applicability of Rules in Tables 6C.1 - 6C.5

The rules in Tables 6C.1 to 6C.5 only apply to land and activities within the Town Centre Zone. There may be other rules within the District Plan that also apply to *sites* and activities within these *Zones*. Section 1.1 in Chapter 1 sets out how to use the Plan and identify other rules that may also apply to a *site* or activity.

Table 6C.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise to cife d).

Permitted Activities	Standards
Any activity that is a <i>permitted</i> activity under the rules in	General permitted activity standards
Table 6C.1.	1. Hours of operation for any activity adjourns of cing the Living Zones shall be limited to between 7.00am and 11.00pm, 7 days a week.
	2. The activity must not cause offension or objectionable odour, dust or smoke at or beyond the <i>boundary</i> of the <i>property</i> on which it is occur incomparison.
	3. Light level from the act vity has not exceed 10 lux, measured 1.5 metres inside the <i>boundary</i> of any adjoining Rural or <i>Living Zone</i> .
	4. Sites must be no intained so that they are clear of all rubbish, except waste materials which are temporarily stored pending disposal end where, and all materials (including goods, machinery, vehicles, boxes, crates, pallets and waste naterial) it ust be stored in a neat and tidy manner.
	5. Activities adjuming the <i>Living Zones</i> and storage areas containing refuse, by-products or raw materials (unless fronting a service lane) must be screened by a 2 metre high close-boarded fence or shrubs or <i>trees</i> of an equivalent <i>height</i> .
Any activity which is not specified as a <i>permitted</i> ,	1. The activity complies with all <i>permitted activity</i> standards in Table 6C.1 Permitted Activities.
controlled, restricted	Note: See Rule 9A.1.2 for separation of buildings and structures from waterbodies standards, Tables 11P 1-11P.4 for

Appeals Version March 2018 - [6-47] - Town Centre Zone

Table 6C.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards
discretionary, discretionary, or non-complying activity in the rules in Tables 6C.1-6C.5.	Parking, Tables 11B.1 – 11B.5 in relation to water and stormwater and Table 12A.1 in relation to <i>financial contributions</i> rules and standards for all <i>development</i> .
3. Retail activities.	1. Retail activities must have a maximum retail floor space of 5 J0m for any building or a maximum coverage of 100% per total property area, whichever is lesser.
4. Commercial activities.	
5. Residential activities.	1. Residential activities must only be located above the gound floor level or be separated from all street frontages by retail activities.
6. New buildings and additions and alterations to existing buildings, except in the Raumati Beach Town Centre Zone.	 The maximum height of any building from or rival ground level shall be 12 metres and no building shall be more than 3 storeys above the original ground level. Where a building adjoins, or is with. 2 metres of the front boundary of a property, or a main internal pedestrian route, the building must confain at least 75% of the ground level road boundary façade and facades on main internal pedestrian routes as a ctival retail frontages, including pedestrian entrances and clear glass for the display of goods. All buildings must fit with. A height envelope, which is made up of recession planes which commence at a point 2.1 metres above the original ground level at the property boundary where it adjoins the boundary of Living Zones and inclines awards at mangle of 45 degrees (refer to definition of height envelope and diagrams in Chapter 1). The exception of the property pe. Where there is a right-of-way or an access strip/leg immediately adjacent to, and on the other side of, the property boundary, the recession plane shall be measured from a point 2.1 metres above a point
	 4. Any <i>building</i> which is setback 2 or more metres from the <i>road boundary</i> must provide (or, in respect of existing trees, retain) at least one specimen tree capable of growing to 5 metres in <i>height</i> within 10 years of planting for every 10 metres of <i>property</i> frontage. Any <i>landscaping</i> provided in accordance with this standard must be included in the <i>landscaping carpark</i> requirement.

Appeals Version March 2018 - [6-48] - Town Centre Zone

Table 6C.1. Permitted Activities

The following activities are discretionary activities.

Discretionary Activities

1. Any activity which is listed as a *restricted discretionary-activity* and does not comply with one or more of the associated standards, unless otherwise specifically stated.

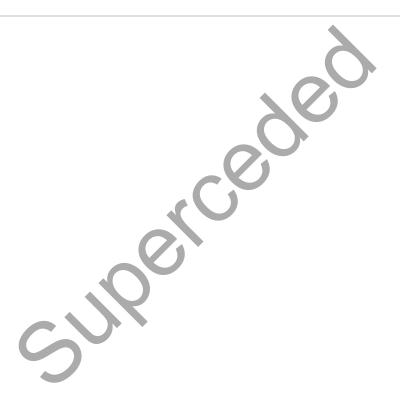

Table 6C.5 Non-Complying Activities

The following activities are **non-complying** activities.

Non-Complying Activities

- 1. Activities which create offensive odours detected at any boundary with the Living Zones.
- Offensive trades.

6.1.2.4 Local Centre Zone

Introduction: Applicability of Rules in Tables 6D.1 - 6D.5

The rules in Tables 6D.1 to 6D.5 only apply to land and activities within the Local Centre Zone and Waikanae North Development Zone Precinct Area 6. There may be other rules within the District Plan that also apply to *sites* and activities within these Zones. Section 1.1 in Chapter 1 sets out how to use the Plan and identify other rules that may also apply to a *site* or activity.

Table 6D.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities

1. Any activity that is a *permitted* activity under the rules in Table 6D.1.

Standards

General permitted activity standards

- 1. Hours of operation for any *activity* adjuming that cing the *Living Zones* shall be limited to between 7.00am and 11.00pm, 7 days a week.
- 2. The activity must not cause offensive or objectionable odour, dust or smoke at or beyond the *boundary* of the *property* on which it is occur inc
- 3. Light level from the act vity a rust not exceed 10 lux, measured 1.5 metres inside the *boundary* of any adjoining Rural or *Living Zone*.
- 4. Sites must be muintained su that they are clear of all rubbish, except waste materials which are temporarily stored pending disposal entry where, and all materials (including goods, machinery, vehicles, boxes, crates, pallets and waste next all) it ust be stored in a neat and tidy manner.
- 5. Activities adjoining the *Living Zones* and storage areas containing refuse, by-products or raw materials (unless fronting a service lane) must be screened by a 2 metre high close-boarded fence or shrubs or *trees* of an equivalent *height*.

Appeals Version March 2018 - [6-60] - Local Centre Zone

Table 6D.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards
2. Any activity which is not specified as a permitted, controlled, restricted discretionary, discretionary, or non-complying activity in the rules in Tables 6D.1-6D.5.	1. The activity complies with all <i>permitted activity</i> standards in Table 6D.1 Permitted Activities. Note: See Rule 9A.1.2 for separation of <i>buildings</i> and <i>structures</i> from <i>waterbodies</i> standards, Tables 11P 1-11P.4 for Parking, Tables 11B.1 – 11B.5 in relation to water and stormwater and Table 12A.1 in relation to <i>financial contributions</i> rules and standards for all <i>development</i> .
3. Retail activities.	1. Retail activities must have a maximum retail floor pact of 5 0m² for any building or a maximum coverage of 100% per total property area, whichever is lesser.
4. Commercial activities.	
5. Residential activities.	1. Residential activities must only be located by verified he ground floor level or be separated from all street frontages by retail activities.
6. New buildings and additions and alterations to existing buildings (except in Paekākāriki).	 The maximum height of any building from riginal ground level shall be 12 metres and no building shall be more than 3 storeys above the original ground level. Where a building adjoins or within 2 metres of the front boundary of a property, or a main internal pedestrian route, the building must contain at least 75% of the ground level road boundary façade and façades on main internal pedestrian routes as active retail frontages, including pedestrian entrances and clear glass for the display of goods. All buildings must have the original ground level at the property boundary where it adjoins the boundary of Living Zones and inclines inwards at an angle of 45 degrees (refer to definition of height envelope and diagrams in Chapter 1). The exception to mis is that garages located in the side or rear yard and not more than 2.4 metres in height may infringe the height envelope. Where there is a right-of-way or an access strip/leg immediately adjacent to, and on the other side of, the property boundary, the recession plane shall be measured from a point 2.1 metres above a point midway across the right-of-way or access strip/leg. Any building which is setback 2 or more metres from the road boundary must provide (or, in respect of existing)
	trees, retain) at least one specimen tree capable of growing to 5 metres in height within 10 years of planting for

Permitted Activities	Standards
	every 10 metres of <i>property</i> frontage. Any <i>landscaping</i> provided in accordance with this standard must be included in the <i>landscaping</i> car park requirement.
	5. All <i>buildings</i> , other than temporary or accessory storage <i>buildings</i> , must be lit with exterior lighting at pedestrian entrance areas at a minimum of 10 lux.
	6. Verandahs shall be provided to the following standards, except in situations where the adjoining buildings on both sides do not have a verandah (excluding Paekaketiki, where all buildings shall provide a verandah) and where the building is set back from the frontage by more that the means: a) The verandah shall have a minimum depth of 3 in otres; and b) The verandah shall be at least 0.5 metable believe the kerb face.
	7. Verandahs must extend along the entire from the building and must adjoin existing verandahs on adjacent buildings.
	8. Verandahs must have exterior light. g at pedestrian entrance areas at a minimum of 10 lux.
	9. Buildings shall be sited a mil. ir ium of 4 metres from the boundary of any Living Zone.
	10. No building shall be so back more than 2 metres from the legal road boundary or main internal pedestrian route edge. Any setback is so 2 metres shall be entirely paved for pedestrian circulation (except for ancillary landscaping). This rule doe not apply to ancillary buildings; that is buildings used for a purpose which is secondary to the main use or the property and which are located to the rear of the main building on the property.
	11. Pedestrian pathy ays must be provided with a minimum width of 2 metres and be separated by appropriate marking/deiation from traffic movements from all car parking areas to the <i>building</i> entrances and between <i>building</i> entrances.
	Note: Please refer to Rules 11B.1 – 11B.3 in relation to water and stormwater rules for all <i>development</i> , and Rule 9A.1.2 for separation of <i>buildings</i> and <i>structures</i> from <i>waterbodies</i> standards.
7. Buildings and activities in the Meadows Precinct in the	1. The activity must comply with the <i>permitted activity</i> standards for new <i>buildings</i> and <i>additions</i> and <i>alterations</i> to existing <i>buildings</i> under Rule 6D.1.6.

Appeals Version March 2018 - [6-62] - Local Centre Zone

Table 6D.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards
Local Centre Zone identified in the District Plan Maps.	 Before a childcare facility can commence operation, a report prepared by a suitably qualified acoustic engineer that demonstrates compliance with the <i>permitted activity</i> standards relating to <i>noise emissions</i> must be provided to the satisfaction of <i>Council</i>. The total <i>gross floor area</i> of all <i>commercial</i> and <i>retail activitics</i> with mithe Meadows Precinct shall be a maximum of 8,000m². The total <i>gross floor area</i> of <i>retail activities</i> within the Meadows Precinct shall be a maximum of 1,400 m² and any single retail activity must not exceed a <i>gross floor area</i> of 200m². Provision of a heavy vehicle and bus entralized egress point on Mazengarb Road to serve the Meadows Precinct in accordance with the vehicle access regime, entry in Chapter 11 of this plan prior to the auditorium or any commercial or <i>retail activity</i> commenting of paration. Vehicle movements via the Realm Prive access point shall be restricted to entry only. Note: Please refer to Rules 1 Prind 18.3 in relation to water and stormwater rules for all <i>development</i>, and Rule 9A.1.2 for separation of <i>Faircing and structures</i> from <i>waterbodies</i> standards.
8. Buildings and activities in Waikanae North Development Zone Precinct 6 identified in the District Plan Maps.	 The activity must couply with the <i>permitted activity</i> standards for the Local Centre Zone under Rule 6D.1.6. Any <i>hab lable roo</i>, that will be used for residential accommodation purposes must be protected from noise arising from other activities (i.e. <i>commercial activities</i> within the Mixed Use Precinct) by ensuring the <i>external sound insulation level a</i> hieves the minimum performance standard specified in Rule 12D.1.14 in Chapter 12. all <i>retail activity</i> must not exceed 1,200m²; and all <i>commercial service</i> activity must not exceed 2,000m².
9. Industrial Activities.	 Industrial activities must be located above the ground floor level or be separated from all street frontages by retail activities.

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
1. Boundary adjustments and subdivisions where no additional lots (other than reserves or legal road to be vested in Council) are created in the Local Centre Zone.	 Each <i>lot</i> must have legal and physical access to a <i>legal road</i>. No further <i>development</i> potential shall be created as a result of the <i>subdivision</i> (i.e. through the creation of a small <i>lot</i> and a larger <i>lot</i> which can then be further subdivided and would not have met all <i>restricted discretionary activity</i> standards including minimum or average <i>lot</i> sizes prior to this <i>subdivision</i> occurring). Public roads, public water supply, <i>wastewa ar</i> and stormwater systems must be available to serve the <i>subdivision</i>. Each <i>lot</i>, including any balanca are a, must be able to accommodate and are which complies with the <i>pen itted ctivity</i> standards. The relevant standard under Rules 6D.3.2 must be complied with, including any additional resume addiscretionary activity standards for sundivision attached as notations to surdivision attached as notations differ, the notations shall take precedence. The <i>Esplanade Reserve</i> and <i>Esplanade Strip</i> provisions of Schedule 8.1 must be complied 	 Design and layout of the subdivision and earthworks. Vehicle ancess points onto legal road including the State Highway Network. Yisura, character and amenity effects. Design, size, shape and location of reserves and esplanade in verves. The location of any associated building area(s) relative to any identified natural hazards, historic heritage feature, notable tree, ecological site, key indigenous tree, key indigenous tree species, rare and threatened vegetation species, geological feature and outstanding natural features and landscapes. Natural hazard management. The extent of consistency with Council's Subdivision and Development Principles and Requirements 2012 and the Centres Design Principles in Appendix 6.9. The imposition of financial contributions in accordance with Chapter 12 of this Plan. Imposition of encumbrances on titles to prevent or limit further subdivision. Imposition of conditions under sections 108 and 220 of the RMA.

Appeals Version March 2018 - [6-64] - Local Centre Zone

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
2. Buildings in the Meadows Precinct in the Local Centre Zone identified in the District Plan Maps.	with. 1. Within the Meadows Precinct all new and relocated buildings shall have a maximum height of: a) 8 metres except for a single auditorium building which shall not exceed 12 metres; and b) 6 metres for a minimum of 50% of any building fronting Mazengarb Road. 2. An auditorium within the Meadows Presset shall not exceed 12 metres in height and may	 Location 'ayout, size and design of proposed development. Visual, harr cter, amenity and streetscape effects. Chisis ency with the Meadows Precinct Design Guidelines 'Appendix 6.2). Table 6E.2 Controlled Activities

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
1. Boundary adjustments and subdivisions where no additional lots (other than reserves or legal road to be vested in Council) are created. 1. Boundary adjustments and subdivisions where no additional lots (other than reserves or legal road to be vested in Council) are created.	 Each lot must have legal and physical access to a legal road. No further development potential shall be created as a result of the subdivision (i.e. through the creation of a small lot and a larger lot which can then be further subdivided and would not have met all restricted discretionary activity standards including minimum or average lot sizes prior to this subdivision occurring). Public roads, public water supply, was a value of stormwater systems must be available to strive the subdivision. Each lot, including any balance and each, must be able to accommodate a building of accommodate a building of accommodate a building of accommodate and standards of subdivision attached activity standards for subdivision attached as a solutions to structure plans. Where the zone standards and standards attached as notations diment, the notations shall take precedence. The Esplanade Reserve and Esplanade Strip provisions of Schedule 8.1 must be complied with. 	 Design and layout of the subdivision and earthworks. Vericle access points onto legal road including the State light ay Network. Visual, character and amenity effects. Design, size, shape and location of reserves and esplanade reserves. The location of any associated building area(s) relative to any identified natural hazards, historic heritage feature, notable tree, ecological site, key indigenous tree, key indigenous tree species, rare and threatened vegetation species, geological feature and outstanding natural features and landscapes. Natural hazard management. Council's Subdivision and Development Principles and Requirements 2012 and the Centres Design Principles in Appendix 6.9. The imposition of financial contributions in accordance with chapter 12 of this Plan. Imposition of encumbrances on titles to prevent or limit further subdivision. Imposition of conditions under sections 108 and 220 of the RMA.

Appeals Version March 2018 - [6-82] - Civic and Community Zone

Table 6E.2 Controlled Activities

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control

The following activities are **restricted discretionary** activities, provided that they comply with all corresponding restricted discretionary activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Any activity which is listed as a permitted activity or a		1. Consideration of the <i>effects</i> of the standard not met.
controlled activity and does not comply with one of more of the associated standards, unless otherwise specifically stated.		 Measures to avoid, remedy or mitigate adverse effects. Complative effects.
is not a controlled activity under Rule 6E.2.1.	 Each lot must have legal and physical access to a legal road. Each lot, including any balance area, must be at e to accommodate a building which complies with the permitted activity standards. Public roads, public water surply westewater and stormwater systems must be available to serve the subdivision. The maximum block length of the development shall be 150 metres. For the purposes of this standard the meximum block length shall also apply to any interruit coading proposed. A development plan showing indicative buildings and landscaping must be provided. For properties adjoining Living Zones, development must meet the Permitted Activity Standards of the adjoining Living Zone for building separation, setbacks and screening. 	 Design and layout of the subdivision and earthworks. Vehicle access points onto legal road including the State Highway Network and any effects on the transport network. Visual, character and amenity effects. Design, size, shape and location of reserves and esplanade reserves. The location of any associated building area(s) relative to any identified natural hazards, historic heritage feature, notable tree, ecological site, key indigenous tree, key indigenous tree species, rare and threatened vegetation species, geological feature, outstanding natural features and landscapes and dominant ridgelines. Natural hazard management. Council's Subdivision and Development Principles and Requirements 2012 and the Centres Design Principles in Appendix 6.9. Imposition of encumbrances on titles to prevent or limit

Appeals Version March 2018 - [6-84] - Civic and Community Zone

The following activities are **restricted discretionary** activities, provided that they comply with all corresponding restricted discretionary activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Restricted Discretionary Activities	Standards	Matters over which Council will restrict its discretion
3. New buildings and additions and alterations to existing buildings where no more than one of the following permitted activity standards is not met: a) height envelope; b) landscaping; c) lighting; d) buildings adjoining Living Zones; e) building setbacks; f) pedestrian pathways; and g) vehicle entrances.	 Any additional restricted discretionary activity standards for subdivision attached as notations to structure plans must be complied with. Where the zone standards and standards attached as notations differ, the notations shall take precedence. The Esplanade Reserve and Esplanade Strip provisions of Schedule 8.1 must be complied with. Compliance with Table 12A.1 - financial contributions. 	further subdivision. 9. The aposition of financial contributions in accordance with Chapter 12 of this Plan. 10. The provision of walkways, cycleways and bridleways. 1. Location, layout, size and design of the proposed development. 2. Consideration of the standard(s) not met. 3. Visual, character, amenity, historic heritage, streetscape and stream effects. 4. The extent of consistency with the Crime Prevention Through Environmental Design Guidelines in Appendix 5.5, Council's Subdivision and Development Principles and Requirements 2012 and the Centres Design Principles in Appendix 6.9. 5. Effects on landform and landscape.
		6. Traffic and transport <i>effect</i> s.

Table 6E.4 Discretionary Activities

The following activities are discretionary activities.

Discretionary Activities

- 1. Any activity which is listed as a *restricted discretionary activity* and does not comply with one or more of the associated standards, unless otherwise specifically stated.
- 2. Residential activities.

Table 6E.5 Non-Complying Activities

The following activities are non-complying activities.

Non-Complying Activities

- 1. Subdivision that does not comply with one or more of the restricted discretionary activity standards.
- 2. Offensive odours detected at any boundary adjoining the Living Zones.
- 3. Offensive trades.
- 4. New buildings and additions and alterations to existing buildings which exceed 12 metres in height or the more than 3 storeys above the original ground level.
- 5. Retail activities that exceed one or more of the permitted activity standards.
- 6. Off-license premises and on-license premises.
- 7. Commercial activities.
- 8. Industrial activities.

6.1.2.6 Industrial/Service Zone

Introduction: Applicability of Rules in Tables 6F.1 – 6F.5

The rules in Tables 6F.1 to 6F.5 only apply to land and activities within the *Industrial/Service Zone*. There may be other rules within the District Plan that also apply to *sites* and activities within these *Zones*. Section 1.1 in Chapter 1 sets out how to use the Plan and identify other rules that may also apply to a *site* or activity.

Table 6F.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities

1. Any activity that is a *permitted* activity under the rules in Table 6F.1.

Standards

General permitted activity standards

- 1. Hours of operation for *business activit*, adjoining or facing the *Living Zones* shall be limited to Monday to Saturday 7.00am to 11.00pm except during Pullic Holidays when *industrial activities* shall not take place.
- 2. The following hours of operation must be observed for industrial activities on the Industrial/Service zoned land adjoining the Paraparaumu (lug dy 7:00am to 11:00pm Monday to Saturday. No industrial activities shall be carried out on this land outside thes times or on Sundays or Public Holidays.
- 3. In relation to buildings and corparks on properties adjoining a road which has a carriageway width in excess of 8.0 metres, a landscape strip of at least 2 metres in width must be provided along the front boundary (except for vehicle crossing.) Lar straping shall also be provided in side and rear yards where they adjoin a Living or Centres Zone. Where sites streed 4000m2 in size, there shall be provision of at least 3 specimen trees capable of growing to 5 meters. The part within 10 years of planting for every 1000m2 of area landscaped.
- 4. The activity must not cause offensive or objectionable odour, dust or smoke at or beyond the boundary of the property on which it is occurring.
- 5. Light level from the activity must not exceed 10 lux, measured 1.5 metres inside the boundary of any adjoining Rural or Living Zone.
- 6. Sites must be maintained so that they are clear of all rubbish, except waste materials which are temporarily stored

Appeals Version March 2018 - [6-90] - Industrial/Service Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards	
	 pending disposal elsewhere, and all materials (including goods, machinery, vehicles, boxes, crates, pallets and waste material) must be stored in a neat and tidy manner. 7. Activities adjoining Living Zones and storage areas containing refuse, by-products or raw materials (unless fronting a service lane) must be screened by a 2 metre high close-b arged fence or shrubs or trees of an equivalent height. 	
2. Any activity which is not specified as a permitted, controlled, restricted discretionary, or non-complying activity in the rules in Tables 6F.1-6F.5.	1. The activity complies with all <i>permitted activity</i> standar as in Table 6F.1 Permitted Activities. Note: See Rule 9A.1.2 for separation of <i>buildings</i> and standards, Tables 11P 1-11P.4 for Parking, Tables 11B.1 – 11B.5 in relation to water all distolutions rules and standards for all <i>development</i> .	
3. Industrial activities.		
Industrial activities on the Industrial/Service zone land adjoining the Paraparaumu Quarry.	1. In addition to the requirements of S andard 3 in Rule 6F.1.1 above, <i>landscaping</i> along the Ruahine Street frontage of the <i>Industrial/Service zon</i> ; lar a application of the Paraparaumu Quarry shall be carried out generally in accordance with the plan in Appendix 6.	
	2. Development of the Inc. istria 'Service zone land adjoining the Paraparaumu Quarry must include the noise mitigation fence identified in Appendix 6.8., and any buildings constructed on the Ruahine Street frontage shall have no active frontages e.g., donway, or coening windows, facing Ruahine Street (except for site ingress and egress).	
 New buildings and additions and alterations to existing buildings except in the Ōtaki South Precinct. 	1. The ma. im in height of any building from original ground level shall be 10 metres except that, on Lot 2 DP 441854 (Milne Drive, Pa aparaumu), the maximum height of any building within the area identified on the Structure Plan in Appendix 6.4 as "8.0m Height Maximum" shall be 8 metres measured from original ground level.	
	2. All buildings must fit within a height envelope, which is made up of recession planes which commence at a point 2.1 metres above the original ground level at the property boundary where it adjoins the boundary of Living Zones and inclines inwards at an angle of 45 degrees (refer to definition of height envelope and diagrams in Chapter 1). The exception to this is that garages located in the side or rear yard and not more than 2.4 metres in height may infringe the height envelope. Where there is a right-of-way or an access strip/leg immediately adjacent to, and on the other	

Appeals Version March 2018 - [6-91] - Industrial/Service Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards
	side of, the <i>property boundary</i> , the recession plane shall be measured from a point 2.1 metres above a point midway across the right-of-way or <i>access strip/leg</i> .
	3. Buildings shall be sited a minimum of 4 metres from the bouncary of a Living Zone.
	4. A building entrance must be visible from the <i>legal road bour.</i> Yary.
	Note: Please refer to Rules 11B.1 – 11B.3 in relation to value and stormwater rules for all <i>development</i> , and Rule 9A.1.2 for separation of <i>buildings</i> and <i>structures</i> from value and development.
6. Residential activities.	 1. Residential activities must: a) be ancillary to an industrial building and activity on the property; b) not include more than one household up to property;
	c) not be greater than 70m² in total foor area per <i>property</i> , except the Ōtaki South Precinct where the maximum floor area shall be 150m²;
	d) be restricted to above the ground floor level or be separated from all street frontages by an <i>industrial activity</i> and have a clearly identified from above accessed from the street or an internal circulation route;
	e) residential buildings mu. 'Je a oustically designed to achieve the permitted activity standards in Chapter 12; and
	f) be limited to acco. mod: iton for a caretaker or other person whose employment requires that they live on the property where they are employed.
	2. No residential accumulation shall be sold or otherwise disposed of except in conjunction with the associated industric burrang. The residential building may, however, be removed from the property.
7. Retail activities.	1. Retail activition are limited to: a) retail which is ancillary to an industrial activity on the property and which is limited to whichever is the lesser of the
	following:
	i. maximum <i>retail floor space</i> of 100m ² ; or ii. maximum <i>coverage</i> of 20%.
	b) service stations;
	c) trade supply retail and yard based retail which has a maximum retail floor space of 500m ² ; or

Appeals Version March 2018 - [6-92] - Industrial/Service Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table, and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Standards			
 d) food and beverage outlets that: i. are not off-license licensed premises; ii. sell food that is prepared on-site (only) and beverages (which may or may not be prepared on-site); iii. have a maximum retail floor space of 100m²; and iv. have a maximum coverage of 20%. 2. Retail activities in the Ōtaki South Precinct must: a) not occupy more than 20% of the gross floor real vision each property (excluding areas zoned open space); b) be limited to activities permitted in standard 1 in pace extensive retailing; c) not exceed a maximum area of 800m² for each premises or tenancy. 			
 Office activities must be ancillary to the ind str al ctivity on the property and limited to whichever is the lesser of the following: a) maximum gross floor area of 300 n²; or b) maximum coverage of 20%.

Table 6F.2 Controlled Activities

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
1. Boundary adjustments and subdivisions where no additional lots (other than reserves or legal road to be vested in Council) are created.	 Each lot must have legal and physical access to a legal road. No further development potential shall be created as a result of the subdivision (i.e. through the creation of a small lot and a larger lot which can then be further subdivided and would not have met all restricted discretionary activity standards including minimum or average lot sizes prior to this subdivision occurring). Public roads, public water supply, was surant at stormwater systems must be available to serve the subdivision. Each lot, including any balance rulea, must be able to accommodate a building thich omplies with the permitted activity standard. The maximum bloch length shall also apply to any internal packing, roposed. The relevant candards under Rules 6F.3.4 must be complied with, including any additional restricted discretionary activity standards for subdivision attached as notations to structure plans. Where the zone standards and standards attached as notations 	 Matters over which Council reserves control Design and layout of the subdivision and earthworks. Vericle access points onto legal road including the State light ay Network. Visual, character and amenity effects. Design, size, shape and location of reserves and esplanade reserves. The location of any associated building area(s) relative to any identified natural hazards, historic heritage feature, notable tree, ecological site, key indigenous tree, key indigenous tree species, rare and threatened vegetation species, geological feature and outstanding natural features and landscapes. Natural hazard management. Council's Subdivision and Development Principles and Requirements 2012. The imposition of financial contributions in accordance with Chapter 12 of this Plan. Imposition of encumbrances on titles to prevent or limit further subdivision. Imposition of conditions under sections 108 and 220 of
	differ, the notations shall take precedence. 7. The Esplanade Reserve and Esplanade Strip	the RMA.

Appeals Version March 2018 - [6-96] - Industrial/Service Zone

Table 6F.2 Controlled Activities

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
	provisions of Schedule 8.1 must be complied with.	

The following activities are **restricted discretionary** activities, provided that they comply with all corresponding restricted discretionary activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Restricted Discretionary Activities	Standards	Matters over which Council will restrict its discretion
1. Any activity which is listed as a permitted activity or a controlled activity and does not comply with one of more of the associated standards, unless otherwise specifically stated.		 Consideration of the effects of the standard not met. Measure to avoid, remedy or mitigate adverse effects. Cumulative effects.
 2. On Lot 2 DP 441854 (Milne Drive, Paraparaumu): a) the storage, display and sale of goods and materials used in the construction, repair, alteration, and renovation of buildings and includes builders' supply and plumbing supply centres and building display centres and garden centres; and b) any industrial activity generating more than 50 vehicle movements in any hour. Criteria for notification Any application made under clause b) to establish any activity generating more than 50 vehicle 	 The floor area of all buildings must not exceed 10,000m². The activity must comply with all pern ated activity standards for the Industrial/Se vice Zone, except where discretion is served over any matter that is the subject of a permitted activity standard. Note: Information to be included with a Transport Assessment for any activity requiring consent under this rule shall include a ravel Plan and a traffic demand analysme plan which shall seek to minimise the effects of vehicle travel by staff, contractors of suppliers on the local and arterial road network. 	 1. I raffic and parking, in particular the potential impact of traffic generated by the proposed activity on the amenity values and quality of access of the Midlands area, and on the existing and expected local road network (including roads under construction and State Highway 1). 2. Design and appearance of car parking areas. 3. Screening and landscape design and planting. 4. Earthworks. 5. The layout, design and appearance of any building, in particular the inclusion or treatments of features on the exterior facades of any building facing south or east to mitigate the appearance of long blank walls (e.g. canopies and entrance structures), and the use of colours and advertising or business identification.

Table 6F.4 Discretionary Activities

The following activities are discretionary activities.

Discretionary Activities

1. Any activity which is listed as a *restricted discretionary activity* and does not comply with one or more of the associated standards, otherwise specifically stated.

Table 6F.5 Non-Complying Activities

The following activities are non-complying activities.

Non-Complying Activities

- 1. Activities which create offensive odours detected at any boundary adjoining a Living Zone.
- 2. Offensive trades within 100 metres of the boundary of a Living Zone.
- 3. An asphalt plant or any offensive trade as defined in the Health Act 1956 located on the Industrial Service Zone land adjoining the Paraparaumu Quarry.
- 4. Off-license premises.
- 5. Residential activities that do not comply with any one or more of the permitted activity standards.
- 6. Retail activities, except for trade supply retail and yard based retail, that do not for the permitted activity standards.

6.1.2.7 Airport Zone

Introduction: Applicability of Rules in Tables 6G.1 - 6G.6

The rules in Tables 6G.1 to 6G.6 only apply to land and activities within the Airport Zone. There may be other rules within the District Plan that also apply to *sites* and activities within these *Zones*. Section 1.1 in Chapter 1 sets out how to use the Plan and identify other rules that may also apply to a *site* or activity.

Table 6G.1. Permitted Activities

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards
1. Any activity that is a <i>permitted</i> activity under the rules in	General permitted activity standards
Table 6G.1.	1. The activity must not cause offensive an objectionable odour, dust or smoke at or beyond the <i>boundary</i> of the <i>property</i> on which it is occurring.
	2. The maximum <i>height</i> of any fence on the perimeter <i>boundary</i> of the Airport <i>Zone</i> shall be 2 metres, except along the legal <i>road frontage</i> wher 3 th 2 maximum <i>height</i> shall be 1.8 metres.
	3. Any fencing associated with internal boundaries of the "Airport Buffer Precinct" must be visually permeable unless required to screen out, de storage.
	4. The maximum n. ight c. any curtilage fence shall be 2 metres, except along the airport road frontage where the maximum n height s. all be 1 metre and within the Airport Core Precinct where chain link fencing shall have a maximum n sight of 3 metres where required to comply with aviation safety requirements.
	Note: Refer to the Airport Zone Design Guide (Appendix 6.6) for standards on fencing and screening.
	5. Any lighting shall be directed so that spill of light will be contained within the <i>boundaries</i> of the <i>property</i> . Light level from the activity must not exceed 10 lux, measured 1.5 metres from the inside <i>boundary</i> of any adjoining residential <i>property</i> . This standard does not apply to street lighting on <i>roads</i> , or airport navigation, control and safety equipment.

Appeals Version March 2018 - [6-108] - Airport Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards
	6. All lighting must comply with all relevant Civil Aviation Authority requirements.
	7. Outdoor rubbish and general storage areas must be suitably screened in accordance with the design guidelines in Appendix 6.6 to ensure that they are not visible from streets or public spaces.
	8. Sites must be maintained so that they are clear of all rubbis. exc pt waste materials which are temporarily stored pending disposal elsewhere, and all materials (includir g grads, machinery, vehicles, boxes, crates, pallets and waste material) must be stored in a neat and tidy han e.
2. Any activity which is not	1. The activity complies with all <i>permitted activity</i> sandar san
specified as a permitted, controlled, restricted discretionary, discretionary, non-complying or Prohibited activity in the rules in Tables 6G.1-6G.5.	Note: See Rule 9A.1.2 for separation of <i>buildings</i> an <i>structures</i> from <i>waterbodies</i> standards, Tables 11P 1-11P.4 for Parking, Tables 11B.1 – 11B.5 in relation to water and Table 12A.1 in relation to <i>financial contributions</i> rules and standards for all <i>development</i> .
Buildings and land use activities.	1. No building shall create a nt some of glare to aircraft operations.
activities.	2. New <i>buildings</i> must be finished in neutral, <i>recessive</i> colour tones that do not visually dominate their surroundings or are obtrusive. Colour solvemus must be submitted to the <i>Council</i> .
	3. All buildir go must fit within a height envelope which is made up of recession planes which commence at a point 2.1 metres bove in Living Zone boundary and inclines inwards at an angle of 45 degrees (refer to definition of height envelope and dia grams in Chapter 1).
	4. Noise from any activity other than <i>aircraft operations</i> or engine testing must meet the relevant <i>permitted activity</i> standards in Chapter 12.
	5. Within the Aviation Heritage Precinct, new buildings and additions to existing buildings must be set back 5 metres from the boundary with Kāpiti Road.

Appeals Version March 2018 - [6-109] - Airport Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards
	 Within the Airport Mixed Use Precinct, new buildings and additions to existing buildings must be set back 15 metres from the boundary with Kāpiti Road. A report for each proposed building or development must be perpared by a suitably qualified person demonstrating how the development will achieve hydraulic neutrality so the pear flows from the site in a 1 in 5 year, 1 in 10 year and 1in 100 year design rainfall event do not exceed the prer development peak flows for the same design rainfall event, and must be provided to Council. Note: Please refer to Rules 11B.1 – 11B.3 in relation. We and stormwater rules for all development, and Rule 9A.1.2 for separation of buildings and structures from we exhaust exhaust and stormwater rules for all development, and Rule
4. Within the Airport Core Precinct, aviation activities and aviation service activities, including retail activities and activities ancillary to aviation activities.	 Retail activities shall be located within or a light end to the main airport terminal building and primarily serve aviation users. The maximum height of any new lailage structure from original ground level shall be: a) 25.0 metres for a single control tower in the Airport Core Precinct; and b) 15.0 metres for any other bir ding in the Airport Core Precinct. Ancillary activities to a value n activities are limited to meeting room facilities located within the main airport terminal building.
 5. Within the Airport Mixed Use Precinct, the following activities: a) Aviation activities and aviation service activities; b) One hotel/motel activity; c) Industrial activities; d) Trade/Wholesale; 	 The maximum (right coan), new building or structure from original ground level shall be 15.0 metres for any building nat is used for industrial, logistics or distributional purposes, and 12.5 metres for all other purposes. Provide the maximum height shall be 10.0 metres within 50.0 metres of any Rural or Living Zone or within 50.0 metres of the southern side of the Kapiti Road reserve. The maximum area covered by buildings or impermeable surface area is 75%. The remaining 25% must be permeable to water and landscaped.
e) Commercial (including logistics or distribution uses) and retail activities,	 A landscaping scheme must be provided to Council showing the position of proposed landscaping, size and species of plantings. This will need to demonstrate: a) that the proposed landscaping will enhance the public space and, where appropriate, screen car-parking areas

Appeals Version March 2018 - [6-110] - Airport Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities Standards		Standards
f) g) h) i) k)	provided that retail activities are limited to: Retail activity ancillary to industrial or warehousing activities; Home Improvement Retail activities;	standards in line with the provisions in the design guide; and b) that, in all precincts except the Airport Buffer Precinct where restricted water supply is permitted, the proposed landscaping can be achieved without the need for irrigation from the public potable water supply. 4. Any retail activity associated with any non-retail activity mus not exceed 15% of the gross floor area of the non-retail activity, or 150m² gross floor area, whichever is the les er. 5. The total area for Large Format Retail activities in estimate and Marine Supplier activities. 7. The total area for Home improvement retall activity must not exceed 17,000m² gross floor area. 8. The total area for Small-Scale Convellence Retail activity must not exceed 1,500m² gross floor area. However, an additional 800m² gross floor area in in energial services must not exceed 1,200m² gross floor area. However, an additional 700m² gross floor area. Sall be permitted once the total gross floor area of all development within the Airport Zone exceeds 0,0,0 m² gross floor area. 10. For both Small-Scale one in a single "node" (i.e. in adjoining tenancies) or single integrated development. There sall the aninimum of 100 metres between such nodes.
		11. The Airport — wer must provide a yearly monitoring report to the <i>Council</i> (or longer period at the discretion of the <i>Council</i>) to assist it to monitor compliance with the above standards.
Pre	thin the Airport Buffer ecinct, recreation, nservation, and water anagement activities and	 The maximum <i>height</i> of any new <i>building</i> or structure from <i>original ground level</i> shall be 4 metres. The maximum <i>gross floor area</i> for any <i>building</i> is 30m².

Appeals Version March 2018 - [6-111] - Airport Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards	
activities permitted in the Open Space (Conservation & Scenic) Zone (except production forestry).	 The total gross floor area of buildings must not exceed 300m². Buildings must be associated with permitted activities within the "Airport Buffer Precinct" or utilities required to serve the Airport Zone. 	
7. Within the Aviation Heritage Precinct, heritage and associated and supporting activities.	76,	
8. Weather monitoring equipment and other meteorological facilities, installations, or equipment to measure, collect and distribute meteorological information on Section 1 SO 36625.		
9. Residential activities for those whose employment requires residence within the Airport Zone.	 Residential activities it ist: a) be ancillary to a permitted activity on-site; b) not include profet in the endusehold unit per property; c) not be greated by 70m² in total floor area per property; d) residential accommodation for a caretaker or other person whose employment requires that they live on the property where they are employed. 2. No residential accommodation for those whose employment requires residence within the Airport Zone shall be sold or otherwise disposed of except in conjunction with the associated industrial building. The residential building may, however, be removed from the property. 	

Appeals Version March 2018 - [6-112] - Airport Zone

The following activities are **permitted** activities, provided that they comply with all corresponding permitted activity standards in this table and all relevant rules and permitted activity standards in other chapters (unless otherwise specified).

Permitted Activities	Standards	
10. Residential activity in the Airport Mixed Use Precinct located to the west of the Airport Core Precinct and outside of the Airport Noise Effects Advisory Overlay as identified on the District Plan Maps that has obtained subdivision consent for the residential activity.	1. The activity must meet the Residential Zone permitted activity standards for residential activities.	
11. Earthworks, except in Area Y shown on the Precinct Plan.	 Earthworks must not be undertaken: a) within 20 metres of a waterbody, in the control of waterbody, in the control of activities associated with the formation or maintenance of the watercourse or stormwater control; and b) within fill control areas unless, povision is made to drain the total sub-catchment contributing to the flood control area and that the stormy are carnibe drained in less than four hours. In all other areas, no equal to large and linvolve the disturbance of more than 100m³ (volume) of land and shall alter the original ground level by report of the proving and linvolve the disturbance of more than 100m³ (volume) of land and shall alter the original ground level by report of the proving activities associated with approved building developments, provided that the large and more than 2.0 metres beyond the foundation line of the building in any 12 mont period. Earthworks for read maintenance activities within road reserves are exempt from complying with Standards 1 and 2 above. The Accidental Discovery Protocol, set out in Schedule 10.2, must be followed. Note: The resource consent requirements for the removal or replacement of underground fuel storage tanks fall under the Resource Management (National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health) Regulations 2011, and the relevant regional plan(s). 	

Appeals Version March 2018 - [6-113] - Airport Zone

The following activities are **controlled** activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
Buildings and structures in the area marked on the Airport Precinct Plan as Proposed Runway 12/30. Criteria for notification The written approval of persons will not be required and applications under this rule will not be served on any person or notified.	There must be no above ground buildings, structures, facilities or uses which are inconsistent with the use of the area as an imperative use runway.	 Site layout and design including location of building(s) and building curtilages, landscaping, carparking, fencing and strace treatments. The extent of consistency with the Design Guidelines for the Airport Zone in Appendix 6.6. The Council's Subdivision and Development Principles and Requirements 2012. The extent of consistency with the Crime Prevention Through Environmental Design principles in Appendix 5.5. The imposition of financial contributions in accordance with Chapter 12 of this Plan.

Appeals Version March 2018 - [6-114] - Airport Zone

The following activities are controlled activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities

2. New buildings

Criteria for notification

The written approval of persons will not be required and applications under this rule will not be served on any person or notified.

Standards

- 1. Within the Airport Mixed Use Precinct, any *development* where the cumulative *gross floor area* in the Precinct does not exceed 102,900m².
- As part of the first development within the Airport Zone an Environmental Management Plan (EMP) must be prepared jointly by a suitably qualified landscape architect and ecologist in consultation vith a stormwater engineer, the Council and the representatives of local tāngata whenua.
- 3. The EMP shall aim to ensure the development and protection of healthy wetlands and striams, and their integration with public access, visual supering, and stormwater management. It shall in Jude but not be limited to, the following matters:
 - a) the identification and provision of threatened wetland plant and first spaces,
 - b) the design and management of wetland systems to ensure ecological continuous are achieved;
 - c) the design a. d mai age, ent of watercourses to ensure corridor are maintained for movement of fres. were also :
 - d) the design of *vaterbodies* to discourage flocking waterfow....at may increase the risk of bird strike at the airfield:
 - e) the integration of waterways with stormwater management systems to ensure water quality is maintained and ecological values are protected;
 - f) integration of public access including cycleways, walkways and bridleways required to give effect to

Matters over which Council reserves control

- 1. Site yout and design including location of building(s) and by ilding curtilages, landscaping, carparking, fencing and surface treatments.
 - E tternal design, colour, finish and appearance of pulldings.
- Within the area marked "curtilage" on District Plan Map 11A, the desirability of maintaining views of, and a visual connection to, part of the primary runway from the cab of the control tower in the Aviation Heritage Precinct.
- 8. The installation of *water saving devices* and energy efficient technologies.
- 9. The provision of communal open space.
- 6. The extent of consistency with the Design Guidelines for the Airport Zone in Appendix 6.6.
- 7. The *Council's* Subdivision and Development Principles and Requirements 2012.
- 8. The extent of consistency with the Crime Prevention Through Environmental Design principles in Appendix 5.5.
- 8. The imposition of *financial contributions* in accordance with Chapter 12 of this Plan.

Appeals Version March 2018 - [6-115] - Airport Zone

The following activities are controlled activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
	the objectives and policies, including the provision of public access along any open streams; g) integrated planting for shelter, screening and public <i>open space</i> ; h) timeframes to complete any works required by (a) through to (f); i) monitoring and reporting to the <i>Council</i> and <i>tāngata whenua</i> on the achievement of the EMP intended outcomes; and j) the ongoing maintenance of the Airport Buffort Precinct. 4. The EMP will have two parts. The first part will relate to the Buffer Precinct. It will be formula and at the outset of <i>development</i> and in concert with a Stormwater Management Plante ans re integration. The second part will relate to stage I development of the Airport Core and Airport Microscope Use Precincts. 5. As part of the first anyear and within the Precinct a Stormwater Management Plante and approved by the Council, that addresses the issues hiserian he design Guide, the EMP, and the Subdivision and vevelopment Principles and Requirement in the Stormwater Management Plantest demonstrate how hydraulic neutrality for the site will be achieved, and will identify the forms of low impact stormwater technology to be utilised for the sites development, e.g. including swales, rain gardens, roof runoff water tanks among others.	 10. The expected traffic generation from the Airport Zone. 11. The effects on the transport network and State Highway with in the District, and the timing of any improvement torks in the transport network and State Highway 1.

Appeals Version March 2018 - [6-116] - Airport Zone

The following activities are controlled activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
	 Subsequent developments within the site must comply with the minimum requirements specified in the EMP detailed in 2-4 above and the Stormwater Management Plan detailed in 5 above. 	
	Note: The approval of applications for resource consent will be subject to the imposition of a consent notice or other permanent encumbrance on the title of the land the ensure ongoing compliance with the EMP and the	
	Note: The management of wetlands and waters dies is to be in accordance with Greater Wellington Regional Council publications: "Mind the Stream;" " you're	
	thinking about a pond"; "Understanding the Wet in Wetlands" and the Council's "Wharer auk Stream Community Freshwater Plan".	
	7. The following thresholds apply to all development within the Airport Miled Scholereinct: a) for any development in at exceeds a cumulative gross moor and a of 43,050m², a transport	
	as essror must be carried out which considers the impact of the cumulative development of the area of the safety and efficiency of the transport network. The assessment must include (but not	
	 be limited to) the following matters: i. the proposed staging of the operation of the development; ii. traffic and transport generation pre- and post-development operation; 	

Appeals Version March 2018 - [6-117] - Airport Zone

The following activities are controlled activities, provided that they comply with all corresponding controlled activity standards in this table, and all relevant rules and standards in other chapters (unless otherwise specified).

Controlled Activities	Standards	Matters over which Council reserves control
	 iii. transport network upgrades; iv. the design of off-site roading links and intersections; v. the route and design of internal airport roads; vi. public safety measures; and vii. environmental and community impacts. b) for any development that exceeds a cumulative gross floor area of 62,500m² a further transport assessment must be carried out which considers the impact of the cumulative development of the area on the safe and efficient operation of the transport network. The assessment shall address the same factors as specified it standard 7 a) above. Note: Irrespective of the above to resheds, any activity which results in a cumulative general of development in the Airpor Mixed Use Precinct of more than 102,900m² shall be a restricted discretionary activity under Rule 6G.3.2, and shall require a further transport assessment 	
3. New airport <i>roads</i> Criteria for notification The written approval of persons will not be required and applications under this rule will not be served on any person or	All roads m comply with the relevant permitted activity standards in Chapter 11.	 The route, design, and standard of construction of the road, including pedestrian footpaths, cycle paths, landscaping, stormwater runoff, earthworks, preservation of viewshafts to the Tararua Ranges and Kāpiti Island, safety and the provision of access for public transport.
